Arab Insurance Group (B.S.C.)

Condensed consolidated interim financial statements for the nine months ended 30 September 2017

Independent auditor's review report to the Board of Directors of Arab Insurance Group (B.S.C.)

### Introduction

We have reviewed the accompanying condensed consolidated statement of financial position of Arab Insurance Group (B.S.C.) (the "Company") and its subsidiaries (together the "Group") as of 30 September 2017 and the related condensed consolidated statements of income, comprehensive income, changes in equity and cash flows for the nine month period then ended and notes, comprising a summary of significant accounting policies and other explanatory notes. The Board of Directors are responsible for the preparation and presentation of these condensed consolidated interim financial statements in accordance with International Accounting Standard (IAS) 34, "Interim Financial Reporting" as issued by the International Accounting Standards Board (IASB). Our responsibility is to express a conclusion on these condensed consolidated interim financial statements based on our review.

### Scope of review

We conducted our review in accordance with the International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated interim financial statements are not prepared, in all material respects, in accordance with IAS 34, "Interim Financial Reporting" as issued by IASB.

### NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS FOR THE NINE MONTHS ENDED 30 SEPTEMBER 2017

### 1. INCORPORATION AND PRINCIPAL ACTIVITY

Arab Insurance Group (B.S.C.) (the "Company", "parent company") is an international insurance company registered as a Bahraini Shareholding Company having its registered office at Arig House, Manama, Kingdom of Bahrain. The parent company and its subsidiaries (the "Group") are involved in provision of general (non-life) and life reinsurance and related service activities.

### 2. SIGNIFICANT ACCOUNTING POLICIES

These condensed consolidated interim financial statements of the Group has been prepared in accordance with International Accounting Standard 34 (Interim Financial Reporting) which allows the interim financial information to be prepared in condensed form. The interim financial information does not include all of the information required for full annual financial statements, and should be read in conjunction with the consolidated financial statements of the Group as at and for the year ended 31 December 2016.

The Group's financial statements are presented in U.S. Dollars, which is its functional currency as its share capital and a significant proportion of its business, assets and liabilities are denominated in that currency.

The accounting policies and methods of computation are consistent with the most recent consolidated financial statements of the Group at 31 December 2016 that were prepared in accordance with International Financial Reporting Standards (IFRS). Comparative figures have been reclassified, where necessary, to conform to the current period's presentation.

The Group has adopted all new and revised IFRS and interpretations applicable for accounting periods beginning on or after 1 January 2017.

### 3. SEASONALITY OF INTERIM OPERATIONS

As a result of the seasonality associated with the insurance business, the Group registers approximately 75% of its gross premiums during the first quarter of every year. Gross premiums written over the remainder of the financial year are almost evenly spread out. This seasonality does not however, have any material impact on the Group's underwriting result as the premiums are taken to income over the terms of the related contracts or policies.

### 4. MANAGEMENT OF RISKS

The Group's activities expose it to a variety of financial and other risks: market risk (including foreign exchange risk, price risk and interest rate risk), credit risk, underwriting risk and liquidity risk.

This condensed interim consolidated financial statements does not include all financial risk management information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's financial statements as at 31 December 2016.

There have been no changes in the risk management function since the year end or in any risk management policies.

## SEGMENT INFORMATION - ANALYSIS OF REVENUE BY PRIMARY BUSINESS SEGMENT: 12.

The Group's reinsurance business consists of two main business segments, Non-life and Life. Non-life business primarily consists of Property, Engineering, Marine, Accident, Whole Account & other classes. Life business mainly involves short term group life policies and long term life policies. Life portfolio does not contain investment linked policies.

The information disclosed in the table above is not indicative of the net worth of the Group.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal, or in its absence, the most advantageous market to which the Group has access at that date. The fair value of a liability reflects its non-performance risk.

When available, the Group measures the fair value of an instrument using the quoted price in an active market for that instrument. A market is regarded as active if transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

When there is no quoted price in an active market, the Group uses valuation techniques that maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The chosen valuation technique incorporates all the factors that market participants would take into account in pricing a transaction.

The following methods and assumptions were used to estimate the fair value of the financial instruments:

### i. General:

The book values of the Group's financial instruments except investments and forward foreign exchange contracts were deemed to approximate fair value due to the immediate or short term maturity of these financial instruments.

Hence, the fair value measurement details are not disclosed.

### ii. Investments:

The Company measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

- Level 1: quoted prices (unadjusted) in active markets for identical assets and liabilities.
- Level 2: Valuation techniques based on observable inputs, either directly (i.e. as prices) or indirectly (i.e. as derived from prices). This category includes instruments valued using: quoted market prices in active markets for similar instruments; quoted prices for identical or similar instruments in markets that are considered less active; or other valuation techniques where all significant inputs are directly or indirectly observable from market data.

Level 3: Valuation techniques using significant unobservable inputs. This category includes
all instruments where the valuation technique includes inputs not based on observable data
and the unobservable inputs have a significant effect on the instrument's valuation. This
category includes instruments that are valued based on quoted market prices for similar
instruments where significant unobservable adjustments or assumptions are required to
reflect differences between the instruments.

Valuation techniques include net present value and discounted cash flow models and other valuation models. Assumptions and inputs used in valuation includes risk free and benchmark interest rates, bond and equity prices, and foreign exchange rates. The objective of valuations technique is to arrive at fair value measurement that reflects the price that would be received on sale of the asset at the measurement date.

The table below analyses financial instruments, measured at fair value as at the end of the period, by level in the fair value hierarchy into which the fair value measurement is categorized:

### 30 September 2017

### At fair value through profit or loss Held for trading Common stock of listed companies

Designated at fair value on initial recognition

**Debt Securities** 

### Available for sale

Debt securities Common stock of listed companies Common stock of unlisted companies Other

### Forward foreign exchange contracts

The carrying values of the investment held in level 3 are based on unobservable inputs and reflects proportional share of the fair values of the respective companies and their underlying net assets. The Group does not expect the fair value of assets under level 2 & level 3 to change significantly on changing one or more of the unassumable inputs. The valuations of these investments are reviewed quarterly and updated as necessary on the basis of information received from investee and investment managers. For the period ended 30 September 2017, there were no transfers in and out of level 1, level 2 and level 3 (31 December 2016; nil; 30 September 2016; nil). The fair values are estimates and do not necessarily represent the price at which the investment would sell. As the determination of fair values involve subjective judgments, and given the inherent uncertainty of assumptions regarding—capitalization rates, discount rates, leasing and other factors, the amount which will be realized by the Company on the disposal of its investments may differ significantly from the values at which they are carried in the consolidated financial statements, and the difference could be material.

The Group does not expect the fair value of assets under level 3 to change significantly on changing one or more of the measurable / observable inputs.

### iii. Forward foreign exchange contracts:

The fair value of forward foreign exchange contracts, used for hedging purposes, is based on quoted market prices.

### iv. Fair value less than carrying amounts:

The fair value of fixed interest debt securities fluctuates with changes in market interest rates. The book value of financial assets held to maturity has not been reduced to fair value where lower, because such market rate variations are considered temporary in nature and management intends, and has the financial resources and capacity, to generally hold such investments to maturity.

### 20. PRINCIPAL SUBSIDIARIES & ASSOCIATES

At 30 September 2017, the principal subsidiaries of the Company were:

|                                    | Country of incorporation | Ownership | Non-<br>controlling<br>Interests | Principal<br>Activities |
|------------------------------------|--------------------------|-----------|----------------------------------|-------------------------|
| Arig Capital Limited               | United Kingdom           | 100%      | Nil                              | Reinsurance             |
| Gulf Warranties W.L.L.             | Kingdom of Bahrain       | 100%      | Nil                              | Warranty                |
| Takaful Re Limited (under run-off) | United Arab Emirates     | 54%       | 46%                              | Retakaful               |
| ARIG Insurance                     |                          |           |                                  | Insurance               |
| Management (DIFC) Ltd.             | United Arab Emirates     | 100%      | Nil                              | Manager                 |

All holdings are in the ordinary share capital of the subsidiaries concerned and are unchanged from 31 December 2016. The Company holds 49% and 25% of the equity shares in its associate companies Arima Insurance software W.L.L. and Globemed Bahrain W.L.L., Bahrain respectively.
