**Review report on the interim condensed consolidated financial statements
To the Chairman and members of the Board of Directors of Offtec Holding Group
(Public Shareholding Company)**

Introduction

We have reviewed the accompanying interim condensed consolidated statement of financial position of the Offtec Holding Group (the “Company”) and its subsidiaries (together the “Group”) as at 31 March 2024, and the related interim condensed consolidated statements of income and interim condensed consolidated statement of comprehensive income for the three months period ended 31 March 2024, the interim condensed consolidated statements of changes in shareholders’ equity and interim condensed consolidated statement of cash flows for the three months period then ended and explanatory notes. Management is responsible for the preparation and presentation of these interim condensed consolidated financial statements in accordance with International Accounting Standard (34) “Interim Financial Reporting”. Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

Scope of Review

We conducted our review in accordance with the International Standard on Review Engagements 2410 “Review of interim financial information performed by the Independent Auditor of the Entity”. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurances that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements are not properly prepared, in all material respects, in accordance with IAS (34) related to interim financial reporting.

(1) GENERAL INFORMATION

OFFTEC Holding Group is a Public Shareholding Company and registered in the public shareholding companies registry on 7 December 2004 under No. 355 at the Companies Controller at the Ministry of Industry and Trade.

The Company's authorized, subscribed and paid-up capital is JD 34,850,000 as at 31 March 2024 and 31 December 2023, divided into 34,850,000 shares, each with a nominal value of 1 JD.

The Company is listed in the Amman Stock Exchange.

The Company's main objectives are as follows:

- Managing the subsidiaries of the company or participating in the management of other companies in which it owns shares.
- Investing its money in shares, bonds and securities.
- Providing loans, guarantees and financing to its subsidiaries.
- Owning patents.
- Owning trademarks.

The Group's head office is located in Amman - Jabal Amman - Third Circle.

These interim condensed consolidated financial statements were approved by the Board of Directors on 29 April 2024.

(2) MATERIAL ACCOUNTING POLICY INFORMATION

2.1 Basis of preparation of the interim condensed consolidated financial statements

The accompanying interim condensed consolidated financial statements for the three months ended 31 March 2024 have been prepared in accordance with the IAS (34), (Interim financial reports).

The Jordanian Dinar is the presentation currency for the interim condensed consolidated financial statements and is the Group's functional currency.

The interim condensed consolidated financial statements have been prepared under the historical cost convention.

These interim condensed consolidated financial statements do not include all information and notes required in the annual consolidated financial statements which are prepared in accordance with the IFRS, and should be read along with the Group's annual report as at 31 December 2023. The results for the three months business ended 31 March 2024 are not necessarily indicative of the results that may be expected for the year ending 31 December 2024. No provision was made for the profit of the three-month period ended 31 March 2024 which is done at the end of the financial year.

2.2 Changes in accounting policies and disclosures

(A) New and amended standards and interpretations adopted by the Group in the financial year beginning in early January 2024:

Amendments and new standards	Effective date
<p>Classification of Liabilities as Current or Non-current – Amendments to IAS 1 Non-current Liabilities with Covenants – Amendments to IAS 1 - These amendments clarify how conditions with which an entity must comply within twelve months after the reporting period affect the classification of a liability. The amendments also aim to improve information an entity provides related to liabilities subject to these conditions.</p>	1 January 2024
<p>Lease Liability in a Sale and Leaseback – Amendments to IFRS 16: These amendments include requirements for sale and leaseback transactions in IFRS 16 to explain how an entity accounts for a sale and leaseback after the date of the transaction. Sale and leaseback transactions where some or all the lease payments are variable lease payments that do not depend on an index or rate are most likely to be impacted.</p>	1 January 2024
<p>Supplier finance arrangements – Amendments to IAS 7 and IFRS 7: These amendments require disclosures to enhance the transparency of supplier finance arrangements and their effects on an entity’s liabilities, cash flows and exposure to liquidity risk. The disclosure requirements are the IASB’s response to investors’ concerns that some companies’ supplier finance arrangements are not sufficiently visible, hindering investors’ analysis.</p>	1 January 2024
<p>Sale or contribution of assets between an investor and its associate or joint venture – Amendments to IFRS 10 and IAS 28 - The IASB has made limited scope amendments to IFRS 10 Consolidated Financial Statements and IAS 28 Investments in Associates and Joint Ventures. The amendments clarify the accounting treatment for sales or contribution of assets between an investor and their associates or joint ventures. They confirm that the accounting treatment depends on whether the nonmonetary assets sold or contributed to an associate or joint venture constitute a ‘business’ (as defined in IFRS 3 Business Combinations).</p>	-

The application of the above standards did not have any significant impact on the interim condensed consolidated financial statements.

(B) New and amended standards and interpretations issued but are not yet effective and not early adopted:

The Group did not apply the following new standards, amendments and interpretations which have been issued but are not yet effective to date:

<p>Amendments to IAS 21 – Lack of Exchangeability</p> <p>An entity is impacted by the amendments when it has a transaction or an operation in a foreign currency that is not exchangeable into another currency at a measurement date for a specified purpose. A currency is exchangeable when there is an ability to obtain the other currency (with a normal administrative delay), and the transaction would take place through a market or exchange mechanism that creates enforceable rights and obligations.</p>	<p>Annual periods beginning on or after 1 January 2025 (early adoption is available)</p>
---	--

Management is still in the process of evaluating the impact of these new amendments on the interim condensed consolidated financial statements, and it believes that there will be no material impact on the interim condensed consolidated financial statements when they are applied.

There are no other relevant IFRS Accounting Standards, amendments to the published standards, or IFRS Interpretation Committee's interpretations that have been issued but did not come into effect for the first time for the Company's financial year that began on 1 January 2024 and was expected to have significant effect on the Company's interim condensed consolidated financial statements.

2.3 Basis of consolidation of financial statements

The Group's consolidated financial statements include the financial statements of the Company and the subsidiaries controlled by the Group. Control is achieved when the Group has rights to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. The investee is controlled only when the following is achieved:

- The Group's control over the investee (existing rights that grant the Group the ability to direct the related activities of the investee).
- The Group or its rights are exposed to the variable returns arising from its involvement with the investee.
- Ability to exercise control over the investee and influence its returns.

When the Group has less than majority of the voting rights or the similar in the investee, the Group takes all relevant facts and circumstances into account to determine whether it has control over the investee, including:

- Contractual arrangements with the other holders of voting rights in the investee.
- Rights arising from other contractual arrangements.
- Current and potential voting rights of the Group.

The Group reassesses whether it controls the investee if circumstances or facts indicate a change in one or more of the three control elements.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the parent of the Group and to the non-controlling interests even if this results in a deficit in the balance of the non-controlling interests. If necessary, the financial statements of subsidiaries are adjusted to confirm their accounting policies with the Group's accounting policies. Assets, liabilities, equity, income, expenses, and transaction gains and losses are eliminated between the Group and its subsidiaries.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of income from the date the Group gains control until the date when the Group ceases to control the subsidiary.

Changes in equity

The Group considers transactions with non-controlling interests that do not result in a loss of control as transactions with equity owners of the Group. A change in ownership interest results in an adjustment between the carrying amounts of the non-controlling and controlling interests to reflect their relative interests in the subsidiary. Any difference between the amount of the adjustment to non-controlling interests and any consideration paid or received is recognised in a separate reserve in the Group owners' equity.

When the Group ceases consolidation or equity account for an investment because of a loss of control, joint control or significant influence, any retained interest in the Company is remeasured to its fair value with the change in carrying amount recognised in profit or loss. This fair value becomes the initial carrying amount for the purposes of accounting for the retained interest as an associate, joint venture or financial asset. In addition, any amounts previously recognised in the statement of other comprehensive income in respect of that entity are accounted for as if the Group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognised in the statement of other comprehensive income are reclassified to profit or loss.

If the ownership interest in a joint venture or an associate is reduced while retaining joint control or effective influence, the shares from the amounts previously recognised in the statement of other comprehensive income are reclassified to profit or loss as appropriate.

(3) CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of the interim condensed consolidated financial statements and the application of accounting policies require the Group's management to make estimates and judgments that affect the amounts of financial assets and liabilities, and to disclose contingent liabilities. Also, these estimates and judgments affect revenues, expenses and provisions, and in particular, the Group's management must issue important judgments and judgments to estimate the amounts and timing of future cash flows. The aforementioned estimates are necessarily based on multiple assumptions and factors with varying degrees of estimation and uncertainty, and the actual results may differ from the estimates as a result of changes resulting from the conditions and circumstances of those estimates in the future.

In order to prepare these interim condensed consolidated financial statements, the significant judgments made by management in applying the Group's accounting policies and the main sources of uncertainty estimates were the same judgments and sources applied in the Group's audited consolidated financial statements for the year ended 31 December 2023.

(10) REVERSE ACQUISITION RESERVE

As required by IFRS 3, the equity structure of the Group's consolidated financial statements (number and type of equity interests issued) should reflect the equity structure of Offtec Holding (listed in Amman Stock Exchange). Therefore, the difference between the equity of the Company and the net assets of the Jordan Scientific Library Company was recognized as a separate reserve in equity (reverse acquisition reserve amounting to JD 18,627,185) instead of deduction from the paid-up capital, in order to comply with the legal requirements for capital in the Hashemite Kingdom of Jordan.

(11) SHAREHOLDERS' EQUITY

Authorized, subscribed and paid-up capital

The authorized, subscribed, and paid-up capital of the Group is JD 34,850,000, divided into 34,850,000 shares, each with a nominal value of 1 JD.

Shareholders that have significant influence over the Group were as follows:

Statutory reserve

According to the Jordanian Companies Law and the Company's by-laws, the Company should transfer 10% of its annual net profit to the statutory reserve, and continue to do so each year provided that the total transferred amounts to the reserve do not exceed 25% of the Company's capital. For the purposes of this law, net profits represent profits before the income tax and fees provision. This reserve is not distributable to shareholders. No statutory reserve is deducted during the period ended 31 March 2024, as the deduction is made at the end of the year.
