SUMMARY BACKGROUND INFORMATION

I. Redemption and Cancellation of the Series "F" Preferred Shares and Increase of the Bank's Capital

In 2012, Bank Audi issued 1,500,000 Redeemable Series "F" Preferred Shares at an issue price of U.S.\$100.00 per Series "F" Preferred Share. Each Series "F" Preferred Share carries annual distribution rights of U.S.\$6.00. The terms of the Series "F" Preferred Shares provide, among other things, that the Bank may, at its option and subject to certain conditions, redeem and cancel all of the Series "F" Preferred Shares within 60 days following the later of (a) the date of the Ordinary General Meeting at which the annual audited financial statements of the Bank for the year ended 31 December 2016 are approved (which was held in April 2017) or (b) within 60 days following the fifth anniversary of the date of the Confirmation EGM (i.e. within 60 days following June 22, 2017), in the Bank's sole discretion, at a redemption price of U.S.\$100 per share plus any declared but unpaid Series "F" Distributions (as defined in the terms of the Series "F" Preferred Shares).

In its meeting held on March 20, 2017, the Board of Directors of the Bank resolved to redeem and cancel the Series "F" Preferred Shares. The Bank has confirmed that all conditions precedent to the redemption of the Series F Preferred Shares have been fulfilled, including that the Bank is in compliance with all relevant applicable ratios and regulations of the Central Bank of Lebanon, as well as the availability of sufficient free reserves for the purpose of such redemption. Such redemption is expected to be completed on July 7, 2017. Pursuant to the terms of the Series "F" Preferred Shares, upon the redemption of the Series "F" Preferred Shares, the shares shall be cancelled and the nominal value of each of the remaining shares constituting the outstanding share capital of the Bank shall be adjusted to reflect such cancellation. This adjustment of the nominal value of each remaining share would result in the increase of the nominal value of each of the remaining shares constituting the Bank's outstanding share capital from LL 1,656 to LL 1,662.14093. In order to round the nominal value of each individual share up to LL 1,663 for practical purposes, the Board of Directors has resolved, subject to the approval of the General Assembly and of the Central Bank of Lebanon, to increase the capital of the Bank by LL 347,494,428 through the incorporation of free reserves into the capital of the Bank.

II. Issuance of Series "J" Preferred Shares

In its meeting of March 20, 2017, the Board of Directors, pursuant to a recommendation of its Group Executive Committee, determined that it would be beneficial to proceed with the issue of a new series of preferred shares to increase the Bank's share capital. In making such determination, the Board of Directors considered the structure of the Bank's current share capital, the Bank's expected growth and the current advantageous market conditions for issuances of new series of preferred shares. The Board of Directors noted that, if the issuance of a new series of preferred shares is approved, the net proceeds thereof will be used for general funding purposes (including, but not limited to, strengthening the Bank's capital structure and funding

external growth). Accordingly, the Board of Directors resolved to propose to the General Meeting to approve the issuance of a new series of preferred shares, to be titled the Series “J” Preferred Shares (the “Series J Preferred Shares”) on the indicative terms and conditions summarized below:

Indicative terms and conditions applicable to the Series J Preferred Shares:

The Series J Preferred Shares

Non-Cumulative Redeemable Perpetual Convertible Series J Preferred Shares, which are expected to constitute Additional Tier 1 Capital.

Issue Size

[U.S.\$150,000,000 – U.S.\$200,000,000] Indicative subject to increase.

Issue Price

U.S.\$100.00 per share, of which LL 1,656 shall represent the nominal value of each share, with the balance, which the Bank intends to maintain in U.S. Dollars, consisting of the issue premium.

It is expected that the Issue Price, consisting of the nominal value and the premium in excess thereof, will constitute Additional Tier 1 Capital.

Maturity; Tenor

Perpetual, subject to the terms of the Call Option. The Series J Preferred Shares have no fixed redemption date, and the Bank shall only have the right to redeem in the limited circumstances set out below.

See “—Call Option” below.

Indicative Annual Distribution Rate

It is expected that distributions, if any, in an amount equivalent to 7.00% of the Issue Price will be paid annually to holders of the Series J Preferred Shares (subject as set out below).

There is no step-up in the distribution rate.

However, the Issuer may, in its sole discretion, elect to cancel any distribution in respect of the Series J Preferred Shares.

Distributions shall be payable to holders of Series J Preferred Shares solely out of Distributable Net Income for the Year, in U.S. Dollars, on account of fiscal year 2016, at a rate to be determined per Series J Preferred Share (representing a dividend yield of 7.00% per annum pro rated to approximately reflect the remaining period from the Issue Date to year-end 2017 and to compensate for the fact that Distributions will not be paid in respect of the year in which the Call Option is exercised (if and when the Call Option is exercised)) and, on account of each fiscal year thereafter, in an aggregate amount to be determined on or before the issue date at the rate of U.S.\$7.00 per Series J Preferred Share (representing a dividend yield of 7.00% per annum), subject to adjustment in the event of any stock split or combination affecting the share capital of the Bank (but not upon any other event, including the issuance of any new shares below market value, stock dividends or a recapitalisation of the Bank’s share capital). Distributions will be made in U.S. Dollars.

Condition to Payments of Distributions

All payments of Distributions are conditional upon:

(x) the Bank being in full compliance with then applicable regulations and financial ratios of the Central Bank and the Banking Control Commission in respect of the payment of dividends or other distributions and to verification of such compliance by the Banking Control Commission;

(y) such Distributions having been recommended by the Board of Directors and approved by the shareholders of the Bank pursuant to a resolution adopted at the Ordinary General Meeting (or any other shareholders' meeting) at which the most recent annual audited financial statements of the Bank are approved and the Central Bank and/or the Banking Control Commission not having required the Issuer to cancel such Distributions; and

(z) the availability of Distributable Net Income for the Year in an amount sufficient to cover such Distributions and distributions in respect of any Outstanding Preferred Shares at the time ranking pari passu with the Series J Preferred Shares in respect of distributions.

In any case, the actual amount distributable in respect of the Series J Preferred Shares for any year shall be determined by, and otherwise be subject to the approval of, the Bank's Shareholders at the General Meeting of Shareholders (or any other shareholders' meeting) at which the relevant annual audited financial statements of the Bank are approved.

In the event that the Bank exercises the Call Option, as provided below, no Distributions shall be payable in respect of any Series J Preferred Shares for the year in which such Series J Preferred Shares are redeemed and canceled.

Distributions Not Cumulative

The right to Series J Preferred Share Distributions shall not be cumulative. If Series J Preferred Share Distributions for any year are not declared and paid for any reason, holders of Series J Preferred Shares will not be entitled to receive such Distributions whether or not funds are or subsequently become available.

Optional Distribution Cancellation

The Bank may, at its sole discretion, taking into account its specific financial and solvency condition, elect to cancel any Distribution, in whole or in part, on a non-cumulative basis at any time, including upon a Mandatory Conversion. Any Distribution that has been duly cancelled is no longer due and payable at any time by the Bank, whether in a liquidation or otherwise. Cancellation of a Distribution payment does not constitute an event of default and does not entitle holders to petition for the insolvency or winding up of the Bank.

Dates of Payment

Distributions, when declared and not cancelled, shall be paid on the date determined at the General Meeting of Shareholders at which the relevant annual audited financial statements of the Bank and the amount and payment of such Distributions are approved. It is expected that the first annual Distribution will be paid following the General Meeting of Shareholders at which the annual audited financial statements of the Bank for the year ended December 31, 2017 are approved (expected to be in April/May 2018).

The actual date on which a Distribution shall be made shall be determined by a resolution of the Ordinary General Meeting of Shareholders (or such other Shareholders' meeting).

Distributable Net Income for the Year

"Distributable Net Income for the Year" is, for any year, the Bank's net income for such year, calculated after deduction of legal and regulatory reserves, set out in the Bank's audited unconsolidated financial statements as at the end of such year, as approved by the shareholders of the Bank at the annual Ordinary General Meeting of Shareholders (or any other shareholders' meeting); provided that if the Bank reasonably determines that the Distributable Net Income for the Year as at any distribution determination date is lower than the Distributable Net Income for the Year as at the date of the Bank's latest audited statement of financial position and is insufficient to pay the Distributions and any payments on instruments that rank *pari passu* with the Series J Preferred Shares in respect of distributions on the relevant payment date, then on certification by two Directors and the auditors of the Bank of such revised amount, the Distributable Items shall for the purposes of Distributions mean the Distributable Net Income for the Year as set forth in such certificate.

Distributions Subject to Tax

Payments of Series J Preferred Share Distributions are subject to withholding tax in Lebanon, currently at the rate of 5%. The Bank will not pay any additional amounts to gross up in respect of such withholding tax.

Adjustment Events

The amount of Series J Preferred Share Distributions payable in respect of each Series J Preferred Share shall be subject to adjustment to reflect the occurrence of an Adjustment Event. Such amount will not be adjusted, however, to reflect any other event, including the issuance of any new shares below market value, stock dividends or a recapitalisation of the Bank's share capital.

Restrictions on Payment of Dividends upon Common Shares

So long as any Series J Preferred Shares shall be outstanding, the Bank shall not declare or pay any Distribution or other distribution upon its Common Shares during any fiscal year until full annual Distributions in respect of the Series J Preferred Shares (and any other Outstanding Preferred Shares of the Bank ranking *pari passu* with the Series J Preferred Shares in respect of distributions) shall have been paid or declared and set apart in respect of such fiscal year.

Voting Rights

Except in the limited circumstances described below and reflecting applicable Lebanese law (including Law 308 relating (among other things) to the issuance of shares by banks and dealings therein), the holders of Series J Preferred Shares shall not have voting rights.

Holders of Series J Preferred Shares shall have the right to participate in discussions regarding and to vote (on a pro rata basis with all holders of any other outstanding shares of the Bank, irrespective of the class thereof, including, the Outstanding Preferred Shares and the Common Shares of the Bank, determined on the basis of the nominal values of the respective classes of shares (provided that, in compliance with Article 117 of the Lebanese Code of Commerce, holders shall have the right to two votes per share in respect of any Common Shares owned by them for two years or longer)) in respect of the following:

(x) amendments to the object or legal form of the Bank;

(y) a capital increase by way of a contribution in kind of assets; and

(z) dissolution, liquidation or winding-up of the Bank or a merger scheme in which the Bank is a party.

Pursuant to Lebanese law, in the event that (i) the General Meeting of Shareholders of the Bank approves Distributions but the Bank fails to make such Distributions for three years or (ii) the Bank shall be in default in the provision of any of the rights or benefits attached to the Series J Preferred Shares, holders of Series J Preferred Shares shall have the right to participate in discussions regarding, and to vote (on the same pro rata basis as described above), on all matters that come before the Shareholders of the Bank, and such voting rights shall continue in effect until (i) payment of the Distributions is made on account of the prior year and the then-current year or (ii) such default is cured, as the case may be.

Law 308 further provides for the automatic establishment of an association of holders of Series J Preferred Shares to protect the interests of such holders, which may designate a representative that may attend shareholder meetings and participate in discussions regarding, but may not vote in respect of, matters presented therein, except under the limited circumstances described above.

Liquidation Preference

Subject as set out below in “—Mandatory Conversion” and to relevant provisions of Law 308, in the event of any voluntary or involuntary liquidation or winding-up of the Bank, the holders of the Series J Preferred Shares shall be entitled (on a pro rata basis with all holders of any other outstanding preferred shares of the Bank ranking pari passu with the Series J Preferred Shares in respect of distributions, including, the Outstanding Preferred Shares, determined on the basis of the respective issue price for such shares) to be paid out of the assets of the Bank available for distribution to its Shareholders, before any payment shall be made on the Common Shares of the Bank, an amount per Series J Preferred Share equal to

the sum of (x) the Lebanese Pound equivalent of U.S.\$94.00 per share, subject to adjustment to reflect any stock split or combination affecting the share capital of the Bank (but not upon any other event, including the issuance of any new shares below market value, stock dividends or a recapitalisation of the Bank’s share capital), and (y) all declared but unpaid Distributions on the Series J Preferred Shares.

Subject as set out below in “—Mandatory Conversion”, following payment of the above liquidation preference, holders of the Series J Preferred Shares will, upon liquidation of the Issuer, be entitled to participate in any remaining distributable assets of the Issuer on a pro rata basis with the Common Shares and any other preferred shares with a similar participation provision, based on the respective par values of the Series J Preferred Shares, the Common Shares and any such other preferred shares. Accordingly, if the Issuer is liquidated (and subject as set below in “—Mandatory Conversion”), the surplus, if any, remaining after payment of the Bank’s debts, liquidation expenses, liquidation preferences in respect of any series of unconverted preferred shares of the Bank at the time outstanding and any other obligations of the Bank will be distributed pro rata among all holders of Common Shares, Series J Preferred Shares and any other preferred shares with a similar participation provision.

Mandatory Conversion

If a Trigger Event occurs, the Series J Preferred Shares shall, upon the provision of a Conversion Notice, be mandatorily and irrevocably converted into Common Shares of the Bank (without the need for the consent of the holders of the Series J Preferred Shares) at a ratio of 15 Common Shares per Series J Preferred Share, subject to adjustment to reflect any stock split or combination affecting the share capital of the Bank (but not upon any other event, including the issuance of any new shares below market value, stock dividends or a recapitalisation of the Bank’s share capital).

Once the Series J Preferred Shares have been converted, they will not be restored in any circumstances, including where the relevant Trigger Event ceases to continue.

A conversion of the Series J Preferred Shares following a Trigger Event does not constitute an event of default and does not entitle holders to petition for the insolvency or winding up of the Bank.

The Series J Preferred Shares are not otherwise convertible into Common Shares of the Bank. A “Conversion Notice” is a notice that shall be given by the Bank not more than two Beirut business days after the occurrence of a Trigger Event to the holders of the Series J Preferred Shares stating, with reasonable detail, the nature of the relevant Trigger Event.

Trigger Event

A “Trigger Event” shall occur if (i) a Capital Adequacy Event occurs or (ii) a Non-Viability Event occurs and is continuing.

A “Calculation Date” is the last Beirut business day of any calendar quarter

A "Capital Adequacy Event" shall occur if, as of any Calculation Date, the ratio of the Bank's Common Equity Tier 1 Capital to its risk weighted assets as of such date falls below 66.25% of the minimum required from time-to-time under Central Bank of Lebanon regulations, including Decision 6939.

A "Non-Viability Event" shall occur if the Central Bank notifies the Bank in writing that it is of the opinion that a write-off or conversion is necessary, without which the Bank would become non-viable.

Availability of Common Shares Following Mandatory Conversion

Following a Mandatory Conversion, the Bank will be fully discharged from all of its obligations vis-à-vis the holders of the Series J Preferred Shares in respect of the Series J Preferred Shares upon making the Common Shares of the Bank available at Midclear for delivery to such holders for a period of 90days.

It shall be the responsibility of the holders of the Series J Preferred Shares to pay all applicable stamp, transfer, registration and similar taxes and duties, together with any value added or other tax thereon arising in connection with the transfer of the Common Shares and comply with all applicable laws and regulations relating thereto, including (x) if applicable, obtaining the consent of the Central Bank to the transfer of the Common Shares and (y) complete all formalities, documents and instruments as may be required to effect the delivery and transfer of the Common Shares, including such documents and instruments as may be required by Midclear and the Central Bank.

If a holder of Series J Preferred Shares requires the approval of the Central Bank in order to become the owner of Common Shares but fails to obtain such approval for any reason, then (i) it shall be such holder's responsibility to arrange for a transfer of its entitlement to the relevant Common Shares to a person who does not require the approval of the Central Bank and (ii) any failure to obtain approval of the Central Bank or to transfer the Common Shares in accordance with (i) shall not otherwise affect the rights of other holders of Series J Preferred Shares to receive Common Shares.

Ranking

The Series J Preferred Shares shall rank pari passu among themselves, with the Outstanding Preferred Shares (including any future series of preferred shares that may be issued by the Bank) in respect of:

(x) the right to receive distributions of assets payable in respect of the net profits of the Bank (other than as to the amounts thereof);

(y) the right to receive payments out of the assets of the Bank upon any voluntary or involuntary liquidation or winding up of the Bank (other than as to the amounts thereof); and

(z) the right to subscribe to newly-issued preferred shares of the Bank, if any (other than as to the number of newly-issued shares).

The Series J Preferred Shares shall rank senior to the Common Shares in respect of the right to receive distributions of assets payable in respect of the net profits of the Bank and the right to receive payments out of the assets of the Bank upon any voluntary or involuntary liquidation or winding up of the Bank.

The Series J Preferred Shares, however, will rank junior to any instruments that qualify as Tier 2 Capital, debt, liabilities (including, inter alia, all deposits and other liabilities of the Bank to general creditors and liabilities of all offices and branches of the Bank, wherever located) and other similar obligations of the Bank such that, in the event of the liquidation, dissolution or winding up of the Bank, the holders of debt instruments and other similar obligations of the Bank would be entitled to be repaid prior to the payment of any amounts to holders of Series J Preferred Shares.

The Series J Preferred Shares are not secured or covered by any guarantee from the Bank, any of the Bank's subsidiaries or members of its corporate group or any related party and do not benefit from any other arrangement that legally or economically enhances the preference or seniority of their claims.

Priority Subscription Rights

Each holder of Outstanding Preferred Shares will have the right to subscribe, on a priority basis, to the issue of Series J Preferred Shares, pro rata to their nominal holdings of Outstanding Preferred Shares, as applicable, at a rate of one Series J Preferred Share per Outstanding Preferred Share held by such holder. Any Series J Preferred Shares not subscribed by holders of Outstanding Preferred Shares will be allocated in the sole discretion of the Bank.

In order to exercise priority subscription rights, a holder of Outstanding Preferred Shares must submit a duly completed Purchase Application to the Bank, together with an indication that such holder is exercising its priority subscription rights and confirmation of the number of Outstanding Preferred Shares held by it, no later than the expiration of the subscription period that will be set by the Bank.

Holders of Outstanding Preferred Shares who fail to notify the Bank on a timely basis of their intention to exercise their priority subscription rights to purchase Series J Preferred Shares will be deemed to have waived such rights.

Holders of Series J Preferred Shares will have priority subscription rights to subscribe, pro rata with holders of other preferred shares of the Bank, including the Outstanding Preferred Shares, to newly-issued preferred shares of the Bank but not Common Shares. Newly-issued preferred shares purchased pursuant to an exercise of such priority subscription rights will be allocated on the basis of the nominal values of all shares carrying such rights, regardless of the respective issue prices for such shares.

Call Option

Subject to (i) compliance with any and all then applicable regulations and financial ratios of the Central Bank and the Banking Control Commission, including the availability of sufficient free reserves for the purpose, (ii) verification of such compliance by the Banking Control Commission and (iii) the approval of the Central Bank in accordance with the provisions of paragraph 5(A) of Article 5 of Decision 6939, the Issuer may, at its option, redeem and cancel the Series J Preferred Shares then outstanding, in whole or in part (but not less than 20% of the aggregate issue size):

(x) at any time after the Issue Date, upon the occurrence of a Regulatory Event (i.e., a change in any applicable law or domestic or international regulation or standard or in the official interpretation or application thereof, which would be reasonably likely to result in the aggregate Issue Price in respect of all Series J Preferred Shares not being included as Additional Tier 1 Capital of the Bank or otherwise in the event that the Bank would not be permitted to maintain the issue premium in respect of the Series J Preferred Shares in U.S. Dollars or any other foreign currency as may be acceptable to the Bank); or

(y) following notification to the Central Bank and the Banking Control Commission, within 60 days following the General Meeting of Shareholders of the Bank at which the annual audited financial statements of the Bank for the year ended December 31, 2022 are approved (which is expected to be in April 2023) and annually within 60 days following each such subsequent General Meeting of Shareholders of the Bank thereafter (or any other shareholders' meeting) at which the annual audited financial statements of the Bank for the immediately preceding fiscal year are approved, in its sole discretion, in each case, at a redemption price equal to U.S.\$100.00 per Series J Preferred Share (subject to, in the event of any stock split or combination affecting the share capital of the Bank (but not upon any other event, including the issuance of any new shares below market value, stock dividends or a recapitalisation of the Bank's share capital)), plus any declared and uncanceled but unpaid Distributions; provided that no Distributions shall be payable in respect of any Series J Preferred Shares for the year in which such Series J Preferred Shares are redeemed and canceled. The Series J Preferred Shares may not be redeemed and canceled under this sub-clause (y) prior to the fifth anniversary of the Issue Date.

In the case of redemption and cancellation of a part only of the Series J Preferred Shares at the time outstanding, such redemption and cancellation will be on a pro rata basis.

Effect of Redemption

Upon any redemption of Series J Preferred Shares, such Series J Preferred Shares shall be canceled and the nominal value of each of the remaining shares then constituting the outstanding share capital of the Bank, irrespective of the class thereof, shall be adjusted to reflect such cancellation, with the Bank's total capital remaining unchanged.

No Put Option

Holder of Series J Preferred Shares do not have the benefit of any put option or other right to require the Bank to repurchase Series J Preferred Shares and, although the Bank has the

right to redeem and cancel the Series J Preferred Shares as described herein, it has no obligation to do so and its ability to do so may be restricted by applicable regulations and financial ratios of the Central Bank and the Banking Control Commission.

. Odea Bank, Turkey's leading challenger bank, is being boosted by support from international financial institutions in a move that will take it to the next stage of growth.

IFC, a member of the World Bank Group, the IFC Financial Institutions Growth Fund (FIG Fund), a private equity fund managed by IFC Asset Management Company (AMC), and EBRD will become shareholders of Odea Bank, a subsidiary of Lebanon's Bank Audi Group through a subscription to a TL 1.0 billion capital increase of the lender.

This capital increase will provide Odea Bank with additional financial flexibility which will allow it to expand its financing in the real sector in Turkey, fund large scale infrastructure projects and increase access to finance for medium and small sized companies (SMEs).

Odea Bank is also planning to invest in new technologies to strengthen its digital banking network and reach one million unbanked people in Turkey.

As part of the TL 1.0 billion capital increase, the IFC and EBRD are investing the Turkish Lira equivalent of US\$ 110 million and US\$ 90 million, respectively. US\$ 38.5 million of IFC financing is provided by the FIG Fund. The remaining balance will be covered by Middle Eastern investors and Bank Audi itself. Following the capital increase, Bank Audi Group will remain a majority shareholder of Odea Bank with a stake of more than 75 per cent.

Completion of the transaction is subject to regulatory approvals including approval by the BRSA and other customary closing conditions.

Odea Bank started its operations in late 2012 as a subsidiary of Bank Audi Group, the largest Lebanese lender and one of the leading international financial institutions with presence in the MENA region and also in Europe. Within only three and a half years of operations, Odea Bank has already established itself as one of the key players in the attractive Turkish banking sector reaching 8th position by customer deposits and 9th position by loans as of March 2016, excluding state-owned banks and based on BRSA unconsolidated financial statements of Turkish banks. Odea Bank operates 56 branches in 16 cities and employs over 1,500 staff as of June 2016.

Samir Hanna, Group Chief Executive Officer of Bank Audi Group and Chairman of Odea Bank, stated: "We welcome EBRD and IFC, as well as other investors as our new partners in Odea Bank. We are looking forward to a new phase of growth for Odea Bank in the highly promising Turkish banking market. This capital increase represents the largest capital increase in the Turkish banking sector over recent years and is a testimony to Bank Audi's successful greenfield investment in Turkey. Odea Bank is a key pillar of Bank Audi's future growth and we continue to be committed to its future development."

Huseyin Ozkaya, General Manager and Board Member of Odea Bank, said: "It is vital and extremely encouraging that two reputable and prestigious institutions such as IFC and EBRD, alongside other investors, demonstrate their confidence in Odea Bank. With this capital increase, we will be able to expand our lending support to infrastructure investments and projects contributing to the development of the Turkish economy. The equity investment will also allow us to support SMEs which account for 70 per cent of Turkey's employment, but receive less than 30 per cent of loans. We expect to make investments in our branch network, digital banking channels and technology in order to continue providing our corporate, commercial, SME and retail customers with the best quality service as the youngest top 10 bank in the competitive Turkish banking market."

Both IFC and EBRD have previously provided Odea Bank with credit lines for SME finance and trade facilities. Manuel Reyes-Retana, IFC Regional Head of Financial Institutions Group in Europe, Middle East, and North Africa, said: "Giving smaller businesses access to capital allows them to unlock their potential and create much-needed jobs. SMEs form the backbone of the Turkish economy but often struggle to reach their potential. We are further deepening our partnership with Odea Bank to support the bank's efforts in expanding banking services across Turkey with innovative and technological solutions."

Nick Tesseyman, EBRD Managing Director for Financial Institutions, added: "The EBRD is proud to take its cooperation with Odea Bank to the next level and acquire a stake in this young and dynamic Turkish bank. As a shareholder the EBRD will assist Odea Bank in expanding lending where financing is needed most – to SMEs and women-led businesses, in particular outside the large metropolitan areas. The acquisition of stake in Odea Bank is the second joint investment we have made with IFC in the Turkish banking

sector following the acquisition of a minority shareholding in Fibabanka.”

Bank Audi is advised by J.P. Morgan as its exclusive financial advisor and by Dechert as its legal counsel for English Law and by Bilgiç Attorney Partnership as its legal counsel for Turkish Law, while IFC and the EBRD are jointly advised by Clifford Chance as legal counsel for English Law and by Yegin Çiftçi Attorney Partnership as their legal counsel for Turkish Law.

Daily Bulletin- 16/05/2014

- **Press Release: Bank Audi Consolidated Activity Highlights as at End-March 2014:**

US\$ 37.8 billion in total assets as at 31/03/2014

- **US\$ 32.3 billion of customers' deposits**
- **US\$ 15.3 billion of loans to customers**

- **US\$ 9.9 billion of assets under management**

Ñ US\$ 2.8 billion of shareholders' equity

Ñ US\$ 85.8 million of net profits in the first quarter of 2014

The Lebanese economy has witnessed a slight improvement in the first quarter of 2014, but growth remains relatively low when compared to the potential growth of the domestic economy. The main real sector indicators still reported a relative amelioration in the first quarter of 2014 relative to the 2013 corresponding period, as a reflection of a slight improvement in macro conditions in the aftermath of the cabinet formation in Lebanon. At the banking level, although banking sector growth was weak in the first couple of months of this year as a result of technical factors that followed the significant increase in banks balance sheets in the last month of 2013, the annual growth in deposits and loans has maintained sound rates of 7.4% and 7.8% respectively at the end of February 2014. This was realised within the context of a surplus in the balance of payments of US\$ 162 million in the first two months of 2014, resulting from a growth in financial inflows of 11.2% relative to the same period of last year.

As to the Middle East and North Africa region, where Bank Audi has a wide presence, it is still witnessing a divergence in performance between oil importing countries and oil exporting countries. Oil importers are suffering from a lengthy political transition while lagging to register sound growth in their respective economies with what it could entail in terms of improved real sector performance, increase in investment and decrease in unemployment rates. On the other hand, oil exporters continue to benefit from expansionary monetary and fiscal policies aimed at supporting real economic conditions, notwithstanding the rise in private sector contribution in the overall economies. It is worth mentioning that the regional growth in deposits and loans over the first couple of months was close to the one witnessed in the same period of last year, registering 7% and 6% on an annual basis. As to Turkey, the other market of presence of Bank Audi, it witnessed a considerable improvement in the period that followed the municipal elections at end-March 2014, after a period of domestic political tensions. Such an improvement was accompanied with an appreciation in the Turkish Lira relative to the US\$ by 7% and a corollary relief in financial markets at large.

Within this context, consolidated assets of Bank Audi sustained its growth trend, rising from US\$ 36.2 billion at end-December 2013 to US\$ 37.8 billion at end-March 2014, corresponding to an increase by US\$ 1.6 billion sourced principally from Turkey, Egypt and Lebanon. The evolution of the Group's balance sheet reflects primarily the strong fundamentals of the transformation strategy adopted by Management, as well as the existing business opportunities allowing the Group to weather the persisting prevailing challenging environment in a number of countries of presence. In parallel, Bank Audi achieved in the first quarter of 2014 net consolidated profits of US\$ 85.8 million, a level almost equivalent to the net profits of the corresponding period of 2013, driven by a 12.2% growth in total income and after the allocation of US\$ 20.1 million of net loan loss provisions to sustain a good loan quality level.

In details:

- The Bank's consolidated assets reached US\$ 37.8 billion at end-March 2014, registering an increase by US\$ 1.6 billion relative to end-December 2013. In parallel, assets of entities abroad reached US\$ 16.9 billion, corresponding to a share of 45% in consolidated assets. Adjusting to assets under management (fiduciary deposits, security accounts and assets under management), the total of assets and assets under management reaches US\$ 47.7 billion at end-March 2014, of which 35% is booked in investment grade countries, a level unparalleled among the Lebanese banking groups at large.
- Consolidated customers' deposits rose from US\$ 31.1 billion at end-December 2013 to US\$ 32.3 billion at end-March 2014, increasing by US\$ 1.2 billion, mainly driven by the Turkish subsidiary which registered a deposits growth of US\$ 1178 million, and by a deposits increase of US\$ 262 million in Bank Audi Egypt. In parallel, consolidated net loans reported a similar growth to reach US\$ 15.3 billion at end-March 2014.
- Consolidated shareholders' equity reached US\$ 2.8 billion at end-March 2014. When adding to the equity the US\$ 500 million of subordinated debt issued in September 2013 and March 2014 and accounted as Tier 2 capital as per Basel III, the Bank's gross regulatory capital would reach US\$ 3.3 billion. Accordingly, the Bank's Basel III capital adequacy ratio would reach 12.4% at end-March 2014, as compared to a 9.5% regulatory requirement excluding the capital conservation buffer.
- At the loan quality level, gross doubtful loans accounted for only 2.9% of gross loans, with the coverage of those loans by specific and collective loan loss provisions reaching 94% at end-March 2014, within the context of an allocation by Management of US\$ 20.1 million of additional loan loss provision charges in the first quarter of 2014. Adjusting to real guarantees, the doubtful loan coverage ratio would exceed the 100% threshold reaching 107%.
- The growth in assets was not realised at the detriment of the Group's financial standing, as 68.2% of the total growth in assets during the first quarter of 2014 was used to increase primary liquidity, which reached US\$ 13.7 billion and represented 42.3% of customers' deposits, an elevated level when compared to regional and global averages.
- In the first quarter of 2014, Bank Audi's net earnings reached US\$ 85.8 million, a level almost equivalent to the net profits of the corresponding period of 2013, within the context of almost balanced net profits from operations at Odeabank before the allocation of provisions. This performance was mainly driven by a 12.2% growth in total income stemming from all entities, reflecting the Group's mastery of its operating conditions in the various countries of presence.
- Based on such results, the Bank's return on average assets reported 1% and the return on average common equity reached 14.3%. In parallel, the Bank's earnings per common share amounted to US\$ 0.9 on an annualised basis, while the common book value per share stood at US\$ 6.6. Subsequently, and based on a common share price of US\$ 6.1 at the closing of 22/04/2014, the Bank's common shares were trading at 6.8x the Q1-14 common earnings and 0.9x Mar-14 book value, reflecting a very low multiple relative to regional peer banks multiples that reported 12.1x common earnings and 1.8x book value according to the Deutsche Bank's MENA report published on 2/4/2014.

In conclusion, the results of the first quarter of 2014 confirm once again the Group's ability to maintain favourable growth in activity and net earnings and to further reinforce its financial standing despite the persisting challenging regional environment. Those results ensured

sufficient financial flexibility to the Group allowing to cover all costs related to activity growth and the development of the Bank's infrastructure and IT systems in a way to support expected forthcoming growth. Such performances also allowed to further reinforce the Group's leading position in the domestic market and to strengthen its positioning among large regional banking groups. As such, the competitive advantage of Bank Audi lies in its diversified business model and in its distinctive regional footprint enabling it to take advantage of growth opportunities arising on the one hand from the increasing cross border trade flows in the Middle East, North Africa and Turkey, and on the other hand from the growing wealth, particularly in the Middle East region.

- **Press Release: IFC Invests in Bank Audi to Expand Trade and Investment across MENA**

Beirut, March 7, 2014

IFC, a member of the World Bank Group, and the IFC Capitalization Fund, managed by the IFC Asset Management Company, have signed agreements to provide subordinated loans of \$150 million for 10 years to Bank Audi sal, the largest bank in Lebanon. The loans will expand Bank Audi's capital base and support its regional growth plans, strengthening economic integration between developing economies and creating jobs.

A cornerstone of IFC's strategy in the MENA region is to support the growth of South-South investments in order to stimulate economic development. Bank Audi is seeking to solidify its position as the leading bank in Lebanon while scaling up its lending operations in neighboring economies, such as Turkey and Egypt, thereby stimulating cross-border investment and trade activity across the region.

"Bank Audi is very pleased to strengthen its partnership with IFC and the IFC Capitalization Fund. This investment in Lebanon is a positive sign for the country's resilience and the region's growth potential, and highlights the opportunities for sustainable investments, even in these difficult times", said Samir Hanna, Group CEO of Bank Audi. "This partnership with IFC will also help us strengthen our regional banking platform, in particular with regard to expanding financial access to underserved segments, such as small and medium enterprises".

In December 2013, IFC provided a \$75 million financing package to Odeabank in Turkey, a fully owned subsidiary of Bank Audi.

"This new investment will support Bank Audi in its expansion plans both inside and outside Lebanon, thereby increasing critical trade flows and investment within the region", said Mouayed Makhoul, IFC Director for the Middle East and North Africa. "Following the investment in Odeabank, the transaction confirms our support of Bank Audi, a strategic partner for IFC in MENA".

Marcos Brujis, Head of the IFC Capitalization Fund, said: "This is our first investment in Lebanon and we are very pleased to provide capital to Bank Audi as it expands its footprint across the MENA region and Turkey".

Ñ Resolutions adopted by the Extraordinary General Assembly meeting of shareholders of April 10, 2012:

On April 10, 2012, the Extraordinary General Assembly of shareholders of Bank Audi SAL - Audi Saradar Group held a meeting at the Bank's Head Office in Beirut, Lebanon and adopted the following five resolutions:

First resolution

The Extraordinary General Assembly, after hearing the Chairman's report resolves to approve it and to increase the Bank's capital from /455,440,189,776/ LL to /457,321,189,776/ LL through the issuance of 1,500,000 (One million five hundred thousand) new nominal preferred shares (pursuant to Lebanese Law No 308/2001) to be captioned Series "F" preferred shares having a nominal value of 1,254 LL each, to be listed on the regulated financial markets and to be issued as per the following terms and conditions:

1 The Series "F" preferred shares will be issued at their nominal value (LL 1,254 per share) plus an issue premium;

2 The issue premium for each new share is determined in US Dollars as the difference between U.S. \$100.00 per share and the U.S. \$ equivalent of LL 1,254 computed at the exchange rate prevailing on the first day of the subscription period;

3 Each holder of Series D preferred shares and Series E preferred shares will have the right to subscribe, on a priority basis, to the issue of Series F preferred shares, pro rata to their nominal holdings of Series D preferred shares and Series E preferred shares. Any Series F preferred shares not subscribed by holders of Series D preferred shares and Series E preferred shares will be allocated to other subscribers in the sole discretion of the Board of Directors and its Chairman, subject to the provisions of paragraph 3 of article 2 of Lebanese Law No 308/2001;

4 The beginning and the end of the subscription period will be set by the Chairman of the Board of Directors or by the Group CEO, Mr. Samir Hanna;

5 Series F preferred shares are perpetual. Their nominal value and issue premium should be paid by the subscriber fully in readily available funds upon subscription. Their nominal value should be deposited with the Central Bank of Lebanon;

6 Holders of Series F preferred shares have the right (ranking pari passu with the rights of the holders of the outstanding Series D preferred shares and Series E preferred shares, pro rata to the amounts due to each) to receive a non cumulative annual distribution amount as described below, to be paid only out of the Bank's distributable net income for the relevant year, following the determination by the Ordinary General Assembly of the net income of said year. In the event that the amount of net income proposed to be distributed for any given year is insufficient to pay the annual Series F distributions and the annual Series D and Series E distributions, then said annual distributions shall be reduced, for each series of preferred shares, pro rata to the shortage of the net income proposed to be distributed versus the aggregate amount of annual distributions otherwise due.

If, in any given year, the Board of Directors recommends (and the General Assembly approves) that no amounts of profits be distributed on the account of said year then no distribution will be paid on the account of said year and the annual distribution in respect of said year will be canceled and will not be cumulated with the annual distribution of the following year. No payment of dividends to the holders of common shares on the account of any given year can be made unless the preferred shares annual distributions for said year have been paid, noting that the General Assembly is under the obligation to resolve the distribution of amounts sufficient to cover the preferred shares annual distributions when the Bank has sufficient distributable net income for the year unless there exists a legal or regulatory obstacle that prohibits such resolution.

7

7.1 The Bank may, at its option, redeem and cancel the Series F preferred shares. Upon any such redemption and cancellation of Series F preferred shares, the nominal value of each of the remaining shares (common and preferred) then constituting the outstanding share capital of the Bank, shall be adjusted to reflect such cancellation, with the Bank's total capital remaining unchanged;

The authority to exercise the option to redeem and cancel the Series F preferred shares lies with the Board of Directors. Upon exercising the option, said Board determines the increase of the nominal value of the remaining shares (common and preferred) pursuant to the cancellation of series F preferred shares (whether fully or partially) and submits the matter to the Extraordinary General Assembly of shareholders to verify the adequate completion of the increase of nominal value and to modify the Bank's By Laws accordingly.

7.2 Preferential rights:

The Series F preferred shares are granted the following preferential rights:

- a. The right to receive distributions amounting to U.S. \$4.00 per Series F preferred Share on account of fiscal year 2012, and amounting to U.S. \$ 6.00 per Series F preferred Share on account of each fiscal year thereafter. The Bank will deduct applicable withholding taxes from said amounts;
- b. In the event of a liquidation of the Bank, the holders of the Series F preferred shares shall be entitled (on a pro rata basis with all holders of any other then outstanding preference shares of the Bank ranking *pari passu* with the Series F preferred shares in respect of distributions, determined on the basis of the respective issue price for such shares) to be paid out of the assets available for distribution to its shareholders, before any payment shall be made on the common shares, an amount per Series F preferred Share equal to the sum of (x) the Lebanese Pound equivalent of U.S. \$100.00 per share, and (y) all declared but unpaid distributions on the Series F preferred shares;

7.3 Loss Absorbency:

Subject to applicable Lebanese law and regulation and consistent with the Basel Committee requirements to ensure loss absorbency at the point of non-viability (as per the reforms to raise the quality of regulatory capital issued on 13/1/2011), the Series F Preferred Shares shall constitute loss absorbency instruments, and, accordingly, similar to other shares constituting the Capital of the Bank, the Series F Preferred Shares shall, participate pro rata in absorbing any Capital losses of the Bank.

7.4 Redemption and cancellation of the shares

The Bank may, at its option, redeem and cancel the Series F preferred shares in whole or in part subject to:

- compliance with any and all then applicable regulations and financial ratios of the Central Bank of Lebanon and the Banking Control Commission, in connection with the adequacy of shareholders equity;
- availability of sufficient free reserves for the purpose;

The Banking Control Commission verifies compliance with the above.

Redemption and cancellation of the shares is subject to the following:

- a. The Bank may exercise its option to redeem and cancel Series F preferred shares for the first time within the 60 days following the later of (x) the fifth anniversary of the Extraordinary General Assembly meeting that will have confirmed the adequate completion of all the procedures of the issuance of the Series "F" preferred shares or (y) the date of the Ordinary General Assembly meeting of shareholders of the Bank at which the annual audited financial statements for the year ended December 31, 2016 are approved. The Bank may thereafter exercise its option to redeem and cancel Series E preferred shares within 60 days following each subsequent General Assembly meeting of shareholders of the Bank at which the annual audited financial statements are approved;
- b. The Bank may redeem the Series F preferred shares in whole or in part (but, in each case, not less than the lesser of (i) 20 per cent. of the aggregate issue size or (ii) all the then outstanding Series F preferred shares);
- c. Redemption of Series F preferred shares will be at a redemption price equal to U.S. \$100.00 per Series F Share plus any declared but unpaid distributions as described below; provided that no

distributions shall be payable in respect of any Series F preferred shares for the year in which such Series F preferred shares are redeemed and canceled;

d. In the case of redemption and cancellation of a part only of the Series F preferred shares at the time outstanding, the redemption and cancellation will be on a pro rata basis among all holders of Series F preferred shares.

e. In the case of a decision by the Bank to exercise its option to redeem and cancel Series F preferred shares, then the holders of such Series F preferred shares will be under the obligation to conform;

f. All amounts and conditions mentioned above (including the Series F annual distribution amounts) are subject to adjustment in the event of any subsequent stock split or combination affecting the share capital of the Bank;

g. Notwithstanding point a. above, but subject to compliance with the other applicable conditions for the redemption and cancellation as described above, the Bank will have the option, at the discretion of its Board of Directors, to redeem and cancel the Series F preferred shares in whole or in part, before the dates mentioned under point a. above, upon the occurrence of a change in any applicable law or regulation or standard, which would result in the aggregate issue price in respect of all Series F preferred shares not being included in Tier 1 capital of the Bank or otherwise in the event that the Bank would not be permitted to maintain the issue premium in respect of the Series F preferred shares in U.S. Dollars or any other foreign currency as may be acceptable to it;

8 Series F distributions are payable once during every calendar year. The first annual distribution will be paid following the General Assembly meeting of shareholders at which the annual audited financial statements of the Bank for the year ended December 31, 2012 are approved, subject to compliance with any and all then applicable regulations and financial ratios of the Central Bank of Lebanon and the Banking Control Commission, and subject to conformity with the conditions mentioned under point 6. above;

In the event that the conditions for payment are not met in any given year and no distributions are paid on the account of said year then the annual distribution in respect of said year will be canceled and will not be cumulated with the annual distribution of the following year.

9 Except in the limited circumstances determined pursuant to Article 2.5 of Lebanese law number 308 dated 03 April 2001, the holders of Series F preferred shares shall not have voting rights in the shareholders General Assembly meetings.

10 Holders of Series F preferred shares will have priority subscription rights to subscribe, pro rata with holders of the Series D and Series E preferred shares, to newly issued preference shares of the Bank, but not to newly issued common shares.

11 The Extraordinary General Assembly resolves to empower the Board of Directors to make all necessary determinations regarding the above including the completion of all procedures as necessary for the implementation of the resolutions of the present assembly, and including the rounding of the numbers of allocated shares, but without affecting the aforementioned powers granted to the Chairman and to the Group CEO Mr. Samir Hanna concerning the determination of the subscription period.

Beirut, October 28, 2011

Bank Audi sal- Audi Saradar Group has announced today that it has been granted permission to establish a deposit bank in Turkey with a starting share capital equivalent to USD 300 million. The permission was granted by the Board of the Banking Regulation and Supervision Agency of Turkey on October 27, 2011 and promulgated in a strong potential. Bank Audi's interest to expand its banking operations there is based on the strong historical ties between Turkey and the Arab World, supported by an increasing yearly trade turnover (reaching US\$ 33 billion in 2010), of which an important share is with the countries of presence of Bank Audi, offering enticing opportunities for cross-border transactions between the two geographic areas.

Mr. Raymond Audi, Chairman of the Board of Directors of Bank Audi, joined by **Mr. Samir Hanna**, Group CEO, declared:

“It is the first time that such a license is granted in more than 10 years. The fact that we were privileged is yet another acknowledgment of our good financial standing and of our eligibility. Our new subsidiary will particularly target the Turkish fast growing middle corporate segment, which offers a large potential for financial services. Furthermore, our group, which enjoys a high liquidity level, will also benefit from the high quality financing opportunities that large creditworthy Turkish corporations provide, allowing us to build a captive market share. In parallel, we will explore the possibility to develop retail products, which would build a new value added franchise.”

The Capital of the Company shall be set at /436,944,527,250/ LL four hundred and thirty-six billion nine hundred and forty-four million five hundred and twenty-seven thousand two hundred and fifty Lebanese pounds divided into /356,689,410/ three hundred and fifty-six million six hundred and eighty-nine thousand four hundred and ten nominal shares, with a value of /1,225/ LL one thousand two hundred and twenty-five Lebanese Pounds each, fully paid up.

3- All the Company's shares may be subscribed to publicly and are tradable on the regulated financial markets. All shares are traded on such markets.

Third resolution

The Extraordinary General Assembly resolves to increase the Bank's capital from /436,944,527,250/ LL to /438,475,777,250/ LL through the issuance of 1,250,000 (One million two hundred and fifty thousand) new nominal preferred shares (pursuant to Lebanese Law No 308/2001) to be captioned Series "E" preferred shares having a nominal value of 1,225 LL each (following the aforementioned share split), to be listed on the regulated financial markets and to be issued as per the following terms and conditions:

1 The Series "E" preferred shares will be issued at their nominal value (LL 1,225 per share following the aforementioned share split) plus an issue premium

2 The issue premium for each new share is determined in US Dollars as the difference between U.S. \$100.00 per share and the U.S. \$ equivalent of LL 1,225 computed at the exchange rate prevailing on the first day of the subscription period;

3 Each holder of Series D preferred shares will have the right to subscribe, on a priority basis, to the issue of Series E preferred shares, pro rata to their nominal

holdings of Series D preferred shares. Any Series E preferred shares not subscribed by holders of Series D preferred shares will be allocated to other subscribers in the sole discretion of the Bank, subject to the provisions of article 3.2 of Lebanese Law No 308/2001;

6 Holders of Series E preferred shares have the right (ranking *pari passu* with the rights of the holders of the outstanding Series D preferred shares, *pro rata* to the amounts due to each) to receive a non cumulative annual distribution amount as described below, to be paid only out of the Bank's distributable net income for the relevant year, following the determination by the Ordinary General Assembly of the net income of said year. In the event that the amount of net income proposed to be distributed for any given year is insufficient to pay the annual Series E distributions and the annual Series D distributions, then said annual distributions shall be reduced, for each series of preferred shares, *pro rata* to the shortage of the net income proposed to be distributed versus the aggregate amount of annual distributions otherwise due.

If, in any given year, the Board of Directors recommends (and the General Assembly approves) that no amounts of profits be distributed on the account of said year then no distribution will be paid on the account of said year and the annual distribution in respect of said year will be canceled and will not be cumulated with the annual distribution of the following year. No payment of dividends to the holders of common shares on the account of any given year can be made unless the preferred shares annual distributions for said year have been paid, noting that the General Assembly is under the obligation to resolve the distribution of amounts sufficient to cover the preferred shares annual distributions when the Bank has sufficient distributable net income for the year unless there exists a legal or regulatory obstacle that prohibits such resolution.

7

Upon any such redemption and cancellation of Series E preferred shares, the nominal value of each of the remaining shares (common and preferred) then constituting the outstanding share capital of the Bank, shall be adjusted to reflect such cancellation, with the Bank's total capital remaining unchanged;

The authority to exercise the option to redeem and cancel the Series E preferred shares lies with the Board of Directors. Upon exercising the option, said Board determines the increase of the nominal value of the remaining shares (common and preferred) pursuant to the cancellation of series E preferred shares (whether fully or partially) and submits the matter to the Extraordinary General Assembly of shareholders to verify the adequate completion of the increase of nominal value and to modify the Bank's By Laws accordingly.

7.3 Redemption and cancellation of the shares

- d. In the case of redemption and cancellation of a part only of the Series E preferred shares at the time outstanding, the redemption and cancellation will be on a pro rata basis among all holders of Series E preferred shares.
- e. In the case of a decision by the Bank to exercise its option to redeem and cancel Series E preferred shares, then the holder of such Series E preferred shares will be under the obligation to conform;
- f. All amounts and conditions mentioned above (including the Series E annual distribution amounts) are subject to adjustment in the event of any subsequent stock split or combination affecting the share capital of the Bank;
- g. Notwithstanding point a. above, but subject to compliance with the other applicable conditions for the redemption and cancellation as described above, the Bank will have the option, at the discretion of its Board of Directors, to redeem and cancel the Series E preferred shares in whole or in part, before the dates mentioned under point a. above, upon the occurrence of a change in any applicable law or regulation or standard, which would result in the aggregate issue price in respect of all Series E preferred shares not being included in Tier 1 capital of the Bank or otherwise in the event that the Bank would not be permitted to maintain the issue premium in respect of the Series E preferred shares in U.S. Dollars or any other foreign currency as may be acceptable to it;

8 Series E distributions are payable once during every calendar year. The first annual distribution will be paid following the General Assembly meeting of shareholders at which the annual audited financial statements of the Bank for the year ended December 31, 2010 are approved, subject to compliance with any and all then applicable regulations and financial ratios of the Central Bank of Lebanon and the Banking Control Commission, and subject to conformity with the conditions mentioned under point 6. above;
