REPORT ON REVIEW OF CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION TO THE BOARD OF DIRECTORS OF ABU DHABI COMMERCIAL BANK PJSC

Introduction

We have reviewed the accompanying condensed consolidated interim statement of financial position of Abu Dhabi Commercial Bank PJSC ("the Bank") and its subsidiaries (together referred to as "the Group") as at 31 March 2021 and the related condensed consolidated interim income statement, condensed consolidated interim statement of changes in equity and condensed consolidated interim statement of cash flows for the three-month period then ended and other explanatory notes. Management is responsible for the preparation and presentation of this condensed consolidated interim financial information in accordance with International Accounting Standard 34 - Interim Financial Reporting ("IAS 34"). Our responsibility is to express a conclusion on this condensed consolidated interim financial information based on our review.

Scope of review

We conducted our review in accordance with the International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity." A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated interim financial information is not prepared, in all material respects, in accordance with IAS 34.

Murphy.

Signed by Joseph Alexander Murphy Partner Ernst & Young Registration No. 492

25 April 2021 Abu Dhabi

The accompanying notes 1 to 34 form an integral part of this condensed consolidated interim financial information.

For the three month period ended March 31, 2021

1. General information

Abu Dhabi Commercial Bank PJSC ("ADCB" or the "Bank") is a public joint stock company with limited liability incorporated in the emirate of Abu Dhabi, United Arab Emirates (UAE). The Bank and its subsidiaries (together referred to as the "Group") is principally engaged in the business of retail, commercial and Islamic banking and provision of other financial services.

On March 21, 2019, the shareholders of ADCB and Union National Bank PJSC ("UNB") approved the merger of two banks pursuant to Article 283 (1) of UAE Federal Law No. 2 of 2015 and subsequent acquisition of 100% of issued share capital of Al Hilal Bank PJSC ("AHB") by the combined bank. The merger was effected through issuance of 0.5966 new shares in ADCB for every one share of UNB, subject to the terms and conditions of the merger. Following the merger, ADCB and UNB shareholders own approximately 76% and 24% of the combined bank, respectively. On the effective date of the merger, UNB shares were delisted from the Abu Dhabi Securities Exchange. The combined bank retained ADCB's legal registrations.

The combined bank issued a mandatory convertible bond ("bond") of AED 1,000,000 thousand to the shareholder of AHB as consideration to acquire the entire issued share capital of AHB. The bond was converted immediately into 117,647,058 ADCB shares.

The effective date of the above merger and acquisition was May 1, 2019.

The registered head office of ADCB is at Abu Dhabi Commercial Bank PJSC Head Office Building, Sheikh Zayed Bin Sultan Street, Plot C- 33, Sector E-11, P. O. Box 939, Abu Dhabi, UAE.

2. Summary of significant accounting policies

2.1 Basis of preparation

The condensed consolidated interim financial information has been prepared on a going concern basis and in accordance with IAS 34 - Interim Financial Reporting. It does not include all of the information required for full annual financial statements and should be read in conjunction with the consolidated financial statements of ADCB for the year ended December 31, 2020, which were prepared in accordance with International Financial Reporting Standards ("IFRS") and International Financial Reporting Interpretation Committee (IFRIC) Interpretations.

The same accounting policies, presentation and methods of computation have been followed in this condensed consolidated interim financial information as were applied in the preparation and presentation of the Group's consolidated financial statements for the year ended December 31, 2020.

Certain disclosure notes/numbers have been reclassified and rearranged from the Group's prior period condensed consolidated interim financial information to conform to the current period's presentation.

The results for the three month period ended March 31, 2021 are not necessarily indicative of the results that may be expected for the financial year ending December 31, 2021.

2. Summary of significant accounting policies (continued)

2.1 Basis of preparation (continued)

The condensed consolidated interim financial information is prepared and presented in United Arab Emirates Dirham (AED), which is the Group's functional and presentation currency and is rounded off to the nearest thousand unless otherwise indicated.

The preparation of the condensed consolidated interim financial information in conformity with IFRSs requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

The main areas of judgements, estimates and assumptions applied in this condensed consolidated interim financial information, including the key sources of estimation uncertainty were the same as those applied in the consolidated financial statements of ADCB for the year ended December 31, 2020.

2.2 Application of new and revised International Financial Reporting Standards (IFRSs)

2.2.1 New and revised IFRSs effective for accounting periods beginning on or after January 1, 2021

In the current period, the Group has applied the amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16 along with amendments with respect to Interest Rate Benchmark Reforms – Phase 2 issued by the International Accounting Standards Board ("IASB") that are mandatorily effective for an accounting period that begins on or after January 1, 2021. The application of these amendments to IFRSs has not had any material impact on the amounts reported for the current and prior periods but may affect the accounting for the Group's future transactions or arrangements.

Other than the above, there are no other significant IFRSs, amendments or interpretations that were effective for the first time for the financial year beginning on or after January 1, 2021.

2.2.2 Standards and Interpretations in issue but not yet effective

The Group has not early adopted any new and revised IFRSs that have been issued but are not yet effective.

New standards and significant amendments to standards applicable to the Group:	Effective for annual periods beginning on or after
Amendments to IFRS 3 'Business Combinations' that update an outdated reference in IFRS 3 without significantly changing its requirements.	January 1, 2022
Amendments to IAS 16 'Property, Plant and Equipment' regarding proceeds from selling items produced while bringing an asset into the location and condition necessary for it to be capable of operating in the manner intended by management.	January 1, 2022
Amendments to IAS 37 'Provisions, Contingent Liabilities and Contingent Assets' amending the standard regarding costs a company should include as the cost of fulfilling a contract when assessing whether a contract is onerous.	January 1, 2022
Annual improvements to IFRS Standards 2018–2020	January 1, 2022

2. Summary of significant accounting policies (continued)

2.2 Application of new and revised International Financial Reporting Standards (IFRSs) (continued)

2.2.2 Standards and Interpretations in issue but not yet effective (continued)

New standards and significant amendments to standards applicable to the Group:	Effective for annual periods beginning on or after
Amendments to IAS 1 'Presentation of Financial Statements' to address classification of liabilities as current or non-current providing a more general approach based on the contractual arrangements in place at the reporting date.	January 1, 2023
IFRS 17 'Insurance Contracts' which requires insurance liabilities to be measured at a current fulfilment value and provides a more uniform measurement and presentation approach for all insurance contracts. These requirements are designed to achieve the goal of a consistent, principle-based accounting for insurance contracts. IFRS 17 supersedes IFRS 4 'Insurance Contracts' as of January 1, 2021.	January 1, 2023
Amendments to IFRS 17 'Insurance Contracts' to address concerns and implementation challenges that were identified after IFRS 17 was published in 2017.	January 1, 2023
Extension of the Temporary Exemption from Applying IFRS 9 (Amendments to IFRS 4). The amendment changes the fixed expiry date for the temporary exemption in IFRS 4 'Insurance Contracts' from applying IFRS 9 'Financial Instruments', so that entities would be required to apply IFRS 9 for annual periods beginning on or after 1 January 2023.	January 1, 2023
Disclosure of Accounting Policies (Amendments to IAS 1 and IFRS Practice Statement 2) which require that an entity discloses its material accounting policies, instead of its significant accounting policies. Further amendments explain how an entity can identify a material accounting policy.	January 1, 2023
The amendments replace the definition of Accounting Estimates (Amendments to IAS 8) - The amendments replace the definition of a change in accounting estimates with a definition of accounting estimates. Under the new definition, accounting estimates are "monetary amounts in financial statements that are subject to measurement uncertainty". Entities develop accounting estimates if accounting policies require items in financial statements to be measured in a way that involves measurement uncertainty. The amendments clarify that a change in accounting estimate that results from new information or new developments is not the correction of an error.	January 1, 2023
Amendments to IFRS 10 'Consolidated Financial Statements' and IAS 28 'Investments in Associates and Joint Ventures (2011)' relating to the treatment of the sale or contribution of assets from an investor to its associate or joint venture.	Effective date deferred indefinitely. Adoption is still permitted.

Management anticipates that these amendments will be adopted in the financial information in the initial period when they become mandatorily effective. The impact of these standards and amendments is currently being assessed by the management.

2. Summary of significant accounting policies (continued)

2.3 Basis of consolidation

This condensed consolidated interim financial information incorporates the financial statements of the Bank and its subsidiaries (collectively referred to as the "Group").

Subsidiaries

Subsidiaries are entities controlled by the Bank. The Bank controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the condensed consolidated interim financial information from the date that control commences until the date that control ceases.

For the three month period ended March 31, 2021

2. Summary of significant accounting policies (continued)

2.3 Basis of consolidation (continued)

Following is the list of subsidiaries as at March 31, 2021:

		Incorp	ooration	
Name of subsidiary	Ownership interest	Year	Country	Principal activities
ADCB Securities LLC	100%	2005	UAE	Agent in trading of financial instruments and stocks.
Abu Dhabi Commercial Properties LLC	100%	2005	UAE	Real estate property management and advisory services.

(1) dormant

(2) under liquidation
 (2) discontinued exerctions (hold for

(3) discontinued operations/held for sale

The Group does not have any subsidiary with material non-controlling interests.

For the three month period ended March 31, 2021

2. Summary of significant accounting policies (continued)

2.3 Basis of consolidation (continued)

Funds under management

The Bank manages and administers assets held in unit trusts on behalf of investors. The financial statements of these entities are not included in the condensed consolidated interim financial information except when the Bank controls the entity, as mentioned above.

Loss of control

Upon loss of control, the Bank derecognises the assets and liabilities of the subsidiary, any non-controlling interests and the other components of equity related to the subsidiary. Any surplus or deficit arising on the loss of control is recognised in condensed consolidated interim income statement. If the Bank retains any interest in the previous subsidiary, then such interest is measured at fair value at the date that control is lost. Subsequently, it is accounted for as an equity-accounted investee or in accordance with the Bank's accounting policy for financial instruments depending on the level of influence retained.

Transactions eliminated on consolidation

All intragroup balances, income, expenses and cash flows resulting from intragroup transactions are eliminated on consolidation.

Investment in associates

Associates are those entities in which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but not control or joint control over those policies.

Investments in associates are accounted for using the equity method and are recognised initially at cost. The cost of the investments includes transaction costs.

The condensed consolidated interim financial information includes the Group's share of the profit or loss and other comprehensive income of investment in associates, after adjustments to align the accounting policies with those of the Group, from the date that significant influence commences until the date that significant influence ceases.

When the Group's share of losses exceeds its interest in an equity-accounted investee, the carrying amount of the investment, including any long-term interests that form part thereof, is reduced to zero, and the recognition of further losses is discontinued except to the extent that the Group has an obligation or has made payments on behalf of the investee.

For the three month period ended March 31, 2021

2. Summary of significant accounting policies (continued)

2.3 Basis of consolidation (continued)

Joint arrangements

Joint arrangements are arrangements of which the Group has joint control, established by contracts requiring unanimous consent for decisions about the activities that significantly affect the arrangements' returns. They are classified and accounted for as follows:

Joint operation – when the Group has rights to the assets and obligations for the liabilities, relating to an arrangement, it accounts for each of its assets, liabilities and transactions, including its share of those held or incurred jointly, in relation to the joint operation.

Joint venture – when the Group has rights only to the net assets of the arrangements, it accounts for its interest using the equity method, as for associates.

2.4 Business combination under common control

A business combination involving entities under common control is a business combination in which all the combining entities or businesses are ultimately controlled by the same party or parties both before and after the business combination, and that control is not transitory. Currently, there is no specific guidance on accounting for common control transactions under IFRSs, therefore the management needs to use judgement to develop an accounting policy that provides relevant and reliable information in accordance with IAS 8 - Accounting Policies, Changes in Accounting Estimates and Errors.

The Group accounts for business combinations under common control using the acquisition method when there is commercial substance to the transaction. Under acquisition method, the consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the Group, liabilities incurred by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. Acquisition-related costs are recognised in condensed consolidated interim income statement as incurred.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their fair value, except that:

- deferred tax assets or liabilities, and assets or liabilities related to employee benefit arrangements are recognised and measured in accordance with IAS 12 Income Taxes and IAS 19 Employee Benefits respectively; and
- assets (or disposal groups) that are classified as held for sale in accordance with IFRS 5 Non-current Assets Held for Sale and Discontinued Operations are measured in accordance with that standard.

Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any noncontrolling interests in the acquiree and the fair value of the acquirer's previously held equity interest in the acquiree (if any) over the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed. If, after reassessment, the net of the acquisition-date amounts of the identifiable assets acquired and liabilities assumed exceeds the sum of the consideration transferred, the amount of any noncontrolling interests in the acquiree and the fair value of the acquirer's previously held interest in the acquiree (if any), the excess is recognised immediately in condensed consolidated interim income statement as a bargain purchase gain.

2. Summary of significant accounting policies (continued)

2.4 Business combination under common control (continued)

Non-controlling interests that are present ownership interests and entitle their holders to a proportionate share of the entity's net assets in the event of liquidation may be initially measured either at fair value or at the non-controlling interests' proportionate share of the recognised amounts of the acquiree's identifiable net assets. The choice of measurement basis is made on a transaction-by-transaction basis.

When a business combination is achieved in stages, the Group's previously held equity interest in the acquiree is remeasured to its acquisition-date fair value and the resulting gain or loss, if any, is recognised in condensed consolidated interim income statement. Amounts arising from interests in the acquiree prior to the acquisition date that have previously been recognised in other comprehensive income are reclassified to condensed consolidated interim income statement where such treatment would be appropriate if that interest were disposed of.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted during the measurement period, or additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed at the acquisition date that, if known, would have affected the amounts recognised at that date.

The measurement period is the period from the date of acquisition to the date the Group obtains complete information about facts and circumstances that existed as of the acquisition date but does not exceed twelve months.

Impairment testing of goodwill

Goodwill arising on an acquisition of a business is carried at cost as established at the date of acquisition of the business less accumulated impairment losses, if any.

For the purpose of impairment testing, goodwill is allocated to each of the Group's cash-generating units (or groups of cash-generating units) that is expected to benefit from the synergies of the combination.

A cash-generating unit ("CGU") to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash-generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro-rata based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognised directly in condensed consolidated interim income statement. An impairment loss recognised for goodwill is not reversed in subsequent periods.

On disposal of the relevant cash-generating unit, the attributable amount of goodwill is included in the determination of the profit or loss on disposal.

3. Update on prospective changes in reference rate (Ibor)

Effective from January 1, 2020, the Group has implemented amendments to IFRS 9 'Financial Instruments' and IFRS 7 'Financial Instruments: Disclosures relating to interest rate benchmark reforms'. Phase 1 of the amendments addresses the hedge accounting requirements arising before interbank offer rate ("Ibor") and proposed a hedging relief for such pre replacement hedges. The Group has applied the hedging relief available under the amendments such as relief on forward looking analysis during the period of uncertainty beyond the year 2021. The Group's consolidated financial statements for the year ended December 31, 2020 provides further details on transition to alternative benchmark rates.

Effective from January 1, 2021, Phase 2 amendments to IFRS 9, IAS 39, IFRS 7 and IFRS 16 relating interest rate benchmark reforms ("the reforms") requires the Group to introduce disclosures that allow users to understand the nature and extent of risks arising from the Ibor reform to which the Group is exposed to and how the Group manages those risks as well as the Group's progress in transitioning from interbank offered rates (Ibors) to alternative benchmark rates, and how the Group is managing this transition. The quantitative information as required under Phase 2 of the reforms will be disclosed in the Group's annual consolidated financial statements for the year ending December 31, 2021.

The impact of the replacement of Ibors with alternative risk-free rates on the Group's products and services remains a key area of focus. The Group has a significant and growing volume of contracts referencing Ibors, such as Libor and Eibor, extending past 2021 when it is likely that these Ibors will cease being published. Management is running a project to coordinate the Group's transition activities aiming to minimise the volume of such contracts outstanding upon the cessation of these Ibors, and therefore the associated disruption to financial flows and potential economic losses. The project is significant in terms of scale and complexity and will impact multiple products, currencies, systems and processes. The process of adopting new reference rates exposes the Group to operational and financial risks such as earnings volatility resulting from contract modifications and changes in hedge accounting. The Group continues to engage with various stakeholders to support an orderly transition and to mitigate the risks resulting from the transition; this includes customer communication strategy and hosting key information on the Bank's website.

4. Coronavirus (Covid-19) outbreak and its impact on ADCB Group

The Covid-19 pandemic has caused an unprecedented human and health crisis. The measures necessary to contain the virus have triggered an economic downturn. While some countries have eased the lockdown, the relaxation has been gradual and, in some cases, they have had to re-impose stricter measures to deal with renewed outbreaks. Credit spreads have jumped and volatility has spiked to levels reminiscent of the global financial crisis with deterioration in market liquidity.

Central banks across the world have stepped in with measures to protect the stability of the global economy with a wide range of measures from easing of interest rates, to asset purchase programmes besides infusing significant liquidity into the economy. By effectively stepping in as "buyers of last resort" and helping contain upward pressures on the cost of credit, central banks are ensuring that households and firms continue to have access to credit at an affordable price. To date, central banks have announced plans to expand their provision of liquidity - including through loans and asset purchases.

In response to this crisis, the Central Bank of UAE (CBUAE) has instituted measures in the UAE to support businesses and households. These measures are expected to remain in place till the date announced by CBUAE as noted below. Some of the measures announced by the CBUAE under Targeted Economic Support Scheme (TESS), which would mitigate the impact of Covid-19 are discussed below:

A. Temporary relief to customers

Temporary relief from the payments of principal and/or interest/profit on outstanding loans for all Covid-19 affected private sector corporates, small and medium enterprises and individuals domiciled in UAE. To incentivize UAE banks to participate in the TESS programme:

- CBUAE has granted an extension of AED 50 billion capital buffer for the entire banking industry till December 31, 2021. This will facilitate additional lending capacity of banks.
- CBUAE has granted an extension of the TESS recovery program zero cost funding facility until June 30, 2022.
- CBUAE has granted extension of the TESS deferrals program until the end of 2021 with a gradual phase-out i.e. not to exceed 50% of the allocated limit for each financial institution by September 30, 2021, with full phase out by December 31, 2021.

B. Liquidity and capital stimulus package

The effects of this crisis on the liquidity/funding and capital risks and profile of the banking system are evolving and subject to ongoing monitoring, as governments around the world intervene to provide various stimulus package to mitigate the adverse effects of the crisis. CBUAE has introduced the following stimulus package relating to liquidity and capital requirements to support the banking industry in the UAE through this disruption, for banks that fully pass on the TESS related benefits to end customers:

- CBUAE has a reduced requirement of maintaining minimum liquidity coverage ratio (LCR) of 70% (from 100%), minimum net funding ratio (NSFR) of 90% (from 100%) and minimum eligible liquid assets ratio (ELAR) of 7% (from 10%). This liquidity can be used to compensate for the effect of posting collateral required by the TESS programme.
- To improve liquidity within UAE banking system, the CBUAE halved the reserve requirement for demand deposit of all banks from 14% to 7%.
- To counter volatility in financial markets and its impact on regulatory capital, CBUAE has issued a new requirement for all banks to apply a prudential filter to IFRS 9 expected credit loss (ECL) provisions. Any increase in the provisioning compared to December 31, 2019 will be partially added back to regulatory capital while IFRS 9 provisions will be gradually phased-in during a five-year period, ending December 31, 2024.

4. Coronavirus (Covid-19) outbreak and its impact on ADCB Group (continued)

B. Liquidity and capital stimulus package (continued)

- The CBUAE has allowed banks to tap into capital conservation buffer and domestic systemically important banks (D-SIB) to the extent of 60% and 100% respectively till December 31, 2021.
- Planned implementation of certain Basel III capital requirements will be postponed till end of 2021 (Basel III part 2) and second quarter of 2022 (Basel III part 3).

Although the measures mentioned above are not exhaustive and may not fully counteract the impact of Covid-19 in the short run, they will mitigate the long-term negative impact of the epidemic.

In response to this crisis, the Bank continues to monitor and respond to all liquidity and funding requirements through its Liquidity Contingency Plan and stress tests reflecting the current economic scenarios. As at the reporting date, the liquidity, funding and capital position of the Bank remains strong and is well placed to absorb the impact of the current disruption.

IASB Guidance and Joint Guidance issued by the Central Bank of UAE, Dubai Financial Services Authority (the "DFSA") and the Financial Services Regulatory Authority (the "FSRA")

The Bank recognises any changes made to ECL to estimate the overall impact of Covid-19 will be subject to very high levels of uncertainty as little reasonable and supportable forward-looking information is currently available on which to base those changes. This makes it even more important that ECL process remains robust since any significant overstatement of ECL could lead to unnecessary tightening in credit conditions which may not have a salutary economic impact. Accordingly, IASB and regulatory bodies in the UAE have proposed certain measures to manage the impact of economic uncertainty on ECL while remaining compliant with IFRS.

On March 27, 2020, the IASB issued a guidance note on accounting for expected credit losses in the light of current uncertainty arising from the Covid-19 pandemic. The guidance note states that IFRS 9 requires the application of judgement and both requires and allows entities to adjust their approach to determining ECLs in different circumstances. A number of assumptions and linkages underlying the way ECLs have been implemented to date may no longer hold in the current environment. Entities should not continue to apply their existing ECL methodology mechanically.

On April 22, 2020, the Central Bank of UAE issued guidance on treatment of IFRS 9 ECL in context of the Covid-19 crises. The guidance requires banks to identify customers who are temporarily and mildly impacted by Covid-19 (Group 1) and those who are significantly impacted by Covid-19 in the long term (Group 2). The guidance also requires the Bank to review the credit conversion factor, staging and run scenarios to ascertain the impact of the macro-economic variables. ADCB has taken necessary steps to comply with this guidance.

On October 27, 2020, CBUAE has issued further guidelines that required moving all accounts that are significantly impacted by Covid-19 (Group 2) to stage 2. The revised guidelines required banks to disclose all deferrals provided to all customers irrespective of whether these deferrals were provided under TESS scheme or outside of the TESS scheme.

Further, to assess significant increase in credit risk (SICR) IFRS 9 requires that entities assess changes in the risk of a default occurring over the expected life of a financial instrument. Both the assessment of SICR and the measurement of ECLs are required to be based on reasonable and supportable information that is available to an entity without undue cost or effort. Entities are required to develop estimates based on the best available information about past events, current conditions and forecasts of economic conditions. In assessing forecast conditions, consideration should be given both to the effects of Covid-19 and the significant government support measures being undertaken.

4. Coronavirus (Covid-19) outbreak and its impact on ADCB Group (continued)

IASB Guidance and Joint Guidance issued by the Central Bank of UAE, Dubai Financial Services Authority (the "DFSA") and the Financial Services Regulatory Authority (the "FSRA") (continued)

In line with the IASB guidance, the Central Bank of UAE, DFSA and FSRA introduced a joint guidance which stipulates the following considerations while measuring ECLs:

- a temporary moratorium on payments, or a waiver of a breach of covenant, in itself is not considered an SICR trigger in the current environment. This would also be the case even if a moratorium results in a loss for the Bank (e.g., if interest payments are reduced or waived), if it is provided irrespective of the borrowers' individual circumstances.
- due to the current unusual circumstances the 30 days past due (DPD) backstop assumption in some cases has been rebutted.
- the Bank distinguishes between obligors whose long-term credit risk is unlikely to be significantly affected by Covid-19 from those who may be more permanently impacted. Obligors operating in certain industries are likely to be more affected compared to others. These factors are considered to determine whether there is a case of SICR.
- most modifications of contracts as a result of Covid-19 are not substantial modifications.

Impact of Covid-19 on ADCB Group

ADCB's corporate portfolio is primarily UAE focused, therefore the Central Bank TESS programme directly aids most of the corporate portfolios with the exception of government-related enterprises which the Group believes will be able to manage this crisis based on their ownership and economic importance to the country. All customers who have availed of TESS deferral, have been classified as Group 1 or Group 2 as per the Central Bank definitions. Customers have been provided deferrals under TESS and the subsequent repayment/account performance post the end of the deferral period is monitored.

ADCB's Retail portfolio continues to see more immediate term impact on account of reduced pay/joblosses/cash flow stress in businesses. ADCB is fully committed to help these customers through this turbulent period as directed by the CBUAE. Small and medium enterprises (SME) customers are evaluated based on the stability of the business owner and business and any short term cash flow mismatches are supported by the Bank.

Al Hilal Bank, a fully owned subsidiary of ADCB, has a retail portfolio primarily of UAE Nationals employed in government owned entities. This is a segment that we believe will be insulated from job cuts and salary reductions, and as such the impact on this portfolio would be considerably muted.

Impact on ECL

ADCB's IFRS 9 framework is implemented and is based on robust internal models. ADCB's Group Risk Management has independent model development and model validation teams who oversee the redevelopment/calibration and model validations on policy defined frequencies. ADCB also relies on external model validation for ensuring the ECL outputs are relevant and reflect the latest portfolio risk composition.

ADCB has recently updated its macro-economic variables. These changes ensures that the ECL charge fully reflects the current prevailing macro-economic scenario. The impact of these changes is included in the net impairment charges of AED 704 million.

Given that ADCB's portfolio is largely UAE based, all the government support measures will help mitigate the impact of ECL on its portfolio.

4. Coronavirus (Covid-19) outbreak and its impact on ADCB Group (continued)

Governance updates related to TESS

The Group has implemented robust governance around TESS deferrals. TESS deferrals follow a credit approval process and are approved after proper evaluation of customer needs, past performance and impact of Covid-19 on customer's credit worthiness. In line with the Joint Guidance, the risk policy team has issued guidelines to ensure that TESS deferrals adhere to the prescribed CBUAE rules. All deferrals are tracked by credit operations with adequate checks and balances. TESS deferrals are monitored on a weekly basis by Group Risk division to ensure compliance with the CBUAE rules and Joint Guidance. The decisions on macro-economic adjustments, grouping, etc. are all documented via policies and approved by the relevant risk committees.

Payment deferrals

The Group has drawn AED 8,881,745 thousand of the TESS related funds allocated to it, of which AED 3,214,373 thousand has been repaid up to date of approval of these financial statements. Further, the Group has extended AED 11,468,137 thousand to the customers by means of payment deferrals under TESS, of which AED 5,850,648 thousand has been subsequently settled by customers as at March 31, 2021. Payment deferrals were given to corporate, SME and retail customers in line with the CBUAE regulations ensuring that the customers impacted by Covid-19 are supported by temporary payment deferrals.

Summary of payment deferrals (including TESS and other deferrals):

	As at Ma	As at March 31, 2021 (unaudited)		
	Wholesale	Wholesale Retail		
	banking	banking	Total	
	AED'000	AED'000	AED'000

Others	713,044	7,737,761	18,669			
Total	6,908,069	56,136,262	1,432,466			
(*) includes investment companies						

(*) includes investment companies

Joint Guidance requires that all customers who avail payment deferrals are to be grouped into two categories:

Group 1

Customers that are temporarily and mildly impacted by the Covid-19 crisis. For these customers, the payment deferrals are believed to be effective and thus the economic value of the facilities are not expected to be materially affected. These customers are expected to face liquidity constraints without substantial changes in their creditworthiness.

Group 2

Customers that are expected to face substantial changes in their credit worthiness beyond liquidity issues.

To comply with the above requirements, the Group reviewed the top 70% of its wholesale exposures on a case-by-case basis to ensure the correct classification of Group 1 and 2 exposures. For the remainder of the portfolio, the Group has adopted an approach based on industry sector, current internal rating and loan-to-value criteria for asset backed financing. The grouping policy was reviewed and approved by the Management Risk & Credit Committee of the Bank.

Based on the above considerations, customers availing payment deferrals have been categorised as follows:

		As at March 31, 2021 (unaudited)					
		Number of	Payment		Impairment		
		customers	deferrals	Exposure	allowance	Collaterals

4. Coronavirus (Covid-19) outbreak and its impact on ADCB Group (continued)

Payment deferrals (continued)

The Group has aligned its internal policies on ECL and staging in line with "Joint Guidance Note to Banks and Finance Companies on treatment of IFRS 9 expected credit loss provisions in the UAE in the context of the Covid-19 crisis" ("Joint Guidance") dated April 4, 2020.

The Group has taken the following steps to ensure that the ECL practices remain prudent in light of the payment deferrals provided to the customer.

• Changes in macro-economic variables

The Group runs ECL models based on forward looking assumptions. However, based on the CBUAE directives, latest macro-economic variables and projections have been updated in ECL models to reflect the current economic situation. In addition to this, the Bank continues to hold overlays that have been set aside to cover Covid-19 impact.

Probability of default (Rating changes)

The Group continues to rate its customers using its internal models and customers with weak financial profiles will have rating downgrades thereby impacting their probability of default (PD) and ECL. This is to ensure any additional ECL required due to PD deterioration is taken into the ECL calculation.

Average PD and loss given default (LGD) of customers availing deferral benefits:

	Weighted a	average PD	Weighted av	erage LGD
	Wholesale	Retail	Wholesale	Retail
Group	banking	banking	banking	banking
Group 1	3.91%	1.88%	16.88%	64.40%
Group 2	21.81%	50.91%	21.58%	62.35%
Segment average	6.04%	15.13%	17.44%	63.85%

• Migration of staging

The CBUAE regulations allows the staging of the Group 1 customers to remain unchanged for the duration of the crisis. Similarly, the Group 2 customers will not be normally migrated to stage 3 based on their financial performance as the impact of Covid-19 is not expected to be permanent in nature. The Bank has applied these principles, however some of the customer's stage has been downgraded post the end of the deferral period. In addition, as per CBUAE guidelines, Group 2 customers who were under stage 1 have been migrated to stage 2.

4. Coronavirus (Covid-19) outbreak and its impact on ADCB Group (continued)

Payment deferrals (continued)

The stage wise classification of customers availing payment deferrals (by business segment):

			As at	March 31, 2021 (unaudit	ed)
Segment	Stage	Group	Payment deferrals AED'000	Exposure AED'000	Impairment Allowance AED'000

(**) includes investments in perpetual bonds issued by other banks

As at March 31, 2021, the allowance for impairment on debt instruments designated at FVTOCI amounting to AED 262,966 thousand (December 31, 2020 - AED 229,820 thousand) (Note 10) is included in revaluation reserve of investments carried at FVTOCI and recognised in other comprehensive income.

The Group hedges interest rate and foreign currency risks on certain fixed rate and floating rate investments through interest rate and currency swaps and designates these as fair value and cash flow hedges, respectively. The net negative fair value of these swaps at March 31, 2021 was AED 1,482,126 thousand (December 31, 2020 – net negative fair value AED 2,753,972 thousand). The hedge ineffectiveness gains and losses relating to these hedges were included in the condensed consolidated interim income statement.

Notes to the condensed consolidated interim financial information

For the three month period ended March 31, 2021

8. Investment securities (continued)

The Group entered into repurchase agreements whereby bonds were pledged and held by counterparties as collateral. The risks and rewards relating to the investments pledged remains with the Group. The bonds placed as collateral are governed under Global Master Repurchase Agreements (GMRA). The following table reflects the carrying value of these bonds and the associated financial liabilities:

	As at March 31, 20	As at March 31, 2021 (unaudited)		1, 2020 (audited)
	Carrying value	Carrying value	Carrying value	Carrying value
	of pledged	of associated	of pledged	of associated
	securities	liabilities	securities	liabilities
	AED'000	AED'000	AED'000	AED'000
Repurchase financing	20,050,180	17,815,312	15,060,298	13,027,819

Further, the Group pledged investment securities with fair value amounting to AED 2,828,560 thousand (December 31, 2020 – AED 3,313,735 thousand) as collateral against margin calls. The risks and rewards on these pledged investments remains with the Group.

9. Loans and advances to customers, net

Addition during the period	42,400
Disposals during the period	(8,397)
Impact of currency translation	(12)

Additions during the period represent real estate acquired on settlement of certain loans and advances. These being non-cash transactions have not been reflected in the condensed consolidated interim statement of cash flows.

Fair valuations

Valuations are carried out by registered independent valuers having an appropriate recognised professional qualification and experience in the location and category of the property being valued.

In estimating the fair values of the properties, the highest and best use of the properties is their current use.

The valuation methodologies considered by external valuers include:

- Direct comparable method: This method seeks to determine the value of the property from transactions of comparable properties in the vicinity applying adjustments to reflect differences to the subject property.
- Investment method: This method is used to assess the value of the property by capitalising the net operating income of the property at an appropriate yield an investor would expect for an investment of the duration of the interest being valued.

Investment properties of the Group are primarily located within the UAE.

12. Other assets, net

	As at March 31 2021 unaudited AED'000	As at December 31 2020 audited AED'000

Notes to the condensed consolidated interim financial information For the three month period ended March 31, 2021

20. Capital notes

In February 2009, the Department of Finance, Government of Abu Dhabi subscribed to ADCB's Tier I regulatory capital notes with a principal amount of AED 4,000,000 thousand (the "Notes").

The Notes are non-voting, non-cumulative perpetual securities for which there is no fixed redemption date. Redemption is only at the option of the Bank. The Notes are direct, unsecured, subordinated obligations of the Bank and rank pari passu without any preference among themselves and the rights and claims of the Note holders will be subordinated to the claims of Senior Creditors. The Notes bore interest at the rate of 6% per annum payable semi-annually until February 2014, and bear a floating interest rate of 6 month Eibor plus 2.3% per annum thereafter. However, the Bank may at its sole discretion elect not to make a coupon payment. The Note holders do not have a right to claim the coupon and an election by the Bank not to service the coupon is not considered an event of default. In addition, there are certain circumstances ("non-payment event") under which the Bank is prohibited from making a coupon payment on a relevant coupon payment date.

If the Bank makes a non-payment election or a non-payment event occurs, then the Bank will not (a) declare or pay any distribution or dividend or (b) redeem, purchase, cancel, reduce or otherwise acquire any of the share capital or any securities of the Bank ranking pari passu with or junior to the Notes except securities, the term of which stipulate a mandatory redemption or conversion into equity, in each case unless or until two consecutive coupon payments have been paid in full.

Pursuant to merger, the Bank assumed erstwhile UNB's Tier I regulatory capital notes with a principal amount of AED 2,000,000 thousand. The terms and conditions applicable to these notes are similar to the Notes issued by ADCB.

Further, AHB's Tier I regulatory capital notes amounting to AED 1,836,500 thousand assumed on the date of acquisition, were settled in June 2019.

21. Interest income (unaudited)

	3 months end	ed March 31

28. Earnings per share (unaudited)

Basic and diluted earnings per share

The calculation of basic earnings per share is based on the profit attributable to equity holders of the Bank and the weighted average number of equity shares outstanding. Diluted earnings per share is calculated by adjusting the weighted average number of equity shares outstanding for the dilutive effects of potential equity shares held on account of employees' incentive plan.

	3 months ended March 31	
	2021 AED'000	2020 AED'000
Profit for the period attributable to the equity holders of the Bank	1,120,977	207,370
Less: Coupons paid on capital notes (Note 20)	(90,635)	(147,317)
Net adjusted profit for the period attributable to the equity holders of the Bank (a)	1,030,342	60,053
	Number of shares	in thousand
Weighted average number of shares in issue throughout the period	6,957,379	6,957,379
Less: Weighted average number of shares resulting from employees' incentive plan shares	(4,190)	(6,329)
Weighted average number of equity shares in issue during the period for basic earnings per share (b)	6,953,189	6,951,050
Add: Weighted average number of shares resulting from employees' incentive plan shares	4,190	6,329
Weighted average number of equity shares in issue during the period for diluted earnings per share (c)	6,957,379	6,957,379
Basic earnings per share (AED) (a)/(b)	0.15	0.01
Diluted earnings per share (AED) (a)/(c)	0.15	0.01

ABU DHABI COMMERCIAL BANK PJSC

Notes to the condensed consolidated interim financial information

Total commitments and contingent liabilities (*) includes AED 7 350 623 thousand (December 31, 2020; AED 7 259 002 thousand)	94,872,342	93,536,345

(*) includes AED 7,350,623 thousand (December 31, 2020: AED 7,259,002 thousand) for undrawn credit card limits

30. Operating segments

The Group has four reportable segments as described below. These segments offer different products and services and are managed separately based on the Group's management and internal reporting structure. The Group's Management Executive Committee (the Chief Operating Decision Maker "CODM"), is responsible for allocation of resources to these segments, whereas, the Group's Performance Management Committee, based on delegation from CODM reviews the performance of these segments on a regular basis.

The following summary describes the operations in each of the Group's reportable segments:

Consumer banking - comprises of retail, wealth management, Islamic financing and investment in associates. It includes loans, deposits and other transactions and balances with retail customers and corporate and private accounts of high net worth individuals and funds management activities.

Wholesale banking - comprises of business banking, cash management, trade finance, corporate finance, small and medium enterprise financing, investment banking, Islamic financing, infrastructure and asset finance, government and public enterprises. It includes loans, deposits and other transactions and balances with corporate customers.

Investments and treasury - comprises of central treasury operations, management of the Group's investment portfolio and interest rate, currency and commodity derivative portfolio and Islamic financing. Investments and treasury undertakes the Group's funding and centralised risk management activities through borrowings, issue of debt securities and use of derivatives for risk management. It also undertakes trading and corporate finance activities and investing in liquid assets such as short-term placements, corporate and government debt securities.

Property management - comprises of real estate management and engineering service operations of subsidiaries and rental income earned from properties of the Group.

For the three month period ended March 31, 2021

30. Operating segments (continued)

Information regarding the results of each reportable segment is shown below. Performance is measured based on segment profit before income tax, as included in the internal management reports that are reviewed by the Performance Management Committee. Segment profit is used to measure performance as management believes that such information is the most relevant in evaluating the results of certain segments relative to other entities that operate within these industries. Inter-segment pricing is determined on an arm's length basis.

The following is an analysis of the Group's revenue and results by operating segments for the three month period ended March 31, 2021 (unaudited):

The Central Bank of UAE (CBUAE) has issued a notice CBUAE/BSD/N/2020/1479 dated March 18, 2020, providing guidelines for Targeted Economic Support Scheme (TESS). The notice aims to contain the repercussions of Covid-19 pandemic in the UAE. CBUAE published an update to Capital Adequacy Standards vide notification CBUAE/BSD/N/1733/2020 on April 2, 2020, which superseded all the previous capital adequacy standards with immediate effect. TESS guidelines are effective starting from March 15, 2020 until December 31, 2021. Banks are allowed the following relief under the TESS:

- Banks can tap into their Capital Conservation Buffer (CCB) up to a maximum of 60% and D-SIB buffer up to 100% without supervisory consequences.
- CBUAE allows banks to apply prudential filter to IFRS 9 expected loss provisions. The prudential filter aims to minimize the effect of IFRS 9 provisions on regulatory capital, in view of expected volatility due to the Covid-19 crisis.

For the three month period ended March 31, 2021

32. Related party transactions

The Group enters into transactions with the parent and its related entities, associates, funds under management, directors, senior management and their related entities and the Government of Abu Dhabi (ultimate controlling party and its related entities) in the ordinary course of business at commercial interest and commission rates.

Key management personnel are defined as those persons having authority and responsibility for planning, directing and controlling the activities of the Group, being the directors, chief executive officer and his direct reports.

Transactions between the Bank and its subsidiaries have been eliminated on consolidation and are not disclosed in this note.

Parent and ultimate controlling party

Abu Dhabi Investment Council Company PJSC holds 60.20% (December 31, 2020 - 60.20%) of the Bank's issued and fully paid up share capital (Note 18). Abu Dhabi Investment Council Company PJSC was established by the Government of Abu Dhabi pursuant to law No. 16 of 2006 and so the ultimate controlling party is the Government of Abu Dhabi.

For details of related party balances as at December 31, 2020, refer note 37 in the consolidated financial statements for the year ended December 31, 2020. For related party transactions for the three month ended March 31, 2020, refer note 32 in the condensed consolidated interim financial information for the period ended March 31, 2020. The related party balances as at March 31, 2021 and transactions for the three month period ended March 31, 2021 are similar in nature and magnitude.

Related party balances and transactions of the Group included in the condensed consolidated interim statement of financial position and condensed consolidated interim income statement are as follows:

Notes to the condensed consolidated interim financial information For the three month period ended March 31, 2021

33. Fair value hierarchy

Fair value measurements recognised in the condensed consolidated interim financial information

The fair value measurements are categorised into different levels in the fair value hierarchy based on the inputs to valuation techniques used. The different levels are defined as follows:

Quoted market prices – Level 1

Financial instruments are classified as Level 1 if their values are observable in an active market. Such instruments are valued by reference to unadjusted quoted prices for identical assets or liabilities in active markets where the quoted price is readily available and the price represents actual and regularly occurring market transactions.

Valuation techniques using observable inputs – Level 2

Financial instruments classified as Level 2 have been valued using models whose inputs are observable in an active market. Valuation based on observable inputs include financial instruments such as swaps and forwards which are valued using market standard pricing techniques and options that are commonly traded in markets where all the inputs to the market standard pricing models are observable.

The category includes derivative financial instruments such as OTC derivatives, commodity derivatives, foreign exchange spot and forward contracts, certain investment securities and borrowings.

Valuation of the derivative financial instruments is made through discounted cash flow method using the applicable yield curve for the duration of the instruments for non-optional derivatives and standard option pricing models such as Black-Scholes and other valuation models for derivatives with options.

Valuation techniques using significant unobservable inputs – Level 3

Financial instruments and investment properties are classified as Level 3 if their valuation incorporates significant inputs that are not based on observable market data (unobservable inputs). A valuation input is considered observable if it can be directly observed from transactions in an active market.

Unobservable input levels are generally determined based on observable inputs of a similar nature, historical observations or other analytical techniques.

Financial instruments under this category mainly includes private equity instruments and funds. The carrying values of these investments are adjusted as follows:

- a) Private equity instruments using the latest available net book value; and
- b) Funds based on the net asset value provided by the fund manager.

This hierarchy requires the use of observable market data when available. The Group considers relevant and observable market prices in its valuations where possible.

Refer Note 11 in respect of valuation methodology used for investment properties.

For the three month period ended March 31, 2021

33. Fair value hierarchy (continued)

Except as detailed in the following table, the Management considers that the carrying amounts of financial assets and liabilities recognised in the condensed consolidated interim financial information does not materially differ from their fair values.

		L	110	1 1 0		
	-	Level 1 Quoted	Level 2	Level 3 Significant		
		market	Observable	unobservable	Total	Carrying

The Group's OTC derivatives in the trading book are classified as Level 2 as they are valued using inputs that can be observed in the market.

For the three month period ended March 31, 2021

33. Fair value hierarchy (continued)

Reconciliation showing the movement in fair values of Level 3 investments designated at FVTOCI is as follows:

	As at	As at
	March 31	December 31
	2021	2020
	unaudited	audited
	AED'000	AED'000
Opening balance	205,981	222,927
Disposals including capital refunds during the period/year	(6,630)	(2,857)
Adjustment through other comprehensive income during the period/year	(1,318)	(14,089)
Closing balance	198,033	205,981

Net gain of AED 3,060 thousand (for the three month period ended March 31, 2020 – loss of AED 1 thousand) was realised on disposal of Level 3 equity investments designated at FVTOCI and were transferred to retained earnings.

34. Legal proceedings

The Group is involved in various legal proceedings and claims arising in the ordinary course of business. While the outcome of these matters cannot be predicted with certainty, management does not believe that these matters will have a material adverse effect on the Group's condensed consolidated interim financial information if disposed unfavourably.
