

# Integrated Report 2023

# تقرير مجلس الادارة عن نشاط الشركة ومركزها المالي <u>للفترة المنتهية في 31 ديسمبر 2023</u>

السادة مساهمي «شركة أسمنت الخليج» المحترمين السلام عليكم ورحمة الله وبركاته ،،،

بإسمكـم نــرفع إلى مقــام صـــاحب السمـــو الشيخ محمد بن زايد آل نهيان – رئيس الدولة حفظه االله ،،

وإلى مقــــام صـاحب الســمـو الشـيـــخ محــمـــد بـن راشـــد آل مكتـــوم – نــائب رئيس الدولة رعاه االله ،،

وإلى مقـــام صـاحب الســمــو الشيــخ سـعــود بن صقـــر القــــاسمي عضـو المجلس الأعلى حاكم إمارة رأس الخيمة رعاه االله،،

أسمى آيات الشكر والعرفان على دعمهم المتواصل للصناعة والاقتصاد.

كما يطيب لي بالأصالة عن نفسي وبالنيابة عن إخواني أعضاء مجلس الإدارة أن أرحب بكم في اجتماع الجمعية العمومية "49" ، كما يســرنا أن نضع بين أيديكم تقريرنا عن نشاط الشركة ومركزها المالى للفترة المنتهية في 31 ديسمبر 2023.

### أدء الشركة خلال العام 2023

بالرغم من التحسن الطفيف في النتائج إلا أن عام 2023 كان ملييء بالتحديات والصعاب وخاصة التداعيات الناتجة عن الوضع العالمي وانعكاسه السلبي على قطاع الاسمنت في جميع الأسواق.

إن التحديات الكبيرة التي تمر بها صناعة الاسمنت الناتجة عن استمرار زيادة العرض عن الطلب وانخفاض أسعار الاسمنت والكلنكر في السوق المحلي والأسواق الخارجية بسبب المنافسة والإغراق، بالإضافة إلى الازمات العالمية كان لها الاثر السلبي الكبير على صناعة الاسمنت خاصة تلك التي أدت إلى ارتفاع أسعار الوقود والشحن، الامر الذي زاد من المسؤوليات الملقاه على عاتق المجلس والذي اعتمد حزمة من التوجهات الاستراتيجية أهمها قرار إطفاء الخسائر المتراكمة عن طريق استخدام الاحتياطيات، ومقترح حجب التوزيعات عن هذا العام بما يضمن الحد الأدنى من التأثيرات السلبية وتجاوز هذه المرحلة، واستغلال الملاءة المالية في أداء انشطتها ومشاريعها والذي سيمكن الشركة من أداء التزاماتها، كما كان لدعم الحكومة المحلية اللامحدود الأثر في استمرارية مسيرة الشركة من أداء التزاماتها الصعبة، حيث نجحت الشركة في تجاوز هذه الفترة والتوازن بين الانتاج والتسويق حسب متطلبات الأسواق، وقد أدى التزام الإدارة التنفيذية والعاملين بالشركة بهذه التوجهات إلى تحقيق النتائج المرجوة والحفاظ على علاقة الشركة الاستراتيجية مع جميع المتعاملين بكل شفافية ونزاهة.

### الرسالة المجتمعية

تحرص القيادة الرشيدة في دولة الإمارات العربية المتحدة على تعميق مظلة الأمان الاجتماعي وجعلتها ضمن أولوياتها الرئيسية بالعمل على تعميق التلاحم المجتمعي، وترسيخ التعاضد الاجتماعي بين مختلف شرائح المجتمع وفئاته، وأصبحت المسؤولية المجتمعية لشركة أسمنت الخليج ذات الأولوية الوطنية المرتبطة بأهداف التنمية المستدامة، بما يتوافق مع القوانين والانظمة ويضمن تحفيز العطاء المؤسسي وتعزيز المساهمة في تنمية المجتمع.

### الحفاظ على البيئة

التزمت الشركة بتطبيق القرارات والقوانين وأفضل الممارسات المتعلقة في الحفاظ على البيئة واستدامتها تحت شعار بيئة مستدامة ومنتج أخضر، حيث تولي الشركة جل اهتمامها وجهودها في مشاريع الاستدامة البيئية التي تسهم في الحفاظ على الموارد الطبيعية، كما حرصت الشركة على المشاركة الفاعلة في الورش التحضيرية والفعاليات الرئيسة لمؤتمر الاطراف وقمة الحياد الكربوني COP28 التي نجحت الدولة في استضافتها وتنظيمها والتي تتناسب مع المكانة المرموقة لدولة الإمارات العربية المتحدة ورؤيتها 2030.

### قواعد الحوكمة

تلتزم الشركة بمجموعة من الضوابط والقواعد والمواثيق التي تحقق الانضباط المؤسسي في إدارة الشركة وفقاً للمعايير والأساليب العالمية، ودعم ثقافة حوكمة الشركة وجميع العاملين بها من خلال المراجعة المستمرة لسياساتها وبرامجها بهدف تطويرها بشكل دائم ، وتؤمن الشركة بأهمية تطبيقها لإرساء قواعد الشفافية والعدالة والمسائلة وذلك استناداً إلى أفضل الممارسات والمعايير.

### رؤية عام 2024

إن مؤشرات الأسواق تشير إلى استمرار التحديات وارتفاع أسعار الطاقة، بالإضافة إلى استمرار تداعيات الازمة العالمية، كذلك استمرار المنافسة الشديدة في الأسواق الخارجية والذي سينعكس سلباً على الكلفة ، ولكن بالتخطيط ورسم الاستراتيجيات وتنفيذ رؤية المجلس دعماً لمسيرة الشركة والعلاقة الاستراتيجية طويلة المدى مع كبار موردي المواد الخام والوقود كذلك مع زبائن الشركة الاستراتيجين بما يضمن استدامة الشركة وذلك سعياً لتحقيق النتائج المرجوة خلال العام 2024.

### الخاتمة

في الختام أتقدم بالشكر الجزيل إلى مساهمي الشركة الكرام، والجهات والمؤسسات الحكومية والمحلية والمجتمعية والهيئات والأسواق المالية، وعملاؤنا وجميع العاملين بالشركة. والله ولى التوفيق،،،

> كايد بن عمر بـن صـقـر القـاسـمـي رئيس مجلس الإدارة

# FINANCIAL STATEMENTS

**31 DECEMBER 2023** 

Ernst & Young Middle East (Sharjah Branch) P.O. Box 1350 City Gate Tower, 14<sup>th</sup> Floor, Office No. 1402 Al-Ittihad Street, Emirate of Sharjah United Arab Emirates Tel: +971 6 574 1491 Fax: +971 4 332 4004 sharjah@ae.ey.com

PL No. 2845

# INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF GULF CEMENT COMPANY P.S.C.

### Report on the audit of the financial statements

### **Opinion**

We have audited the financial statements of Gulf Cement Company P.S.C. (the "Company"), which comprise the statement of financial position as at 31 December 2023, and the statement of profit or loss, statement of comprehensive income, statement of changes in equity and statement of cash flows for the year then then ended, and notes to the financial statements, including material accounting policy information.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at 31 December 2023, and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards ("IFRS").

### Basis for opinion

We conducted our audit in accordance with International Standards on Auditing ("ISAs"). Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the financial statements* section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' *International Code of Ethics for Professional Accountants (including International Independence Standards)* (the "IESBA Code") together with the ethical requirements that are relevant to our audit of the financial statements in the United Arab Emirates, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in the audit of the financial statements of the current year. These matters were addressed in the context of the audit of the financial statements as a whole, and in forming the auditor's opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context. We have determined the matters described below to be the key audit matters to be communicated in our report.

We have fulfilled the responsibilities described in the *Auditor's responsibilities for the audit of the financial statements section* of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying financial statements.

### Report on the audit of the financial statements (continued)

Key audit matters (continued)

### **Kev audit matter**

### Impairment of property, plant and equipment

The Company has property, plant and equipment ("PPE") amounting to AED 634.6 million as of 31 December 2023. A history of recurrent gross and net losses has led to indicators of impairment.

As at 31 December 2023, management estimated the recoverable amount of its PPE being the higher of fair value less costs of disposal ("FVLCD") and value in use ("VIU"). VIU was assessed by the management through the assistance of an external valuer. Management has concluded that since the VIU is higher than the carrying amount of the PPE, hence no impairment provision was required as at 31 December 2023.

Since significant judgement, assumptions and estimation uncertainty is involved in assessing the impairment, we have identified this as a key audit matter.

Note 9 to the financial statements includes relevant disclosures and note 4 includes key source of estimation uncertainty.

### How our audit addressed the key audit matter

Our procedures to test the impairment analysis performed by the Company included the following:

- We examined the methodology to assess the VIU of the PPE in accordance with International Financial Reporting Standards (IFRS).
- We evaluated the appropriateness of the assumptions and judgments used including input data used to estimate the cash flow forecasts.
- We evaluated the reasonableness of management's forecasts for certain key assumptions such as (a) annual revenue growth rates, (b) gross margins, (c) terminal growth rate, (d) operating expenses, (e) capital expenditures, and (f) working capital changes by comparing the forecasts to (1) the historical operating results (2) internal communications to management and the Board of Directors and (3) external sources of information.
- We evaluated the external valuer's competence, capabilities and objectivity including the scope of the engagement.
- We verified the appropriateness of the computation of Weighted Average Cost of Capital ("WACC") and terminal growth rate used in the determination of cash flow forecasts with the support of our internal valuation specialists.
- We have assessed the appropriateness of the disclosures in the financial statements.

### Report on the audit of the financial statements (continued)

Key audit matters (continued)

### Kev audit matter

### Assessment of going concern basis

# As explained in note 1.1 to the financial statements, the Company incurred a loss of AED 51.6 million for the year ended 31 December 2023, and as at that date, it has accumulated losses of AED 16 million and net current liabilities of AED 88 million.

As disclosed in the assessment of liquidity risk in note 26 to the financial statements, the Company has financial liabilities of AED 283.8 million to be settled within one year from 31 December 2023. The Company has bank balances and cash of AED 0.6 million, other current assets of AED 200.1 million, other non-current liquid investments of AED 1.8 million and unutilized borrowing facilities of AED 25.4 million.

The financial statements have been prepared on a going concern basis. The availability of sufficient funding, meeting its budgets including revenue targets and management's assessment of whether the Company will be able to continue meeting its obligations under its financing covenants were important for the going concern assumption and, as such, were significant aspects of our audit.

This assessment was largely based on the expectations of, and the estimates made by management. The expectations and estimates can be influenced by subjective elements such as estimated future cash flows, forecasted results and margins from operations, and are sensitive, in particular, to expected raw material prices, sales prices of the Company's products in the foreseeable future and availability of sufficient borrowing facilities.

### How our audit addressed the key audit matter

Our procedures in relation to the management's assessment of going concern assumption included:

- We obtained an understanding of the process over the liquidity assessment, compliance with the debt covenants and preparation of the cash flow forecasts for the next 12 months after the reporting date.
- We analysed management's future cash flow forecasts, and the process by which they were prepared, and reviewed the reasonableness of underlying key assumptions such as expected cash inflows from product sales, external funding and cash outflows from operating and other activities.
- Regarding revenue expectations, reviewed the reasonableness of estimates made by management by assessing whether the estimates regarding sales forecasts and sales prices are in line with historical revenues to date, approved purchase orders to date and budgets approved by the Board of Directors. We also inquired and evaluated an alternative scenario analysis of management using the low end of revenue forecasts and accompanying kev assumptions ascertain the extent of change in those assumptions that either individually or collectively would lead to alternative conclusions.

### Report on the audit of the financial statements (continued)

Key audit matters (continued)

### Key audit matter

### Assessment of going concern basis (continued)

### How our audit addressed the key audit matter

- We read the minutes of the meeting of the Board of Directors in order to understand whether such cash flow forecasts are approved by the members of the Board of Directors.
- We obtained an understanding of the financing plan, and the progress made on executing against the plan up to the date of this report.
- We agreed the details of the Company's used and unused available credit facilities (including the amendment and extension of credit facilities) to the underlying borrowing facility arrangements.
- We have assessed the appropriateness of the disclosures in the financial statements.

### Other information

Other information consists of Management's Report other than the financial statements and our auditor's report thereon. Management is responsible for the other information.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements, or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### Responsibilities of management and Board of Directors for the financial statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRSs, and in compliance with the applicable provisions of the Company's Articles of Association and the UAE Federal Law No. 32 of 2021, and for such internal control as management determines is necessary to enable the preparation of the financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

### Report on the audit of the financial statements (continued)

### Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures
  that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
  effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Board of Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Board of Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

### Report on the audit of the financial statements (continued)

### Auditor's responsibilities for the audit of the financial statements (continued)

From the matters communicated with the Board of Directors, we determine those matters that were of most significance in the audit of the financial statements of the current year and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

### Report on other legal and regulatory requirements

Further, as required by the UAE Federal Law No. 32 of 2021, we report that for the year ended 31 December 2023:

- i) the Company has maintained proper books of account;
- ii) we have obtained all the information we considered necessary for the purposes of our audit;
- the financial statements have been prepared and comply, in all material respects, with the applicable provisions of the Company's Articles of Association and UAE Federal Law No. 32 of 2021;
- iv) the financial information included in the Management's Report is consistent with the books of account of the Company;
- v) investments in shares and stocks during the year ended 31 December 2023, if any, are disclosed in note 11 to the financial statements;
- vi) note 21 reflects material related party transactions and the terms under which they were conducted;
- vii) based on the information that has been made available to us, nothing has come to our attention which causes us to believe that the Company has contravened during the year ended 31 December 2023, any of the applicable provisions of the UAE Federal Law No. 32 of 2021 or of its Article of Association which would have a material impact on its activities or its financial position as at 31 December 2023; and
- viii) note 7(a) reflects the social contributions made during the year ended 31 December 2023.

### 1 ACTIVITIES

Gulf Cement Company P.S.C. (Public Shareholding Company) - Ras Al Khaimah (the "Company") having license no. 32 is incorporated as a public shareholding company by Emiri decree number 24/77 issued by His Highness, The Ruler of Ras Al Khaimah, U.A.E., in 1977. The address of the Company's registered office is P. O. Box 5295, Ras Al Khaimah, United Arab Emirates. The Company's shares are listed on Abu Dhabi Securities Exchange (ADX). In the General Assembly Meeting held on 2 April 2020, the shareholders approved the delisting of the Company's shares from Kuwait Stock Exchange (Boursa Kuwait). The last day of trading of the Company's shares in Boursa Kuwait was on 14 December 2020.

The principal activities of the Company are production and marketing of all types of cement.

### 1.1 ASSESSMENT OF GOING CONCERN ASSUMPTION

During the year ended 31 December 2023, the Company incurred a loss of AED 51.6 million and, as of that date, the Company's accumulated losses amounted to AED 16.0 million, and current liabilities exceeded current assets by AED 88.0 million. Slowdown in the overall economic situation arising from the consequences of the ongoing Russia-Ukraine war and changing geopolitical situation; competitive prices and a continuous excess supply pressure, operating results have been negatively impacted.

The major challenges during the year were fetching best prices from the customers in export market amid increasing competition, excess supply of cement in both local and export market post the end of COVID-19 pandemic and procuring fuel & energy at optimum prices while the ongoing Russia-Ukraine war continues to aggravate this situation, controlling fixed cost, passing increasing cost to customers and scheduled maintenance. The Company has shown resilience in all respect and has adopted all tangible measures to improvise the situation in the Company's favour. The cost control measures, and various strategies adopted by management in the financial year 2022 in all areas with a specific focus to reduce fixed costs have started reaping benefit during the year ended 31 December 2023. During the year ended 31 December 2023, the Company has reduced its gross loss from 8.7% for the previous year to 4.7% for the current year and improved earnings before interest, taxes, depreciation, and amortization (EBITDA i.e., non-IFRS measure) from AED 3.3 million to AED 14.3 million for the year.

In order to be able to deal with the effects of continued all-time high energy and commodity prices, the current selling price environment, as well as effects of the global uncertainty, the management is continuously reviewing the Company's business and asserting the strategies. Tactical course of actions taken is mentioned below:

- Upward price revision in local market and renegotiation on prices with export customers
- Developing new markets for both existing and new products in the export business
- Reduction of costs and improvements in efficiencies wherever conceivable
- Energy conservative measures and right mix of power sources and effective and efficient use of available resources to be lowest cost-producer in the country
- Automation of machines interfaces with ERP for real time data and effective decision making
- Curtailment of discretionary capital expenditure while preserving the ability of the business to increase production when cement prices and economies improve
- Strict working capital management through negotiation in payment terms with suppliers

Management have prepared cash flow forecasts for a period in excess of 12 months. Various scenarios have been considered to test the Company's resilience to business risks including:

- Significant adverse movements in the energy and fuel prices, and cement selling prices or a combination thereof
- Failure to meet forecast demand sales targets

In view of this, the management has determine that the Company has sufficient internal and external sources of finance until the performance metrics continue to improve. The Company is currently low leveraged that provides sufficient headroom to cushion against downside operational risks, and consequently management believes that it is better placed to face off the headwinds. As at 31 December 2023, the Company had available AED 25.4 million (31 December 2022: AED 48.5 million) of undrawn committed borrowing facilities.

At 31 December 2023

### 1 ACTIVITIES (continued)

### 1.1 ASSESSMENT OF GOING CONCERN ASSUMPTION (continued)

Based on the Company's expectation related to the forecasts and facilities in place, management believe that the Company will be able to operate and comply with its financial covenants and be able to meet its obligations as they fall due, and accordingly have formed a judgement that it is appropriate to prepare the financial statements on a going concern basis.

### 2 BASIS OF PREPARATION AND CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES

### **Basis of preparation**

The financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) and in compliance with the applicable provisions of the Company's Articles of Association and the UAE Federal Law No. 32 of 2021.

The financial statements are prepared on a historical cost basis except for investments carried at fair value through profit or loss, investments carried at fair value through other comprehensive income and investment property that have been measured at fair value.

The financial statements have been presented in United Arab Emirates Dirhams ("AED"), which is also the functional currency of the Company.

### Changes in accounting policies and disclosures

The accounting policies used in the preparation of the financial statements are consistent with those used in the preparation of the financial statements for the year ended 31 December 2022, except as follows:

### New and amended standards and interpretations

The Company applied for the first-time certain standards and amendments, which are effective for annual periods beginning on or after 1 January 2023 (unless otherwise stated). These new and amended standards and interpretations did not have any material impact on the financial statements of the Company.

- IFRS 7 Insurance Contracts
- Definition of Accounting Estimates Amendments to IAS 8
- Disclosure of Accounting Policies Amendments to IAS 1 and IFRS Practice Statement 2
- Deferred Tax related to Assets and Liabilities arising from a Single Transaction Amendments to IAS 12
- International Tax Reform Pillar-Two Model Rules Amendments to IAS 12

### Standards issued but not yet effective

The new and amended standards and interpretations that are issued, but not yet effective, as at 31 December 2023 are disclosed below. The Company intends to adopt these new and amended standards and interpretations, if applicable, when they become effective. Majority of the amendments below are not expected to have a material impact on the Company's financial statements.

- Amendments to IAS 1: Classification of Liabilities as Current or Non-current (effective from annual periods beginning on or after 1 January 2024 and must be applied retrospectively)
- Lease Liability in a Sale and Leaseback Amendments to IFRS 16 (effective for annual periods beginning on or after 1 January 2024. Earlier application is permitted, and that fact must be disclosed)
- Supplier Finance Arrangements Amendments to IAS 7 and IFRS 7 (effective for annual reporting periods beginning on or after 1 January 2024. Early adoption is permitted, but will need to be disclosed)
- Sale or Contribution of Assets between an Investor and its Associate or Joint Venture Amendments to IFRS 10 and IAS 28 (In December 2015, the IASB decided to defer the effective date of the amendments until such time as it has finalised any amendments that result from its research project on the equity method. The amendments must be applied prospectively. Early application is still permitted and must be disclosed)
- Lack of exchangeability Amendments to IAS 21 (The amendments will be effective for annual reporting periods beginning on or after 1 January 2025. Early adoption is permitted but will need to be disclosed. When applying the amendments, an entity cannot restate comparative information)

At 31 December 2023

### 3 MATERIAL ACCOUNTING POLICY INFORMATION

The material accounting policy information used in the preparation of these financial statements are set out below.

### Revenue recognition

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. The Company has concluded that it is the principal in its revenue arrangements because it typically controls the goods or services before transferring them to the customer.

### Sale of goods

Revenue from sale of goods is recognised at the point in time when control of the goods is transferred to the customer, generally on delivery of the goods at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods.

### Dividend and interest revenue

Dividend revenue from investments is recognised when the shareholder's right to receive payment has been established.

Interest revenue is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the asset's net carrying amount.

### Contract balances

Trade receivables

A receivable is recognised if an amount of consideration that is unconditional is due from the customer (i.e., only the passage of time is required before payment of the consideration is due).

### Contract liabilities

A contract liability is recognised if a payment is received or a payment is due (whichever is earlier) from a customer before the Company transfers the related goods or services. Contract liabilities are recognised as revenue when the Company performs under the contract (i.e., transfers control of the related goods or services to the customer).

### Property, plant and equipment

Property, plant and equipment are stated at cost, net of accumulated depreciation and accumulated impairment losses if any. Such cost includes the cost of replacing part of the property, plant and equipment and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of property, plant and equipment are required to be replaced at intervals, the Company recognises such parts as individual assets with specific useful lives and depreciation, respectively. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the property, plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in the statement of profit or loss as incurred. The present value of the expected cost for the decommissioning of the asset after its use is included in the cost of the respective asset if the recognition criteria for a provision are met.

Depreciation is calculated on a straight-line basis over the estimated useful lives of the asset except for certain plant and machinery and power stations which are depreciated using units of product method, as follows:

Building and roads 27 to 35 years
Plant and machinery 5 to 15 years / units of production
Power stations units of production
Vehicles and equipment 2 to 5 years
IT computer and hardware 3 years

Units of production rates are based on estimated remaining production units of the plant and machinery and power stations measured in terms of tonnage and megawatts, respectively as of 1 January 2020 as determined by an independent third-party consultant. These remaining production units are estimated considering operation and maintenance of the plant and machinery and power stations as per internationally accepted industry standards.

At 31 December 2023

### 3 MATERIAL ACCOUNTING POLICY INFORMATION (continued)

### **Property, plant and equipment (continued)**

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal (i.e., at the date the recipient obtains control) or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit of loss in the year the asset is derecognised.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end, and adjusted prospectively if, appropriate.

Spare parts that meet the definition of property, plant and equipment are capitalised as such and accounted for accordingly. If spare parts do not meet the recognition criteria of property, plant and equipment, they are either carried in inventory or consumed and recorded in the statement of profit or loss. Depreciation of spare parts commences when they are put into use, rather than when they are acquired. Spare parts are depreciated over the shorter of its useful life and the remaining expected useful life of the asset to which it relates. Before the spare parts is available for service, any reduction in value is reflected as an impairment loss as per the requirements of IAS 36 when indicators of impairment are identified. Key assumptions used by the management in assessing the impairment of property, plant and equipment are disclosed in note 4 and note 9(a).

### **Inventories**

Inventories are valued at the lower of cost and net realisable value. Costs incurred in bringing each product to its present location and condition are accounted for, as follows:

- Raw materials purchase cost on a weighted average basis
- Finished goods and work in progress cost of direct materials and labour and a proportion of manufacturing overheads based on the normal operating capacity, but excluding borrowing costs

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

### **Financial instruments**

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

### i) Financial assets

### **Initial recognition and measurement**

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, FVTOCI and FVTPL.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Company's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Company has applied the practical expedient, the Company initially measures a financial asset at its fair value plus, in the case of a financial asset not at FVTPL, transaction costs. Trade receivables that do not contain a significant financing component or for which the Company has applied the practical expedient are measured at the transaction price under IFRS 15.

In order for a financial asset to be classified and measured at amortised cost or FVTOCI, it needs to give rise to cash flows that are 'solely payments of principal and interest (SPPI)' on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level. Financial assets with cash flows that are not SPPI are classified and measured at FVTPL, irrespective of the business model.

The Company's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both. Financial assets classified and measured at amortised cost are held within a business model with the objective to hold financial assets in order to collect contractual cash flows while financial assets classified and measured at FVTOCI are held within a business model with the objective of both holding to collect contractual cash flows and selling.

At 31 December 2023

### 3 MATERIAL ACCOUNTING POLICY INFORMATION (continued)

### **Financial instruments (continued)**

### i) Financial assets (continued)

### **Initial recognition and measurement (continued)**

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the marketplace (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

The Company's financial assets include bank balances, trade and other receivables, investments carried at FVTOCI and FVTPL.

### **Subsequent measurement**

For purposes of subsequent measurement, financial assets are classified in the following categories:

- Financial assets at amortised cost
- Financial assets at FVTOCI with recycling of cumulative gains and losses
- Financial assets designated at FVTOCI with no recycling of cumulative gains and losses upon derecognition
- Financial assets at FVTPL

### Financial assets at amortised cost

Financial assets at amortised cost are subsequently measured using the effective interest (EIR) method and are subject to impairment. Gains and losses are recognised in profit or loss when the asset is derecognised, modified or impaired.

The Company's financial assets at amortised cost includes bank balances and trade and other receivables.

### Financial assets designated at FVTOCI (equity instruments)

Upon initial recognition, the Company can elect to classify irrevocably its equity investments as equity instruments designated at FVTOCI when they meet the definition of equity under IAS 32 *Financial Instruments: Presentation* and are not held for trading. The classification is determined on an instrument-by-instrument basis.

Gains and losses on these financial assets are never recycled to profit or loss. Dividends are recognised as investment income in the statement of profit or loss when the right of payment has been established, except when the Company benefits from such proceeds as a recovery of part of the cost of the financial asset, in which case, such gains are recorded in OCI. Equity instruments designated at FVTOCI are not subject to impairment assessment.

The Company elected to classify irrevocably its non-listed equity investments and certain listed equity investments under this category.

### Financial assets at FVTPL

Financial assets at FVTPL are carried in the statement of financial position at fair value with net changes in fair value recognised in the statement of profit or loss.

This category includes listed equity investments which the Company had not irrevocably elected to classify at FVTOCI. Dividends on listed equity investments are recognised as investment income in the statement of profit or loss when the right of payment has been established.

### Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e., removed from the Company's statement of financial position) when:

- The rights to receive cash flows from the asset have expired; or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

At 31 December 2023

### 3 MATERIAL ACCOUNTING POLICY INFORMATION (continued)

### **Financial instruments (continued)**

### i) Financial assets (continued)

### **Derecognition (continued)**

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of its continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

### Impairment of financial assets

The Company recognises an allowance for expected credit losses (ECL) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Company expects to receive. The shortfall is then discounted at an approximation to the asset's original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

For trade receivables, the Company applies a simplified approach in calculating ECLs. Therefore, the Company does not track changes in credit risk but instead recognizes a loss allowance based on lifetime ECL's at each reporting date. The Company has established a provision matrix that is based on the Company's historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment. ECLs are recognised in the statement of profit or loss.

The Company considers a financial asset in default when contractual payments are 90 days past due. However, in certain cases, the Company may also consider a financial asset to be in default when internal or external information indicates that the Company is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Company. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

### ii) Financial liabilities

### Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at FVTPL, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade payables, bank borrowings and other payables.

### Subsequent measurement

The measurement of financial liabilities depends on their classification as described below:

- Financial liabilities at FVTPL
- Financial liabilities at amortised cost (loans and borrowings)

Financial liabilities at amortised cost (loans and borrowings)

This is the category most relevant to the Company. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

At 31 December 2023

### 3 MATERIAL ACCOUNTING POLICY INFORMATION (continued)

**Financial instruments (continued)** 

### ii) Financial liabilities (continued)

### **Subsequent measurement (continued)**

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit or loss.

This category generally applies to trade payables, bank borrowings and other payables.

### Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

### iii) Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount reported in the statement of financial position if, and only if, there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

### Impairment of non-financial assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs to sell and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs to sell, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by other available fair value indicators.

The Company bases its impairment calculation on detailed budgets and forecast calculations, which are prepared separately for each of the Company's CGUs to which the individual assets are allocated. These budgets and forecast calculations generally cover a year of five years. A long-term growth rate is calculated and applied to project future cash flows after the fifth year.

Impairment losses of continuing operations are recognised in the statement of profit or loss in expense categories consistent with the function of the impaired asset, except for properties previously revalued and the revaluation was taken to other comprehensive income. For such properties, the impairment is recognised in other comprehensive income up to the amount of any previous revaluation.

For assets excluding goodwill, an assessment is made at each reporting date whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such indication exists, the Company estimates the asset's or CGUs recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the income statement unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase.

### **Borrowing costs**

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the year in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

At 31 December 2023

### 3 MATERIAL ACCOUNTING POLICY INFORMATION (continued)

### **Investment properties**

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at fair value, which reflects market conditions at the reporting date. Gains or losses arising from changes in the fair values of investment properties are included in profit or loss in the year in which they arise. Fair values are determined based on an annual valuation performed by an accredited external independent valuer.

Investment properties are derecognised either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in profit or loss in the year of derecognition. In determining the amount of consideration from the derecognition of investment property the Company considers the effects of variable consideration, existence of a significant financing component, non-cash consideration, and consideration payable to the buyer (if any).

Transfers are made to (or from) investment property only when there is a change in use. For a transfer from investment property to owner-occupied property, the deemed cost for subsequent accounting is the fair value at the date of change in use. If owner-occupied property becomes an investment property, the Company accounts for such property in accordance with the policy stated under property, plant and equipment up to the date of change in use.

### Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability; or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements at fair value on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting year.

The Company measures financial assets such as investment in quoted and unquoted securities and non-financial assets such as investment in properties, at fair value at each balance sheet date.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy, as explained above.

Fair value related disclosures for financial instruments and non-financial assets that are measured at fair value or where fair values are disclosed, are summarised in notes 4, 11, 12 and 24.

At 31 December 2023

### 3 MATERIAL ACCOUNTING POLICY INFORMATION (continued)

### **Current versus non-current classification**

The Company presents assets and liabilities in statement of financial position based on current/non-current classification. An asset as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting year, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting year

All other assets are classified as non-current. A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting year, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting year

The Company classifies all other liabilities as non-current.

### Bank balances and cash

Cash and short-term deposits in the statement of financial position comprise cash at banks and on hand and short-term highly liquid deposits with a maturity of three months or less, that are readily convertible to a known amount of cash and subject to an insignificant risk of changes in value.

### Dividend

The Company recognises a liability to pay a dividend when the distribution is authorised and the distribution is no longer at the discretion of the Company. As per the Company's Article of Association, a distribution is authorised when it is approved by the shareholders and ratified by the market regulator. A corresponding amount is derecognised from equity and transferred to liabilities.

### **Provisions**

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Where the Company expects some or all of a provision to be reimbursed, for example under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the statement of profit or loss net of any reimbursement.

### **Contingencies**

Contingent liabilities are not recognised in the financial statements. They are disclosed unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent assets are not recognised in the financial statements but disclosed when an inflow of economic benefits is probable.

### **Employee benefits**

### Defined contribution plan

UAE national employees of the Company are members of the Government-managed retirement pension and social security benefit scheme pursuant to the applicable Federal Labour Law. The Company is required to contribute 12.5% of the "contribution calculation salary" of payroll costs to the retirement benefit scheme to fund the benefits. The employees and the Government contribute 5% and 2.5% of the "contribution calculation salary" respectively, to the scheme. The only obligation of the Company with respect to the retirement pension and social security scheme is to make the specified contributions (12.5%). The contributions are charged to profit or loss.

### Annual leave

An accrual is made for the estimated liability for employees' entitlement to annual leave as a result of services rendered by eligible employees up to the end of the year.

At 31 December 2023

### 3 MATERIAL ACCOUNTING POLICY INFORMATION (continued)

### **Employee benefits (continued)**

Provision for employees' end of service indemnity

The Company provides end of service benefits to its expatriate employees. The entitlement to these benefits is based upon the employees' salary and length of service, subject to the completion of a minimum service period. The expected costs of these benefits are accrued over the period of employment.

The accrual relating to annual leave is disclosed as a current liability, while the provision relating to end of service indemnity is disclosed as a non-current liability.

### Value added tax

Expenses and assets are recognised net of the amount of value added tax (VAT), except:

- When the VAT incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case, the VAT is recognised as part of the cost of acquisition of the asset or as part of the expense item, as applicable.
- When receivables and payables are stated with the amount of VAT included.

The net amount of VAT recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the statement of financial position.

### Foreign currencies

Transactions in foreign currencies are initially recorded at the spot rates at the date the transaction qualifies for recognition. Monetary assets and liabilities denominated in foreign currencies are translated at the spot rates of exchange at the reporting date. All differences are taken to the statement of profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit or loss, respectively).

In determining the spot exchange rate to use on initial recognition of the related asset, expense or income (or part of it) on the derecognition of a non-monetary asset or non-monetary liability relating to advance consideration, the date of the transaction is the date on which the Company initially recognises the non-monetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, the Company determines the transaction date for each payment or receipt of advance consideration.

### 4 SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future years.

### **Judgements**

In the process of applying the Company's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognised in the financial statements:

### Going concern

The Company's management has made an assessment of the Company's ability to continue as a going concern and believes that the Company has the necessary required resources to enable it to continue its operations and meet its obligations as and when they fall due (note 1.1).

Based on the above, the management believes that the Company will be able to continue as a going concern for the foreseeable future, and accordingly, the financial statements of the Company have been prepared on a going concern basis.

At 31 December 2023

### 4 SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS (continued)

### **Judgements (continued)**

### Classification of investments

Management designates at the time of acquisition of securities whether these should be classified as at FVTOCI or FVTPL. In judging whether investments in securities are as at FVTOCI or FVTPL, management has considered the detailed criteria for determination of such classification as set out in IFRS 9, and accordingly management is satisfied that its investments in securities are appropriately classified.

### Component parts of property, plant and equipment

The Company's assets classified within property, plant and equipment, are depreciated on a straight-line basis over their economic useful lives or the units of production method. When determining the economic useful life of an asset, it is broken down into significant component parts such that each significant component part is depreciated separately. Judgement is required in ascertaining the significant components of a larger asset, and while defining the significance of a component, management considers quantitative materiality of the component part as well as qualitative factors such as difference in useful life as compared to main asset, its pattern of consumption, and its replacement cycle/maintenance schedule.

### Classification of properties

Management decides at the time of acquisition of a property whether it should be classified as property, plant and equipment or investment property. The Company classifies properties as property, plant and equipment when the properties are held for use by, or in the operations, of the Company. Properties are classified as investment properties when the intention is to hold them for capital appreciation, for rental or for undetermined use. The Company changes the classification when its intention changes.

### **Estimates and assumptions**

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

### Units of production depreciation

Certain property, plant and equipment are depreciated using the units of production (UOP) method based on the remaining production capacity as determined by an independent third-party consultant as of 1 January 2020. This results in a depreciation charge proportional to the estimated production capacity of the relevant item of property, plant and equipment. Each items' life, which is assessed annually, has regard to both its physical life limitations and to present assessments of the remaining production capacity assuming the operation and maintenance of the property, plant, and equipment as per internationally accepted industry standards. These calculations require the use of estimates and assumptions, including the number of remaining units of productions and estimates of future capital expenditure. The calculation of the UOP rate of depreciation could be impacted to the extent that actual production in the future is different from current forecast production or future capital expenditure estimates changes.

Changes to estimated production capacity could arise due to changes in the factors or assumptions used in estimating capacity, including the below:

- Unforeseen operational issues
- Manufacturing defects
- Improper modifications done
- Improper replacements done
- Poor maintenance practices
- Reducing costly unscheduled outages caused by in-service failures

Changes in estimates are accounted for prospectively.

At 31 December 2023

### 4 SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS (continued)

### **Estimates and assumptions (continued)**

### Provision for expected credit losses of trade receivables

The Company uses a provision matrix to calculate ECLs for trade receivables and contract assets. The provision rates are based on days past due for groupings of various customer segments that have similar loss patterns (i.e., by geography, product type, customer type and rating, and coverage by letters of credit and other forms of credit insurance).

The provision matrix is initially based on the Company's historical observed default rates. The Company will calibrate the matrix to adjust the historical credit loss experience with forward-looking information. For instance, if forecast economic conditions (i.e., gross domestic product) are expected to deteriorate over the next year which can lead to an increased number of defaults, the historical default rates are adjusted. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

The assessment of the correlation between historical observed default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and of forecast economic conditions. The Company's historical credit loss experience and forecast of economic conditions may also not be representative of customer's actual default in the future. The information about the ECLs on the Company's trade receivables and contract assets is disclosed in note 12 and note 26.

As at the date of the statement of financial position, gross trade receivables were AED 75.4 million (2022: AED 54.4 million) and the provision for expected credit losses was AED 3.9 million (2022: AED 4.0 million).

### Existence of inventories

Inventories comprise of purchased raw materials (limestone, sand, slag, gypsum, iron ore and bauxite) and work in progress (mainly clinker which are stored in purpose built shed and stockpiles). Since the weighing of these inventories is not practicable, management assesses the quantities on hand at the year-end by obtaining measurements of the stockpiles and converting these measurements to unit of volumes by using the angle of repose and the bulk density. In doing so, management appoints an independent surveyor to estimate the quantities by using certain scientific systematic measurements calculations and applying the density conversion methods which are applied for similar stock in the cement industry.

### Impairment of inventories

Inventories are held at the lower of cost and net realisable value. When inventories become old or obsolete, an estimate is made of their net realisable value. For individually significant amounts this estimation is performed on an individual basis. Amounts which are not individually significant, but which are old or obsolete, are assessed collectively and a provision applied according to the inventory type and the degree of ageing or obsolescence, based on anticipated selling prices.

At the reporting date, gross inventories were AED 116.0 million (2022: AED 104.0 million) with provision for old and obsolete inventories of AED 13.0 million (2022: AED 13.0 million). Any differences between the amounts actually realised in future years and the amounts expected will be recognised in the statement of profit or loss.

### Fair value of financial instruments

When the fair values of financial assets and financial liabilities recorded in the statement of financial position cannot be measured based on quoted prices in active markets, their fair value is measured using observable or unobservable valuation techniques including the discounted cash flow (DCF) model, where appropriate. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions relating to these factors could affect the reported fair value of financial instruments.

### Impairment of non-financial assets

Impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based market approach (i.e. sales comparison method) and cost approach (i.e. depreciated replacement cost method). The value in use calculation is based on a DCF model.

The cash flows are derived from the budget for the next five years and do not include restructuring activities that the Company is not yet committed to or significant future investments that will enhance the performance of the assets of the CGU being tested. The recoverable amount is sensitive to the discount rate used for the DCF model as well as the expected future cash-inflows and the growth rate used for extrapolation purposes. The key assumptions used to determine the recoverable amount for the CGU are disclosed in note 9(a).

At 31 December 2023

### 4 SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS (continued)

### **Estimates and assumptions (continued)**

### Fair value of investment property

The Company carries its investment property at fair value, with changes in fair value being recognised in the statement of profit or loss. For investment property, a valuation methodology based on the current prices in an active market for similar properties is used. In the absence of such information, the Company determined the amounts within a range of reasonable fair value estimates. In making its judgment, the Company considers recent prices of similar properties in the same location and similar conditions, with adjustments to reflect any changes in the nature, location or economic conditions since the date of the transactions that occurred at those prices. Such estimation is based on certain assumptions, which are subject to uncertainty and might materially differ from the actual results.

The Company engaged an independent valuation specialist to assess fair value as at 31 December 2023. The key assumptions used to determine the fair value of the property and sensitivity analysis are provided in note 10.

# Useful lives of property, plant and equipment, excluding power stations and a production line classified as part of plant and machinery

The Company's management determines the estimated useful lives of its property, plant and equipment for calculating depreciation. This estimate is determined after considering the expected usage of the asset or physical wear and tear. Management reviews the residual value and useful lives annually and future depreciation charge would be adjusted where the management believes the useful lives differ from previous estimates.

### 5 REVENUE FROM CONTRACT WITH CUSTOMERS

### a) Disaggregated revenue information

Set out below is the disaggregation of the revenue from contracts with customers:

	2023 AED	2022 AED
<b>Type of revenue</b> Sale of goods	462,720,111	348,112,911
Geographical markets Within UAE Outside UAE	192,158,748 270,561,363	120,723,817 227,389,094
	462,720,111	348,112,911
<b>Timing of revenue recognition</b> Goods transferred at a point in time	462,720,111	348,112,911

Revenue includes AED 360.4 million which represents 78% of total revenue from 7 customers (2022: AED 259.0 million which represents 74% of total revenue from 7 customers).

### b) Contract balances

	2023 AED	2022 AED
Asset Trade receivables (note 12)	71,506,364	50,323,883
Liability Advances from customers (note 19)	4,192,422	13,443,152

At 31 December 2023

### 5 REVENUE FROM CONTRACT WITH CUSTOMERS (continued)

### c) Performance obligations

The performance obligation on sales of goods is satisfied upon delivery and payment is generally due within 150 to 180 days from delivery (2022: 150 to 180 days).

### 6 OTHER OPERATING INCOME

Other operating income consists of income earned on electricity generated by the Company. Income earned during the year ended 31 December 2023 amounted to AED 11.0 million (2022: AED 5.2 million).

### 7 SELLING, GENERAL AND ADMINISTRATIVE EXPENSES

	2023	2022
	AED	AED
Loading charges	24,011,201	18,071,525
Salaries and employee-related costs (note (b))	11,537,069	12,244,347
Professional charges	1,312,298	970,117

At 31 December 2023

### 9 PROPERTY, PLANT AND EQUIPMENT (continued)

a) During the year ended 31 December 2023, no impairment losses (2022: AED nil) has been recognised against property, plant and equipment ("PPE"), to adjust the carrying value to its recoverable amount. The recoverable amount assessed as at 31 December 2023 and 31 December 2022 was based on value in use calculated using the discounted cash flow approach over the period of next 5 years determined at the level of CGU with a terminal growth rate assumed after the 5th year. The CGU consisted of whole block of PPE as all the assets are used inseparably to provide service to customers that generate the cash flows. In arriving at the value in use of the PPE, the Company has projected the future cash flows for a period of five years using the following assumptions:

	2023	2022
Discount rate	10.60%	10.50%
Growth rate on price per ton	3.0%	4.73%
Terminal year growth rate	1.5%	2.5%
Fuel and power price	refer below	refer below

Fuel and power price include coal and gas prices. Average coal prices are obtained from published indices for the countries from which materials are sourced, as well as data relating to specific commodities. Forecast figures of coal is based on publicly available data if available otherwise average five-year actual coal prices are used as an indicator of the future price. In case of gas, forecast figures is derived basis of average of five-year actual gas prices as an indicator of the future price including by reference to agreement entered with the supplier.

Value in use is higher than the carrying amount of the PPE as at 31 December 2023. Hence, no impairment losses were recorded by the Company.

### Sensitivity to changes in assumptions

The discount rates represent the current market assessment of the risk specific to the CGU, taking into consideration the time value of money and individual risks of the underlying assets that have not been incorporated in the cash flow estimates. The discount rate is derived from the weighted average cost of capital, which takes into account both debt and equity. The cost of equity is derived from the expected return on investment of the Company's investors. The cost of debt is based on average lending rates. Segment specific risk is incorporated by applying individual beta factors, evaluated annually based on publicly available market data. A rise in the discount rate to 10.7% (2022: 10.6%) (i.e., +10 basis points)) in the CGU would result in no impairment.

On average, the revenue of the CGU over the next five years is projected to grow in line with the economy or with real Gross Domestic Product. Historically, cement industry growth had a direct correlation with economic growth. A reduction by 0.1% in the growth rate on price per ton in the CGU would result in no impairment (2022: no impairment).

The terminal year growth rate is based on the projected growth of the Company which is in line with its historical experience, economic conditions of the countries where the Company operates, and the Company's future plans. A reduction by 0.1% in the terminal year growth rate in the CGU would result in no impairment (2022: no impairment).

If prices of fuel and power increase on average by 0.5%, the Company will have no impairment (2022: no impairment).

- b) At 31 December 2023, the cost of fully depreciated property, plant and equipment that is still in use amounted to AED 725.3 million (2022: AED 620.7 million).
- c) Depreciation on spare parts is not charged until such time as these assets are placed in service and transferred to the respective categories of property, plant and equipment.
- d) The factory and its related buildings are constructed on plots of land owned by the Government of Ras Al Khaimah. All property, plant and equipment are located in the UAE.
- e) As at 31 December 2022, motor vehicles with net book value of AED 364 thousand are mortgaged against auto loan (note 18(b)). The related loan was settled during the year.
- f) There is a negative pledge over property, plant and equipment against borrowings (note 18).
- g) Assignment of fire insurance policy over moveable property, plant and equipment in relation to banking facilities obtained by the Company (note 18).

At 31 December 2023

### 10 INVESTMENT PROPERTY

	2023 AED	2022 AED
At the beginning of the year Change in fair value Disposal during the year	6,430,000 820,000 -	12,630,000 - (6,200,000)
At the end of the year	7,250,000	6,430,000

Investment property represents plots of land in Ras Al Khaimah.

In 2022, one of the investment properties had been sold for AED 6,237,056, resulting in a gain on disposal of AED 37,056.

The fair value of the Company's investment property at 31 December 2023 and 31 December 2022 has been arrived at on the basis of a valuation carried out at by an independent and competent valuer. The valuation was arrived at by reference to market evidence of transaction prices for similar properties. There has been no change to valuation technique compared to previous year.

At 31 December 2023 and 31 December 2022, the Company's investment property is classified as Level 3 in the fair value hierarchy and there were no transfers between the Levels 1, 2 and 3 during 2023 and 2022.

The Company has no restrictions on the realisability of its investment property and no contractual obligations to purchase, construct or develop investment property or for repairs, maintenance and enhancements.

Description of valuation techniques used and key inputs to valuation of investment property:

	Valuation techniques	Significant unobservable input Range (weighted		ted average)
			2023	2022
	Current market rate for comparable properties that			
Plot of land	have been sold in nearby area	Rate per sq. ft.	<b>AED 35</b>	AED 30

Significant increases / (decreases) in estimated rate per square feet in isolation would result in a significantly higher (lower) fair value of the investment property.

### 11 INVESTMENT IN SECURITIES

### a) Investments carried at FVTOCI

	2023 AED	2022 AED
Quoted Unquoted	1,950,131 12,842,506	1,654,797 12,842,506

Less: accumulated fair value reserve, net	(12,955,211)	(12,274,202)
Fair value of investments	1,837,426	2,223,101

At 31 December 2023

### 11 INVESTMENT IN SECURITIES (continued)

The geographical spread of the above investments is as follows:

	2023		2022			
	Concentration percentage on fair value	Cost	Fair value AED	Concentration percentage on fair value	Cost	Fair value AED
Kuwait	100%	14,792,637	1,837,426	100%	14,497,303	2,223,101

The cumulative change in fair value of investments carried at FVTOCI amounted to negative AED 13.0 million as at 31 December 2023 (2022: negative AED 12.3 million) and is shown under equity. During the year, the Company has transferred AED 0.02 million (2022: AED 27.3 million) from fair value reserve to accumulated losses arising from the disposal of investments carried FVTOCI. The total proceeds from the disposal of investments carried at FVTOCI amounted to AED 1.03 million (2022: AED 47.4 million) resulting to a loss of AED 0.09 million (2022: gain of AED 13.4 million) which is shown in the statement of comprehensive income.

Equity instruments designated at FVTOCI include investments in equity shares of listed and non-listed companies. The Company holds non-controlling interests in these companies. These investments were irrevocably designated at FVTOCI as the Company considers these investments to be strategic in nature.

### b) Investments carried at FVTPL

	2023 AED	2022 AED
Quoted investments at cost	8,077,946	9,319,976
Unquoted	8,299,928	8,264,138
Total gross investments at FVTPL at cost	16,377,874	17,584,114
Less: cumulative changes in fair value	(4,680,377)	(7,669,012)
Fair value of investments	11,697,497	9,915,102

The geographical spread of the above investments is as follows:

	2023			2022		
	Concentration percentage on fair value	Cost	Fair value AED	Concentration percentage on fair value	Cost AED	Fair value AED
UAE Other GCC countries	100% 0%	8,077,946 8,299,928	11,697,497 -	95.6% 4.4%	8,077,941 9,506,173	9,483,754 431,348
	100%	16,377,874	11,697,497	100%	17,584,114	9,915,102

The total proceeds from the disposal of investments carried at FVTPL amounted to AED 0.35 million (31 December 2022: AED 23.5 million) resulting to a loss of AED 0.09 million (31 December 2022: loss of AED 3.4 million) which is shown in the statement of profit or loss.

At 31 December 2023

### 11 INVESTMENT IN SECURITIES (continued)

	85,426,080	60,298,736
a) Movement in provision for expected credit losses during the year is as follows:	ws:	
	2023 AED	2022 AED
Balance at the beginning of the year (Reversal)/ charge for the year (note 7)	4,049,551 (120,527)	2,941,224 1,108,327
	3,929,024	4,049,551

b) In determining the recoverability of trade receivables, the Company considers any significant change in the credit quality of the trade receivables from the date credit was initially granted up to the reporting date. The majority of trade receivables are secured against bank guarantees credit, and management believes that the provision for ECL at the reporting date is sufficient.

At 31 December 2023

### 12 TRADE AND OTHER RECEIVABLES (continued)

c) Analysis of gross trade receivables are set out below:

	2023 AED	2022 AED
Secured against unconditional bank guarantees Secured against letter of credit Unsecured	28,059,535 4,311,669 43,064,184	26,870,249 - 27,503,185
	75,435,388	54,373,434

- d) The average credit period on sale of goods is 150 days to 180 days (2022: 150 days to 180 days).
- e) Trade receivables amounting to AED 63.6 million (2022: AED 46.9 million) is due from the Company's five largest customers representing 84% (2022: 86%) of the total outstanding balance at 31 December 2023.
- f) Ageing analysis of gross trade receivables are as follows:

			Past due		
	Total AED	Neither past due nor impaired AED	I – 90 days AED	91 - 180 days AED	above 180 days AED
2023	75,435,388	69,277,199	2,741,199	295,171	3,121,819
2022	54,373,434	42,627,621	8,173,285	1,099,002	2,473,526

Information on the credit risk exposure is disclosed in note 26.

### 13 INVENTORIES

	2023 AED	2022 AED
Finished goods	9,719,041	11,306,385
Raw materials	7,012,981	3,940,992
Work in progress	30,246,825	14,352,488
Bags, fuel and lubricants	34,779,988	39,268,946
Spare parts	23,744,528	24,152,337
Consumable items	10,041,480	10,486,969
Tools	436,514	450,381
	115,981,357	103,958,498
Less: provision for slow-moving and obsolete inventories (note (c))	(13,025,555)	(13,025,555)
	102,955,802	90,932,943

- a) Assignment of fire insurance policy over inventories in relation to banking facilities obtained by the Company (note 18).
- b) Inventories are pledged against banking facilities obtained by the Company (note 18).

At 31 December 2023

### 13 INVENTORIES (continued)

c) Movement in provision for slow-moving and obsolete inventories during the year is as follows:

	2023 AED	2022 AED
Balance at the beginning of the year Provisions written back during the year (refer note below)	13,025,555	21,025,555 (8,000,000)
	13,025,555	13,025,555

In 2022, provisions for slow-moving and obsolete inventories of AED 8 million were written back based on the health check-up performed by an external party.

# 14 BANK BALANCES AND CASH

	2023 AED	2022 AED
Cash on hand	26,593	83,491
Bank balances: Current accounts Call deposits	495,249 58,021	2,464,997 1,226,296
Total bank balances	553,270	3,691,293
Bank balances and cash	579,863	3,774,784

Call deposits carry interest at commercial rates per annum and are made for a period of less than three months.

### 15 SHARE CAPITAL

	2023 AED	2022 AED
Issued and fully paid: 410,548,410 (2022: 410,548,410) ordinary shares of AED 1 each	410,548,410	410,548,410

### 16 RESERVES

According to the Company's Articles of Association and the requirements of the U.A.E. Federal Law No. 32 of 2021, 10% of the profit of each year is transferred to the statutory reserve. The transfer to statutory reserve may be suspended when it reaches 50% of the paid-up share capital. Statutory reserve is not available for distribution except as stipulated by the Law.

According to the Company's Articles of Association, 10% of the profit for each year is transferred to the voluntary reserve. The transfer to voluntary reserve may be suspended by the ordinary general assembly at the recommendation of the Board of Directors or when it reaches 20% of the Company's paid-up share capital.

As at 31 December 2022, the statutory reserve exceeded the 50% of the paid-up share capital. In prior years, upon the approval and recommendation by the regulatory authorities in the UAE, the management has decided to maintain the statutory reserve at the same level.

At 31 December 2023

### 16 RESERVES (continued)

On 14 November 2023, the Company's Board of Directors has resolved to set off the accumulated losses of AED 182,180,729 by utilizing an equivalent amount standing to the credit of available reserves, which is approved by the shareholders in the general meeting held on 20 December 2023 and Securities and Commodities Authority (SCA). This resulted in a decrease in the accumulated losses and a corresponding reduction in the statutory and voluntary reserves of the Company.

Movement of the Company's reserves is as follows:

into venient of the company is reserves is as follows.			
	Statutory reserve AED	Voluntary Reserve AED	Total AED
Balance at 1 January 2022 and 31 December 2022	343,930,557	4,732,484	348,663,041
Balance at 1 January 2023 Accumulated losses offset against reserves	343,930,557 (177,448,245)	4,732,484 (4,732,484)	348,663,041 (182,180,729)
Balance at 31 December 2023	166,482,312	-	166,482,312
Provision as at 1 January Provided during the year Payments made during the year Provision as at 31 December	SERVICE INDEM	2023 AED 8,579,271 625,950 (860,283) 8,344,938	2022 AED 8,480,783 743,465 (644,977) 8,579,271
18 BORROWINGS			
a) Short-term			
		2023 AED	2022 AED
Bank overdraft facilities Short term loan		8,214,414 48,052,974	6,147,904 44,914,216
Total bank borrowings		56,267,388	51,062,120

The Company's overdraft balances are repayable on demand and short-term loans are repayable within twelve months. The overdraft balances and short-term loan carries interest rates at market competitive variable rates based on EIBOR plus a spread and are secured against promissory note issued by the Company and certain other securities such as assignment of fire insurance policy over inventory (note 13(a)) and movable property, plant and equipment (note 9(g)) and pledge over inventories (note 13(b)) and a negative pledge over property, plant and equipment (note 9(f)).

Bank overdrafts are considered a form of financing and hence not included as a component of cash and cash equivalents in the statement of cashflows.

At 31 December 2023

## 18 BORROWINGS (continued)

### b) Long-term

Interest-bearing term loans are disclosed in the statement of financial position as follows:

	2023 AED	2022 AED
Current portion		123,428

The term loans carry interest at 3% p.a., are secured against vehicles financed (note 9(e)) and repayable monthly with last instalment paid on 1 August 2023.

## 19 TRADE AND OTHER PAYABLES

	2023	2022
	AED	AED
Trade payables	188,853,078	108,811,677
Dividend payable	25,961,250	28,890,514
Accrued expenses	12,721,892	21,734,228
Advances from customers (note 5)	4,192,422	13,443,152
VAT payable	825,388	814,807
Other payables	386,725	629,927
Trade payables (non-current)	232,940,755 (577,108)	174,324,305
	232,363,647	174,324,305

Terms and conditions of the above financial liabilities:

- Trade payables are non-interest bearing and are normally settled on and average of 120 days (2022: 120-day terms)
- VAT payable are non-interest bearing and are normally settled after one month.
- Other payables are non-interest bearing and have an average term of six months.

For explanations on the Company's liquidity risk management processes, refer to note 26.

### 20 BASIC AND DILUTED EARNINGS PER SHARE

	2023	2022
Loss for the year (in AED)	(51,591,940)	(54,403,298)
Weighted average number of shares	410,548,410	410,548,410
Basic and diluted loss per share (in AED)	(0.13)	(0.13)

The Company has not issued any instruments which would have a dilutive impact on loss per share when exercised.

At 31 December 2023

### 21 RELATED PARTY TRANSACTIONS AND BALANCES

Related parties include the Company's major Shareholders, directors and businesses controlled by them and their families over which they exercise significant management influence as well as key management personnel.

### a) Related party transactions

During the year, the Company entered into the following transactions with related parties:

	2023 AED	2022 AED
Attendance expenses for Board of Directors and committees' meetings (note 7)	964,510	1,059,099
b) Compensation of key management personnel		
The remuneration of key management during the year was as follows:		
	2023 AED	2022 AED
Salaries and other short-term benefits (note below) Employees' end of service benefits	4,057,160 312,809	4,409,170 316,289
	4,369,969	4,725,459

The amounts disclosed in the table above relating to salaries and other short-term benefits are the amounts recognised as an expense for the year ended 31 December 2023 and 2022 related to key management personnel.

### 22 CONTINGENT LIABILITIES AND COMMITMENTS

	2023 AED	2022 AED
Letters of credit	28,387,370	29,442,760
Letters of guarantee	36,725	36,725
Capital commitments		974,162

At 31 December 2023

## 23 SEGMENT INFORMATION

The Company is organised into two main business segments:

Manufacturing of all types of cement and investments incorporating investments in marketable equity securities, deposits with banks (excluding current accounts) and investment properties.

	2023			2022		
	Manufacturing AED	Investments AED	Total AED	Manufacturing AED	Investments AED	Total AED
Segment revenue	462,720,111	-	462,720,111	348,112,911	-	348,112,911
Segment result	(55,109,802)	3,517,862	(51,591,940)	(53,511,490)	(891,808)	(54,403,298)
Segment assets	824,796,755	20,842,944	845,639,699	814,763,813	19,794,499	834,558,312
Segment liabilities	297,553,081		297,553,081	234,089,124		234,089,124

There are no transactions between the business segments.

Additional information required by IFRS 8 Segment Reporting relating to geographical segments and major customers are disclosed in note 5(a).

At 31 December 2023

### 24 FAIR VALUE MEASUREMENT

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. As such, differences can arise between book values and the fair value estimates. Underlying the definition of fair value is the presumption that the Company is a going concern without any intention or requirement to materially curtail the scale of its operation or to undertake a transaction on adverse terms.

Fair value of financial instruments carried at amortised cost

Management considers that the carrying amounts of financial assets and financial liabilities recognised at amortised cost in the financial statements approximate their fair values, mainly due to their short-term maturities.

Valuation techniques and assumptions applied for the purposes of measuring fair value

The fair values of financial assets and financial liabilities are determined using similar valuation techniques and assumptions as used in the financial statements for the year ended 31 December 2022.

Fair value of the Company's financial assets that are measured at fair value on recurring basis

Some of the Company's financial assets are measured at fair value at the end of the reporting year. The following table gives information about how the fair values of these financial assets are determined;

	Fair va	lue	Fair value	Valuation		Relationship of	
Financial assets	2023 AED (audited)	2022 AED (audited)	hierarchy	techniques and key inputs	Significant unobservable input	unobservable inputs to fair value	
Quoted equity investments carried at FVTOCI	1,837,426	1,604,728	Level 1	Quoted bid prices in an active market	None	N/A	
Unquoted equity investments carried at FVTOCI	-	618,373	Level 3	Adjusted net assets valuation method	Net assets value and discount for lack of marketability	Management has used net assets valuation method, which is appropriate fair value as per management	
Quoted equity instruments carried at FVTPL	11,697,497	9,915,102	Level 1	Quoted bid prices in an active market	None	N/A	

## Fair value hierarchy

All financial instruments for which fair value is recognised or disclosed are categorised within the fair value hierarchy, based on the lowest level input that is significant to the fair value measurement as a whole, as follows:

- Level 1 Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

At 31 December 2023

### 24 FAIR VALUE MEASUREMENT (continued)

For assets and liabilities that are recognised at fair value on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting year.

There were no changes in the Company's valuation processes, valuation techniques, and types of inputs used in the fair value measurements during the year.

2023	Level 1 AED	Level 2 AED	Level 3 AED	Total AED
Investment property	-	-	7,250,000	7,250,000
Investments carried at FVTPL	11,697,497	-	-	11,697,497
Investments carried at FVTOCI: - Quoted equities	1,837,426	-	-	1,837,426
	13,534,923	-	7,250,000	20,784,923
2022	Level 1 AED	Level 2 AED	Level 3 AED	Total AED
Investment property	-	-	6,430,000	6,430,000
Investments carried at FVTPL	9,915,102	-	-	9,915,102
Investments carried at FVTOCI: - Quoted equities - Unquoted equities	1,604,728	- -	618,373	1,604,728 618,373
	11,519,830	=	7,048,373	18,568,203

There were no transfers between the levels during the year. There are no financial liabilities which should be measured at fair value and accordingly no disclosure is made in the above table.

### 25 CORPORATE INCOME TAX

On 9 December 2022, the UAE Ministry of Finance released Federal Decree-Law No. 47 of 2022 on the Taxation of Corporations and Businesses (Corporate Tax Law or the Law) to enact a Federal corporate tax (CT) regime in the UAE. The CT regime will become effective for accounting periods beginning on or after 1 June 2023.

Decision No. 116 of 2022 (published in December 2022 and considered to be effective from 16 January 2023) specifies that taxable income not exceeding AED 375,000 would be subject to a 0% UAE CT rate, and taxable income exceeding AED 375,000 would be subject to the 9% UAE CT rate. With the publication of this Decision, the UAE CT Law is considered to have been substantively enacted for the purposes of accounting for Income Taxes.

Subsequently, the UAE CT Law has been supplemented by a number of Decisions of the Cabinet of Ministers of the UAE (Decisions). Such Decisions and other interpretive guidance of the UAE Federal Tax Authority provide important details relating to the interpretation of the UAE CT Law and are required to fully evaluate the impact of the UAE CT Law on the Group.

The Company should be subject to the provisions of the UAE CT Law with effect from 1 January 2024, and current taxes shall be accounted for as appropriate in the financial statements for the financial year beginning 1 January 2024.

At 31 December 2023

### 25 CORPORATE INCOME TAX (continued)

Based on the provisions of the UAE CT Law (including interpretation based on the Ministerial decisions and related guidance) as at the reporting date and in accordance with IAS 12 Income Taxes, the Company has concluded there is no significant impact related to deferred tax.

### 26 FINANCIAL INSTRUMENTS RISK MANAGEMENT OBJECTIVES AND POLICIES

The Company's principal financial liabilities compose of bank borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include trade receivables, bank balances and other receivables that derive directly from its operations. The Company also holds investments in equity instruments which are classified as either FVTPL or FVTOCI.

The Company is exposed to market risk, credit risk and liquidity risk. The Company's senior management oversees the management of these risks. The Company's senior management is supported by an executive committee that advises on financial risks and the appropriate financial risk governance framework for the Company. The executive committee provides assurance to the Company's senior management that the Company's financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarised below.

#### Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk. Financial instruments affected by market risk include bank borrowings, trade receivables, bank balances and other receivables and investments in equity instruments.

The sensitivity analysis in the following sections relate to the position as at 31 December 2023 and 2022.

The sensitivity of the relevant statement of profit or loss item or equity is the effect of the assumed changes in respective market risks. This is based on the financial assets and financial liabilities held at 31 December 2023 and 2022.

There has been no change to the Company's exposure to market risks or the manner in which it manages and measures the risk.

### a) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's bank borrowings at floating rates of interest linked to EIBOR and SOFR for its facilities.

The following table demonstrates the sensitivity of the statement of profit or loss to reasonably possible changes in interest rates, with all other variables held constant. The sensitivity of the statement of profit or loss is the effect of the assumed changes in interest rates on the Company's results for the year, based on the variable rate financial liabilities at the reporting date:

	Increase/ decrease basis points	Effect on results for the year in AED
2023	+50 -50	(281,337) 281,337

At 31 December 2023

### 26 FINANCIAL INSTRUMENTS RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

### Market risk (continued)

### a) Interest rate risk (continued)

	Increase/ decrease basis points	Effect on results for the year in AED
2022	+50	(255,311)
	-50	255,311

### b) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's operating activities (when revenue or expense is denominated in a foreign currency).

The Company undertakes certain transactions denominated in foreign currencies. Hence, exposures to exchange rate fluctuations arise.

The carrying amounts of the Company's foreign currency denominated monetary assets and monetary liabilities at the reporting date are as follows:

	Lic	Liabilities		ssets
	2023 AED	2022 AED	2023 AED	2022 AED
US Dollars Euro Kuwaiti Dinar	137,493,251 3,290,272	77,896,087 3,229,753	- - 1,837,426	- 2,654,109
Japanese Yen	140,783,523	1,228,655 82,354,495	1,837,426	2,654,109

The UAE Dirham is currently pegged to the USD, thus the Company is not exposed to the risk on changes in foreign currency relating to its assets and liabilities denominated in USD. 10% is the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the yearend for a 10% change in foreign currency rates against the AED.

The following table shows the sensitivity of the statement of profit or loss to reasonable possible changes in currency rates, with all other parameters being unchanged.

	Increase/ Decrease in currency rate %	Effect on the results of the year AED
2023	+10% -10%	(145,285) 140,285
2022	+10% -10%	(180,430) 180,430

At 31 December 2023

### 26 FINANCIAL INSTRUMENTS RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

### Market risk (continued)

#### c) Price risk

The Company's listed equity securities are susceptible to market price risk arising from uncertainties about future values of the investment securities. The Company manages the price risk through geographical and risk diversification and placing limits on individual and total equity instruments. Reports on the equity portfolio are submitted to the Company's senior management and Board of Directors on a regular basis.

The effect on statement of comprehensive income due to a reasonably possible change in market indices, with all other variables held constant is as follows:

	2023				2022	
	Change in equity price	Effect on profit or loss AED	Effect on OCI AED	Change in equity price %	Effect on profit or loss AED	Effect on OCI AED
Market indices UAE Other GCC countries	±10% ±10%	1,169,750	183,743	±10% ±10%	948,375 43,135	222,310

The Company limits market price risk by monitoring developments in the markets.

Method and assumptions for sensitivity analysis

- The sensitivity analysis has been done based on the exposure to equity price risk as at the reporting date.
- A 10% change in equity prices has been used to give a realistic assessment as a plausible event.

### Credit risk

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade and other receivables) including short-term deposits with banks.

The Company has adopted a policy of only dealing with creditworthy counterparties as a means of mitigating the risk of financial loss from defaults. The Company's exposure and the credit ratings of its counterparties are continuously monitored and the aggregate value of transactions concluded is spread amongst approved counterparties. Credit exposure is controlled by counterparty limits that are reviewed and approved by the management annually.

An impairment analysis is performed at each reporting date using a provision matrix to measure expected credit losses. The provision rates are based on days past due for groupings of various customer segments with similar loss patterns (i.e., by geographical region, product type, customer type and rating, and coverage by letters of credit or letter of guarantees). The calculation reflects the probability-weighted outcome, the time value of money and reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions. Generally, trade receivables are written-off if past due for more than one year and are not subject to enforcement activity. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets. The letters of credit and letter of guarantees are considered integral part of trade receivables and considered in the calculation of impairment.

At 31 December 2023

### 26 FINANCIAL INSTRUMENTS RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

### **Credit risk (continued)**

Set out below is the information about the credit risk exposure on the Company's trade receivables using a provision matrix:

		2023	
	Gross value AED	Provision for expected credit losses AED	Expected credit losses (ECL)
Secured trade receivables Unsecured trade receivables	32,371,204 43,064,184	48,948 3,880,076	0.15% 9.01%
	75,435,388	3,929,024	
		2022	
	Gross value AED	Provision for expected credit losses AED	Expected credit losses (ECL)
Secured trade receivables Unsecured trade receivables	26,870,249 27,503,185	27,787 4,021,764	0.10% 14.72%
	54,373,434	4,049,551	
Credit risk with respect to concentration of trade receivables by	geographical area	is as follows:	
		2023 AED	2022 AED
In UAE In other GCC countries		74,547,894 887,494	54,363,887 9,547
		75,435,388	54,373,434

Credit risk on bank balances is assessed to be minimal as these balances are callable on demand and held with reputable financial institutions in the UAE and Kuwait. Accordingly, the ECL as at the reporting date against bank balances is minimal. Credit risk on other financial assets is assessed to be minimal based on historical default and the fact that they are held with counterparties with creditworthiness evaluated to be good by the Company's internal process.

The maximum exposure to credit risk for financial assets at the reporting date is limited to the carrying value.

### Liquidity risk

Liquidity risk is the risk that an entity will be unable to meet its net funding requirements. The Company's exposure to liquidity risk arises primarily from mismatches of the maturities of financial assets and liabilities.

Ultimate responsibility for liquidity risk management rests with the Board of Directors, which has framed an appropriate liquidity risk management framework for the management of the Company's short, medium and long-term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate reserves and by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities.

At 31 December 2023

### 26 FINANCIAL INSTRUMENTS RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

### **Liquidity risk (continued)**

The table below summarises the maturity profile of the Company's financial liabilities. The contractual maturities of the financial liabilities have been determined on the basis of the remaining year at the reporting date to the contractual maturity date. The maturity profile is monitored by management to ensure that adequate liquidity is maintained. The maturity profile of the liabilities at the reporting date based on contractual repayment arrangements was as follows:

	Less than 1 month AED	2 to 12 months AED	1 to 5 years AED	Total AED
2023 Trade and other payables Bank borrowings	37,995,849 29,022,573	189,349,988 27,396,957	584,781 -	227,930,618 56,419,530

# Capital risk management

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt. The Company monitors capital on the basis of the gearing ratio. This ratio is calculated as net debt divided by total capital. Net debt is calculated as bank borrowings less bank balances and cash. Total capital is calculated as 'equity' as shown in the statement of financial position.

The gearing ratio at the yearend was as follows:

	2023 AED	2022 AED
Bank borrowings Less: bank balances and cash	56,267,388 (579,863)	51,062,120 (3,774,784)
Net debt	55,687,525	47,287,336
Total equity	548,086,618	600,469,188
Net debt to equity ratio (times)	0.10	0.08

In order to achieve this overall objective, the Company's capital management, among other things, aims to ensure that it meets financial covenants attached to the banks borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the bank to immediately call borrowings.

No changes were made in the objectives, policies or processes for managing capital during the years ended 31 December 2023 and 2022.

At 31 December 2023

## 26 FINANCIAL INSTRUMENTS RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

# Changes in liabilities arising from financing activities

	1 January	Cash	Cash	31 December
	2023	inflows	outflows	2023
	AED	AED	AED	AED
Bank borrowings Dividends payable Term loans	51,062,120 28,890,514 123,428	40,598,974 - -	(35,393,706) (2,929,264) (123,428)	56,267,388 25,961,250
	80,076,062	40,598,974	(38,446,398)	82,228,638
	1 January	Cash	Cash	31 December
	2022	inflows	outflows	2022
	AED	AED	AED	AED
Bank borrowings	28,996,574	174,647,781	(152,582,235)	51,062,120
Dividends payable	29,387,071	-	(496,557)	28,890,514
Term loans	323,418	-	(199,990)	123,428
	58,707,063	174,647,781	(153,278,782)	80,076,062

The 'Others' column includes the effects of dividend declared and accrued during the year that were not yet paid at the year end. The Company classifies finance cost paid as cash flows from operating activities.

# 27 APPROVAL OF ANNUAL AUDITED FINANCIAL STATEMENTS

The financial statements were approved by the Board of Directors and authorised for issue on 13 February 2024.

Gulf Cement Company established as a public shareholding company on 31 May 1977, The Company's authorized and paid-up capital is AED 410,548,410. The company's plant is located in the Emirate of Ras Al Khaimah. It has a close proximity to the main raw materials quarries and is close to Saqr port, facilitating the importation of equipment and materials, exportation of Clinker, Cement and GGBS. Gulf Cement is one of the largest cement producers in the United Arab Emirates.

Committed to Chairman of Authority's Board of Directors' Decision no. (3/Chairman) of 2020 concerning Approval of Joint Stock Companies Governance Guide and it's amendments, the Company issues a corporate governance report signed by the Chairman, including all data and information in accordance with the form prepared by the Securities and Commodities Authority, which reflects the company's keenness on the proper application of the rules of governance.

The Company applies IFRS in the preparation of financial statements in accordance with the requirements of applicable laws in the United Arab Emirates. Also, study the effects of applying these standards on the accounting treatment of future transactions.

# (1) Procedures taken to complete the corporate governance

Gulf Cement Company adopts a set of rules, controls and charters that achieve institutional discipline in the company's relations and management in accordance with international standards and methods by defining the responsibilities and duties of the board of directors and senior executive management of the company and taking into consideration the protection of shareholders 'and stakeholders' rights. The company is keen to communicate with the related authorities and public in order to maintain its position locally, regionally and globally. The company is committed to implement the Chairman of Authority's Board of Directors' Decision no. (3/Chairman) of 2020 concerning Approval of Joint Stock Companies Governance Guide and believes in the importance of applying it to establish the rules of transparency, fairness and accountability based on the best models, practices and standards in force worldwide.

As part of Board of Directors' keenness to establish a distinguished model of compliance with the resolution no. (3/Chairman) of 2020 concerning Approval of Joint Stock Companies Governance Guide, the Company has committed to apply best practices as follows:

### **Corporate Governance**

- 1. Implementation of policies, procedures and resolutions issued by the SCA on the standards of institutional discipline and corporate governance of public shareholding companies. In addition, commit to applying best practices in relation to the Board of Directors and its committees and dealing transparently with the external auditor and implementing the resolutions of the General Assembly.
- 2. Formulation of business rules regarding the transactions of the company's Board of Directors, employees and insiders, in addition, formation of a committee reporting to Board of Directors working to follow up and supervise all transactions of insiders in the company's shares.
- 3. Board of Directors has taken all necessary measures to maintain the complete confidentiality of the company's data and information which has a significant impact in a precise manner to ensure that it is not exploited and to put in place effective contractual arrangements whereby the other parties are aware of company's internal data, information about its customers to maintain the confidentiality of such data and information and not to misuse, direct or indirect transfer of such information to any third parties.
- 4. All insider's parties to sign on an official declaration that confirm their knowledge that they acquire internal data and information related to the company and its customers and bear all the legal effects in case of leaking this information or data or giving advice on the basis of the information in possession and to notify the company of any transactions on its shares before and after such transactions.

Commitment of any Board of Directors member, who has joint or conflicting interest in a transaction to inform the Board of Directors to take a decision thereof and to be recorded in the minutes of the meeting and the related member shall not vote on that decision.

- 6. The company's keenness to carry out its business transparently and to adopt the disclosure and transparency policy of the company in accordance with the requirements of regulatory authorities and legislations in force.
- Disclosure of periodic reports, material information, the ownership of insiders and their relatives, transactions of related parties with the Company, and the advantages to the members of the Board of Directors and the senior executive management.
- Provide information to shareholders and investors accurately and clearly and at the specified times.
- 7. All the shares issued by the Company within the same class of shares are equal in rights and obligations and proven to the shareholder all the rights related to the shares in accordance with the provisions of the Companies Law. The Article of Association of the Company and its internal regulations include the procedures to ensure all rights of shareholders.
- 8. The Board of Directors formed permanent committees affiliated to it directly and work in accordance with the standards of corporate discipline and governance of public shareholding companies to carry out their responsibility according to the authority granted to them.
- 9. Adopting written detailed rules and regulations for internal audit that define the duties and responsibilities in accordance with the policy approved by the Board of Directors and the general requirements and objectives in order to follow up the compliance with the provisions of the laws, regulations and resolutions in force and the requirements of the regulatory authorities.
- 10. All members of the Board of Directors, its employees and its auditor shall have committed to the rules of code of conduct, policies and internal regulations, and abide by the applicable laws and regulations.
- 11. Continuous updating the website of the company, which includes all the information related to the company <a href="www.gulfcement.ae">www.gulfcement.ae</a> to enhance disclosure and transparency, and to present any new or material decisions, and is a means to reach the shareholder to see all events directly.
- 12. Continuous updating of the "Investor Relations Portal" <a href="https://gulfcement.ae/investor-relations-ar/">https://gulfcement.ae/investor-relations-ar/</a> through which the company seeks to enable investors to have direct access to the latest information.

The Company is applying all the provisions of the laws, regulations and decisions in force and the requirements of the supervisory authorities in an optimal manner. These provisions and rules shall apply to the members of the Board of Directors of the Company and the executive management and its employees in the performance of their duties.

# (2) Ownership and transactions of the members of the Board of Directors, spouses and children thereof in the Company's securities during the year 2023

## A. The rules of the transactions of the board of directors and employees of the company

The Board of Directors of the Company has adopted written rules regarding the transactions of the Board of Directors of the Company and its employees and insiders in its shares. The members of the Board of Directors of the Company are among the persons familiar with the Company's financial data and internal information. The Board of Directors is keen to raise the level of transparency in disclosure and full compliance with the laws and regulations of authorities and markets, the following has been done:

- The committee is responsible for the management, follow-up, and supervision of insiders' trading and their ownerships, and keep their record.
- Prepare a special and integrated register for all insiders, including persons who may be considered
  as persons with temporary insiders and who are entitled or have access to the company's internal
  information prior to publication. This record includes the prior and subsequent disclosures of the
  insiders.

The rules of trading of the members of the Board of Directors of the Company, its employees and insiders in its shares expressly stated the prohibited trading periods provided for in Article No. (14) of Resolution No. (2) for the year 2001 issued by the Board of Directors of SCA regarding the system for trading and clearing, which stipulates that the chairman and members of the board of directors of the listed company are prohibited from trading their securities and their general manager or any of the employees who are aware of the material information of the company trading with himself or for his account by third parties or in any other capacity for the account of others. The parent company, affiliate, sister or associate of that company if any of these companies are listed on the market during the following periods:

- Before ten (10) working days from the announcement of any material information, unless the information is the result of sudden events.
- Before fifteen (15) days from the end of the quarter, semi-annual or annual financial period until disclosure of the financial statements.

# B. The table below shows the shares owned by the Board of Directors and transactions as of 31 December 2023 as follows:

S/N	Name	Position /Relationship	Shares Held as at 31/12/2023	Total Sale Transactions	Total Purchase Transactions
1	Sheikh Kayed Omar Saqer Mohamed Alqassimi Represented by (Government Of Ras Al Khaimah)	CHAIRMAN	 29,819,631

Mr. Yusef Ali Muhammad Ghuloom Al Balushi, was elected to the vacant position as a member of the Board of Directors on 03 April 2023.

# B. Women's representation in the Board of Directors for 2023

As per Article (19) of the Article of Association of Gulf Cement Company, the company is managed by a Board of Directors consisting of seven members, as follows:

	Description	Number	%
Male		6	85%
Female		1	15%

## C. <u>Directors' Remuneration</u>

The remuneration of the members of the Board of Directors shall be determined according to the provisions of Article (171) of Federal Decree Law No. 32 of 2021 of Commercial Companies and the provisions of Article (29) of the SCA Chairman's Resolution No. (3/Chairman) of 2020 and it's amendments and the Article (58) of the Article of Association of the Company.

Remuneration of the Chairman and members of the Board of Directors is made up of a percentage of the net profit not exceeding 10% of the fiscal year profits. The Company may also pay expenses, fees, additional bonuses; a monthly salary as decided by the Board of Directors to any of its members if this member works in any committee, makes special efforts, or additional work to serve the Company in addition to his regular duties as a member of the Board of Directors. Attendance allowance may not be paid to the Chairman or a Board member for attending the Board meetings.

The fines imposed on the Company due to contraventions by the Board of Directors of the Companies Law or the Articles of Association of the Company during the ending financial year shall be deducted from the remuneration of the Board of Directors. The general assembly may not deduct such fines if it finds that such fines are not due to omission or error by the Board of Directors.

### 1. Total remuneration of Board members paid for the year 2022

There are no remuneration paid to the members of the Board of Directors for the financial year ended December 31, 2022.

# 2. Total remuneration of Board members proposed for 2023

The remuneration of the members of the board of directors is determined by a proposal from the board of directors to be submitted to the general assembly. However, it should not exceed 10% of the net profit for the fiscal year ending on December 31, 2023, after deduction of all the depreciation and reserves. Since the company has not attained profits for the year 2023 No remuneration proposal will be presented to the members of the Board of Directors.

# 3. Allowances for attending the sessions of the committees emanating from the Board of Directors for the year 2023

There are no allowances paid to members of the BOD for attending the meetings of the committees for the year 2023.

4. Additional allowances, salaries or fees received by a board member other than the allowances for attending the committees for the year 2023

A proposal will be submitted to pay fees to the Board of Directors for the financial year December 31, 2023, in accordance with the governance in this regard.

# D. Board of Directors' meetings during the financial year ended 31 December 2023

In accordance with the provisions of Article (23) of the resolution of SCA no. (3/Chairman) of 2020 concerning Approval of Joint Stock Companies Governance Guide and in accordance with the provisions of Article (28) of the Article of Association of the Company, that the Board of Directors shall conduct its meetings at least four times a year and the meeting shall be based on a written invitation from the Chairman of the Board, or upon the written request of at least two members of the Board. The invitation shall be sent not less than one week prior to the specified date together with the agenda. Each member has the right to add to the agenda any matter he deems necessary for discussion in the meeting.

In accordance with the above controls, the Board of Directors of the Company held 6 meetings during the financial year ended 31 December 2023, as shown in the following table:

Number of meeting	Date of the meeting	Number of Attendees	Number of attendance by proxy	Absents
1	13/02/2023	6	-	-
2	03/04/2023	6	-	1
3	11/05/2023	7	-	<u>-</u>
4	09/08/2023	6	-	1
5	14/11/2023	7	<b>-</b>	<u>-</u>
6	20/12/2023	7	<u>-</u>	<u>-</u>

## E. Resolutions of the Board of Directors issued by passing during the year 2023

There are no resolutions issued by passing during the fiscal year 2023

# **Committees of the Board of Directors**

According to the Chairman of the Authority's Board of Directors Decision no. (3/Chairman) of 2020 concerning Approval of Joint Stock Companies Governance Guide, the Board of Directors has formed permanent committees that follow it directly in order to contribute to the implementation of its tasks, and these committees play a fundamental role in supporting the Board in carrying out the tasks and duties entrusted with them in the management of the company, and each committee operates within the scope of its competence approved by the Board.

The Board has established procedures that specify the mission of the Committee, the duration of its work, the powers granted to it, the manner in which the Board of Directors supervises it, and the tasks assigned to it. The Committee presents a written report of the procedures, results and recommendations with absolute transparency.

### (4) Audit Committee

# A. Acknowledgement of the Audit Committee's Chairman regarding his responsibility for the committee's system

In accordance with the requirements of Article (61) of the Chairman of Authority's Board of Directors' Decision no. (3/Chairman) of 2020 concerning Approval of Joint Stock Companies Governance Guide. **Mr. Abdullah Muhammad Hassan Muhammad Al Hosani - Chairman** of the Committee - acknowledges his responsibility for the committee's system in the company and for examination of the mechanism of its work and ensure its effectiveness for the year 2023.

# B. Names of members of the audit committee, and a statement of its functions and the duties assigned there to:

The Board of Directors elected by the General Assembly held on April 11, 2021 has formed the Audit Committee to support the Board of Directors in many areas and in accordance with the requirements of Article (58) of the Chairman of Authority's Board of Directors' Decision no. (3/Chairman) of 2020 concerning Approval of Joint Stock Companies Governance Guide. The Audit Committee consists of three non-executive members, two of them are independent members. The Committee is chaired by one of them. All members of the Committee have knowledge and experts in financial and accounting matters with previous work experience in the financial field and they have a financial certificate and the names of members as follows:

Name	Position	Category
Mr. Abdulla Mohammed Hassan Mohammed Al Hosani	HEAD	Independent
Mr. Husam Mohammed El-Sayed Hussein Represented by (Al-Khair National For Stocks & Real Estate Co.)	Member	Non - Independent
Mr. Hammed Fahad Hamad Alwnais	Member	Independent

## **▶** Duties of the Audit Committee

The Audit Committee is undertaking its duties as per the requirements of SCA resolution no. (3/Chairman) of 2020 concerning Approval of Joint Stock Companies Governance Guide, as follows:

- 1. Review the Company's financial and accounting policies and procedures.
- 2. Monitoring the integrity of the Company's financial statements and reports (annual, semi-annual, and quarterly) and review thereof as part of its normal work during the year, and the committee shall particularly focus on the following:
  - ✓ Any changes in accounting policies and practices;
  - ✓ Highlighting the aspects that are subject to the management's discretion;
  - ✓ Substantial amendments resulting from auditing;
  - ✓ Supposing continuity of the Company's business;
  - ✓ Commitment to the accounting standards approved by the Authority;
  - ✓ Commitment to the listing and disclosure rules and any other legal requirements related to preparation of financial reports.
- 3. Coordinating with the Company's Board of Directors, Senior Executive Management, and the financial manager or the manager doing such role in the Company, for the purpose of performing its duties.
- 4. Considering important and unusual clauses that are or shall be mentioned in such reports and accounts, the committee shall also pay the required attention to any issues brought up by the financial manager, the manager doing such role, compliance officer, or the auditor.
- 5. Submitting a recommendation to the Board of Directors respecting selection, resignation, or discharge of the auditor, and in case the Board of Directors rejects the recommendation of the Audit Committee in this regard, the Board of Directors shall include in the Governance Report a statement clarifying the Audit Committee recommendations and the reasons for the Board of Directors' rejection thereof.
- 6. Setting and implementing the policy of contracting with the auditor, submitting a report to the Board of Directors, specifying the issues the committee deems necessary to take procedures in relation to, and submitting the committee's recommendations concerning the steps required to be taken;
- 7. Ensuring the auditor's fulfillment of the terms stipulated in the applicable laws, regulations, and resolutions and the Company's Articles of Association, and following up and monitoring his/her independence.
- 8. Meeting with the Company's auditor without attendance of any of the personnel of the Senior Executive Management or representative thereof, at least once annually, and discussing with the auditor the nature and scope of the auditing process and its effectiveness according to the approved auditing standards.
- 9. Studying all that is related to the auditor's job, work plan, correspondence with the Company, comments, proposals, concerns, and any substantial inquiries posed by the auditor to the Senior Executive Management concerning accounting books, financial accounts, or control systems, and following up the Company's board of Directors response thereto and provision of the facilities required for performing the auditor's job.
- 10. Ensuring timely response of the Board of Directors to inquiries for illustration and substantial matters mentioned in the auditor's letter.

11. Review and assessment of internal audit and risk management systems in the Company.

- 12. Discussing the internal audit system with the Board of Directors and ensuring the latter's establishment of an effective system for internal audit;
- 13. Considering the results of primary investigations in internal audit issues as assigned to the committee by the Board of Directors or based on an initiative on the part of the committee and the Board of director's approval of such initiative.
- 14. Review of the auditor's assessment of internal audit procedures and ensuring coordination between the internal and external auditors.
- 15. Ensuring availability of the resources required for the internal audit department, and reviewing and monitoring the effectiveness of such department.
- 16. Studying internal audit reports and following up the implementation of corrective measures for the comments arising from such reports.
- 17. Setting the rules that enable the Company's staff to confidentially report any potential violations in financial reports, internal audit, or any other issues and the procedures sufficient for conducting independent and fair investigations concerning such violations.
- 18. Monitoring the extent to which the Company complies with the code of conduct;
- 19. Review of Related Party transactions with the Company, managing conflict of interests, and submitting recommendations concerning such transactions to the Board of Directors before concluding the contracts.
- 20. Ensuring implementation of code of conduct related to the committee's duties and powers assigned to it by the Board of Directors.
- 21. Submitting reports and recommendations to the Board of Directors concerning the above mentioned issues.
- 22. Considering any other issues determined by the Board of Directors.

### C. Audit Committee meetings during 2023

As per Article (62) of SCA resolution no. (3/Chairman) of 2020 concerning Approval of Joint Stock Companies Governance Guide, the Audit Committee shall conduct its meeting once every three months at least or whenever the need arises. We salute all our stakeholders who built this company and the remarkable heritage and unremitting tradition of good governance makes GCC stand out as an outstanding organization in the region this is the challenge that guides us in steering the organization's affairs

We express our firm support for the initiatives taken by the Government represented by His Highness Sheik Mohammed Bin Zayed Al Nahyan, President of the UAE, His Highness Sheik Mohammed Bin Rashid Al Maktoum, Vice President and Prime Minister of UAE and His Highness Sheik Saud Bin Saqr Al Qasimi, UAE Supreme Council Member and Ruler of Ras Al Khaimah.

The year 2023 remained yet another challenging time for Gulf Cement Company due to sluggish markets and have strived hard to control the operation by effectively promoting highest operational efficiency in the plant and promoted the culture towards excellency in achieving set targets and define new goals with an eye on Sustainability

GCC will align with the need of the hour, i.e. spearheading the national momentum for the reduction of CO2 emission and full support to the 1.5 deg c temperature—decrease limit as set in the Paris Agreement. GCC also firmly place their full—support and contribute—for the UAE Net Zero by 2050 strategic initiative, which will be a national drive to achieve net-zero emissions by 2050, making the Emirates the first Middle East and North Africa (MENA) nation to do so. Also noteworthy about—the recently—concluded COP28 meet in UAE & GCC—keen participation and—promotion to the—charted goals of the—Government and their closer relations with the Local EPDA authorities in implementing timely action plans to pursue—the goals of sustainability.

On this occasion, I thank Gulf Cement Company team for bringing out the fourth volume of Sustainability report for the year 2023 and appreciate all concerned in this regard.

Sheikh Kayed Omar Saqer Mohamed Alqassimi Chairman

4

# 1.4 CEO Message

It gives me a privilege to address the need of the hour through this Sustainability Report. We at Gulf Cement Company are extending our full support to all the initiatives taken by both Local and Federal Government and stand committed to the goals that are set in the interest of human society and all the living beings in a world with sustainable living condition for future.

During this year, in line with our Sustainable goals, we had initiated several measures to bring down the energy requirements of the plant both in thermal as well as Electrical fronts and was able to generate highest Green Power through the WHR Boilers in recent years. Owing to the overwhelming support from the Government of Ras Al Khaimah in terms of continuous Natural Gas supplies through RAK GAS, our usage of carbon intensive primary fuel, coal, was successfully replaced with Natural Gas as a measure to reduce our carbon footprint in the current year. This has reduced our Carbon footprints of our products and thus helping the Construction sector for reducing the CO2 counts and paving way for building greener societies.

During the year 2023, GCC was committed to sustainable growth with a higher degree of energy efficiency and saw a reduction in terms of emission of greenhouse gas GHG due to the initiatives taken by the company. We continue to extend our protection for the environment around the cement plant and focus on improved understanding of the environment around our operation, which will lead to preserve natural resources and aim for lower life cycle carbon footprint. The board of Directors have entrusted the implementation of Environmental improvement schemes in the plant to the Executive Management. Way forward, GCC also completed their In Country Value Certification and scored over 75% in the rating and thus promoted sustainable business with local entities. GCC took keen part in COP28 Meetings held in Expo city, Dubai on various platforms and partnered with RAK GAS for the presenting the sustainable contributions of RAK Emirate. We also supported the Local Government sponsored EPDA for their initiatives and have applied for ECOLABEL for our products to demonstrate our commitment for our sustainable goals. We also have signed a contract with Net Carbon Vision, India for pursuing our journey towards reduction of CO2 emissions by using Artificial Intelligence.

With the able support of both our honorable Chairman and the Board of directors, and my team in GCC, we are confident to lead the organization towards improving our performance in the goals of Sustainability.

I am extending warm greetings to my team on this occasion.

Mohammed Ebrahim
CHIEF EXECUTIVE OFFICER

# 2.2.5 Risk Management

The Company Board of Directors adopted the policies, frameworks and regulations that ensure effective management of risks based on the nature of the company work and the Risk Management Policy and Framework is based on the principle that comprehensive risk management is the responsibility of the Board of Directors and its committees but also all company executives and employees.

The Company risk management framework provides a logical and systematic way to identify analyze, evaluate, treat and mitigate risks, monitor and prepare reports to ultimately allow leadership to take appropriate decisions and respond in a timely manner to risks when they arise. Therefore, the risk management framework in the company seeks to:

- Establish a framework for the risk management process and ensure it is implemented across the company.
- Ensure that all the current and future risk exposures of the company are identified, assessed, appropriately treated and managed.
- Ensure systematic and uniform assessment of risks across the company.
- Clearly define the roles and responsibilities of risk control to enhance the control and governance requirements of the Board of Directors and its committees, and effectively communicate the outputs of risk control to support the main business objectives of the company.
- · Create a risk aware culture.

- Contributing to business growth within the changing business environment and ensuring financial sustainability, as the company's risk assessment framework covers a wide range of risks, including:
- 1. Risks associated with operating and production.
- 2. Domestic and foreign market risks
- Risks associated to laws and regulations issued by the state, the local authority, and the Securities and Commodities Authority.
- 4. Risks and difficulties associated with the rapidly changing and evolving technology and information security.
- Risks and difficulties associated with maintaining human competencies.
- 6. Risks and difficulties related to suppliers, customers and stakeholders.
- Risks and difficulties related to Environment, natural resource constraints and other broad sustainability trends.

Internal audit Department is fully independent and directly affiliated to the Board of Directors, it implements audit and control policies, which aim to assess the Company's risk management procedures, contribute to the proper application of the Company's governance rules and verify the compliance of the Company and its employees with the provisions of laws and regulations. Reviewing financial statements, and reviewing accounting policies and practices.

#### 2.2.7 ANTI-CORRUPTION

In our dealings with customers, and suppliers we get our employees to strictly uphold the Group's policy on anti-corruption/bribery. GCC has clear-cut directives and regulations, regarding bribery of any sort and taken a number of other measures targeting at the risk of commercial bribery, to ensure that its business activities are carried out on the premise of fair lawfulness and compliance.

GCC was never involved in any litigation cases concerning corruption, bribery, since its inception and no any such cases reported for Financial Years 2021 & 2022 /2023.

#### 2.2.8 WHISTLE BLOWING POLICY

We had provided a mechanism for employees and external parties to report concerns over alleged wrongful acts. Employees as well has other parties are free to report about any fraudulent practices by reporting via phone calls, fax, emails and Management ensures strict action against the reported activity, in the event of finding it genuine. There were no whistleblowing cases in Financial Year 2021 & remained Nil in the financial Years 2021, 2022 & remained Nil in the financial year 2023.

#### 2.2.9 GCC STAKEHOLDERS AND MATERIALITY MATRIX:

#### MATERIAL ASPECTS ASSESSMENT

An important part of our sustainability journey begins with the identification of relevant aspects. Relevant aspects are then prioritised as material factors which are then validated The end result of this process is a list of material factors disclosed in the sustainability report.

The assessment process is as shown below:

To determine if an aspect is material, we assessed its potential impact on the economy, environment and society and influence on the stakeholders. Together with senior management and our external consultant aspects were identified and prioritised through internal workshops, peer reviews and social impact assessments on site.

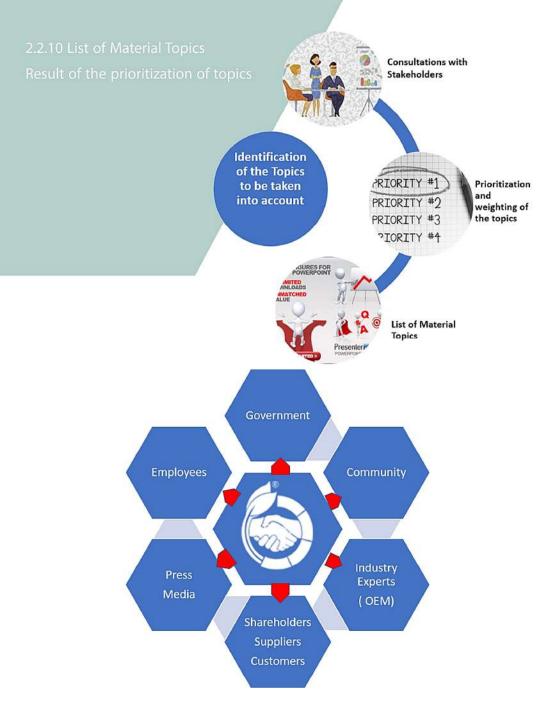

This process resulted in the identification of the Material Topics for GCC, which may have an impact not only on the creation of economic value for the company, but also at the environmental and social level which are manifestly important for the different groups of stakeholders that were heard. These topics are mirrored throughout this report in chapters 4, 5 and 6.

IDENTIFICATION of material factors that are of relevance to the Companies's activities and relevant topics from the ADEX Sustaibility reporting guidlines.

VALIDATION of the completeness of key sustainability factors identified to finalise sustainability report with consultation from stakeholders.

PRIORISATION Analysis of the results, and weighting of responses to stakeholders from different locations

We at GCC have mapped these material topics for our Materiality Matrix. The Top Management had identified in-house members who contributed in understanding the responsibility for preparation of Sustainability road map and have analyzed identified, and validated and prioritized the material topics, which are of vital importance for a sustainable development in near future, and the same is listed below:

#### 2.2.10 LIST OF MATERIAL TOPICS

- Health, Security and safety
- GHG emissions and climate change
- · Community development and local impact management
- Waste Management.
- · Energy conservation.
- Human Resources Management, Gender equality
- Other emissions
- Involvement of stakeholders
- · Water use and management
- · Product safety and quality
- · Customer relationship and satisfaction

#### 2.2.11 CORPORATE SOCIAL RESPONSIBILITY INITIATIVES

Cash and in-kind contributions made by the Company during the year 2023 toward the local community development and environmental conservation

#### Contributions:

The UAE community has a solid privacy and a lofty goal in the company's strategies, which is a national responsibility that establishes fundamental foundations for the tasks entrusted to everyone.

Likewise, the company is an integral part of the surrounding community and works wholeheartedly and with affiliation to consolidate effective community partnerships.

Gulf Cement Company continues to support community-based activity of all kinds with a package of voluntary contributions, based on the laws and regulations of the country. The company works to ensure that all its employees are an active and influential part of society.

#### Community outreach:

The company has exceeded the in-kind, cash contributions and reached the goal of active community participation through adoption of the executive management to BOD initiative in supporting the community and building a strong social relationship that contributes to the positive social impact, through community outreach to become the company part of the surrounding society.

#### Community voluntary contributions provided by the company

In accordance with Federal Law No. (2) for the year 2015 on commercial companies and it's amendments and the article no. (65) of the Article of Association regarding the voluntary contributions, which allowed companies to pay voluntary contributions, and stipulated that voluntary contributions should not exceed (2%) of the average net profit of the company during the two financial years preceding the year in which such voluntary contributions are paid, Since the company did not achieve profits in the two fiscal years (2021 & 2022), no cash contributions were made during the year 2023, but the company was keen to continue providing in-kind and service contributions by providing various building materials and services to help citizens with limited income from the local community and public utilities.

#### Environmental conservation:

The company is keen to comply with the laws and resolutions issued by the Ministry of Climate Change and the Environment, and by Environment Protection and development authority in Ras Al Khaimah. Implement the policy of the Board of Directors that the company to be all eader in its field by applying best practices related to sustainable environment and green products. Gulf Cement Company also pays attention to the environment and its sustainability, and it believes that it is one of the main objectives that requires attention and focus on it, represented in its efforts in environmental sustainability projects that contribute to preserving natural resources and also addressed in our Corporate Governance Report 2023 for reducing carbon emissions resulting from production processes in kilns, which confirms its distinction with environmental leadership. The company works to support UAE orientations towards the green economy through ongoing environmental projects.

#### Urbanization:

The company takes great interest in Urbanization Projects as it represents the bright facade of the environmental reality of the company. These projects contribute to the presentation of the company's commitment to the importance of urbanization to achieve professional safety and job security and other parties as per the Ministry of Climate Change and EPDA requirements.

ECOLABEL Certification

#### Landscaping:

The company has been concerned with afforestation in and around the perimeter of the company in order to achieve integration with urban construction projects that aim to highlight the aesthetic appearance of the company and increase the green area that contributes to improving the environmental situation of the area.

#### **Environmental certificates**

Obtained an Environmental Impact Assessment Approval Certificate from the Environment Protection and Development Authority in Ras Al Khaimah, allowing it to use all types of waste and alternative fuels in the company's kilns.

Renewing the environmental permit of the company issued by the Environmental Protection and Development Authority.

Certificate of thanks and appreciation from the Environment Protection and Development Authority in Ras Al Khaimah for the commitment to the environmental requirements and laws for Gulf Cement Company for the year 2023

ECOLABEL Certification from Environment Protection and Development Authority in Ras Al Khaimah, 2023

#### **Environmental communication**

The Authority honored the company on the efforts made and compliance with environmental laws and requirements.

The company was keen on continuous and permanent communication with both the ministry and the authority to provide them with the environmental reality of the company, benefiting from the electronic monitoring network and permanent monitoring devices, as the company takes all precautionary measures upon any interruption or sudden failure and informs the ministry and the authority, and as a result of these efforts, the ministry has become The authority is fully aware of the environmental reality of the company.

#### GCC cybersecurity- data storage

#### and security

Data privacy has become increasingly important in recent years, as the amount of personal data being collected and shared has grown dramatically. In response to the rise in cyberattacks & in-house data privacy policies implemented, Our Company has carried out a cleanup of their entire IT infrastructure and implemented measures such as setting up MFA, enhancing endpoint security, and conducting IT awareness training. We have also performed a vulnerability assessment and penetration testing, and implemented various security measures including a firewall, VPN with MFA, and threat monitoring for Office 365. Additionally, Company has digitized important documents and implemented data and analytics tools. Moving forward our IT strategy for 2024 focuses on security and risk management, application upgrades infrastructure and operations improvements, and building an in-house techno-functional team to enhance data security capabilities. As per Federal Decree-Law No. 45/2021 On The Protection of Personal Data (PPDL) The employee sensitive data like personal details, Family details, Bank details and other sensitive data have restricted authorization and managed by strict authorization matrix in SAP.

Gulf Cement are upgrading to SAP S/4 HANA solution to have the following advantages in the Business processes.

- Empowered with native mobility solution in business processes support paperless workflow.
- Reduce data footprint by 70% & SAP has stopped new developments in ECC old version.
- ☑ Enhanced Weigh Bridge Operations with 45% more Efficient
- Time Attendance Integrations Will increase Business users efficiency by 40 %
- System driven monitoring for CCR, Temperature, Power, Heat & Lubrication oil consumption, Break gap with delivery etc. Proactive action and alerts will help us to save up to 30 % of maintenance and operational cost
- ☐ Trend/Ration Analysis: Fuel & Spare part consumptions can help to achieve optimization of inventory by 25%
- Digitalization of Calibration process & ISO processes reduce the Non Confirmative (NC's) during various Audits and supports paperless process
- Plant Maintenance Technical Logbook Improve accuracy in data logbook and more transparency to Management
- WCL: Warranty claim managements reduce human error and cost saving up to 10%
- ☑ End to end Work permits processes
- End to end SAP Standard DMS Implementation Paperless Environment with 50% of Data Compression and Encryption
- SAP HCM UAE localization implementation & Migration International (99) payroll data support to incorporate future statutory changes as per UAE labor law and Federal Tax Authority

### 2.3 HUMAN RESOURCES

"GCC Management
system provides due
processes for employee
participation in
organizational
development and
considers the employees
as their assets"

### 2.3 HUMAN RESOURCES

Employee Wellbeing being always focused in the work culture and GCC takes pride as a company to be acknowledged as one of the "Best Places to Work" in the UAE cement industry. At GCC we believe people are the pillars of the company and thus must be well taken care of. The company strive to create an environment where employees realize their full potential, values, and contribute their best they are adequately recognized and rewarded for their efforts .

The workforce representing all parts of the world and a variety of ethnic, cultural and religious backgrounds. GCC employees display a strong sense of loyalty to the Company. The employee strength remain stable. The high satisfaction score indicated that a significant share of employees is satisfied with various work related initiatives, people processes, training and learning opportunities.

The strategy of the Ministry of Human Resources and Emiratization was based and formulated on the UAE Vision 2022 through its initiatives; the Ministry has sought to achieve the government's strategic goals giving priority to increasing efficiency, flexibility, and productivity in the business market conforming to international standards and conventions in the field of work and labour organization.

Taking a lead from the above, GCC practice a highly comprehensive system for protecting labour rights, while safeguarding employers' interests; by providing excellent services in order to make the GCC as one of the best destinations in the work area and for living for their employees

GCC also strengthened its base by providing full safety, security and stability for the workforce and are deploying many cultures and nationalities, so that the GCC remains a favorable work place in UAE.

#### 2 3 1 FMPI OYFF TRAINING

The growing importance of continuous training the workforce is recognized as a major competitive advantage in business today. The emergence of Big Data and Artificial Intelligence has just accelerated the need for skills within this discipline. The foundation for success in this new paradigm is the establishment of practices dedicated to the discipline of data management. GCC has now a full-scale upgradation of their SAP stem to S4-Hana and expected to go live in 2023, which will enable the organization into a paperless work culture and have disciplined workforce for smart work.

TRAINING DETAILS	Year 2022	Year 2023
Training Imparted (No of hours)	519	1013
No of Employees covered	361	1013

#### 2.3.2 EMIRATIZATION

GCC has always complied with the roles and regulation and have recruited the Emirati employees' percentage proportion as per the directives of the Ministry of Human Resources & Emiratization (MOHRE). For the year 2023; the following table summarize the Emirati employee count in the organization

By Gender	Year 2022	Year 2023
Emirati-Male	19	30
Emirati-Female	14	15

#### 2.3.3 EMPLOYEE COUNT

GCC attracts the best talents from all parts of the world and currently have multinational global workforce to balance the need of the work inputs.

Fair practices are adopted in treating all the employees alike irrespective of their origin and widely respect their culture while adopting the work standards in order to derive the best out of these talents.

The split of employee counts in the company are as given below:

By Gender	Year 2022	Year 2023	
Male	424	385	
Female	14	15	

GCC actively support Women Empowerment

#### 2.3.4 GENDER DISTRIBUTION

GCC has a wide spectrum of nationalities constituting the work force, which includes both Emirati and Expatriates and this year and the ratio of the Emirati employees to the total employee's stands at 9.8% and follows the directives of Ministry of Human Resources & Emiratization (MOHRE).

As a part of sustainable goals, GCC is doing well to encourage the Emirati personnel's to develop as per the initiatives of the Federal and Local Government

The development of Emirati employees will remain in the prime focus for the company in years to come. As per the work demand, employees are regularly recruited in place of those who have left the organization either due to Termination of Service/Sickness resignation from service.

By Nationality	Year 2023
Emirati	45
Expatriates	385
By Gender	
Emirati Male	30
Emirati Female	15
Expatriate Male	385
Expatriate Female	None

### 2.3.5 EMPLOYEE TURNAROUND

Particulars	Year 2023

- 3.3.2 Sustainable Development Goals

### 3.1.1 FEDERAL LAWS

#### The applicable federal laws are referred here:

Federal Law No. (24) 1999

Federal Law No (24) concerning the Protection and Development Executive Order of the Federal Law No (24) 1999

Ministerial Decree No 137 (2012) for Cement Industries Regulatory Guidelines for Environmental Control in the Cement Industry.

Article-1: Scope of Application: The provision of this resolution will apply to all the establishments operating in the field of cement industry in the UAE, in addition to the decisions issued by the competent authorities.

Article-2: Environmental Impact Assessment: All the establishments in the UAE will have an EIA report prepared by an Environmental Consultant experienced in the cement industry.

3.1.2 LOCAL REGULATIONS

Regulation No (1) 2001 for public hygiene in the Emirate of Ras Al Khaimah LAW NO (2) 2007

For the Environment Protection and Development Authority – Ras Al Khaimah Law No (2) 2007 stipulates that the competent environmental authority in the Emirate of Ras Al Khaimah is the "Environment Protection and Development Authority" (EPDA – RAK) under the Chairmanship of the Crown Prince and Deputy Ruler.

In order to abide by the Laws, and to protect the environment GCC has initiated several steps in the plant including the state of the art Bag filters with an emission levels of <5 mg/nm3 which is very stringent than the permissible levels by the regulations.

GCC has installed a Continuous Emission Monitoring Systems (CEMS) which minutely monitors the emission levels from the chimney gases, as per the mandatory requirement for the stacks and have already linked the outputs to the ministry online.

The ambient air quality is also strictly monitored for all the emissions, and particulates and sharing the output of the unit online with the Ministry.

We have no violation on the environmental and have 100% compliance with the stipulated laws regarding the maintaining of emission levels

3.2 CONSERVATION OF

NATURAL RESOURCES &

USAGE OF ALTERNATE

FUELS.

The raw materials used for year 2023 are tabled below:

Year 2023	Limestone	Silica	Cu Slag & Used Grits
% Usage	79.45	17.55	3.0

GCC continues to promote the local suppliers by resourcing their materials from locally available resources and 97% of the raw materials are arranged within the country. Copper slag, an alternative material to the natural iron ore is being recycled in appreciable quantities in both the years. Usage of the locally available red silica materials is being continued and replaced bauxite raw material which otherwise was imported into the country. GCC Continued their effort in preserving Natural resources and actively promoted the utilization of alternate raw materials and recycling the gypsum wastes from Knauff and utilization of waste material (Used Grits) from Dubai Dry Dock World.

Utilization of Alternate Fuels in both Kilns and Boilers for the year is significantly low due non availability of materials and feeding arrangements.

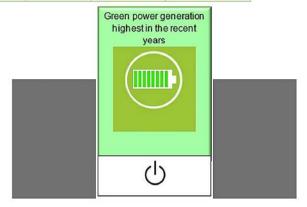

## 3.2. A Raw water consumption, alternate fuels & recycled water for Steam Turbine Generator

Year	2021	2022	2023
Total Raw Water(M3)	1,619,453	1,195,806	1,373,539
STG Raw Water(M3)	1,085,157	832,046	1,014,770
Recycled Raw Water(M3)	238,449	227,522	198,039

The power generation had to be reduced owing to increase in fuel pricing and better power plan Management was prevailed which led to the stoppage of the CFBC boiler and accordingly the waste recycling was restricted during the year.

### 3.2.B Generation of Captive Green Power:

Year	2021	2022	2023
Gross Power Generation (Kwh)	203,558,895	141,441,000	180,646,000
Green Power generation ( Kwh)	130,819.483	104,674,192	176,390,328
% Green Power Generation to total	64.26%	74.01%	97.64%

### **Power Consumption**

Year	2021	2022	2023
Gas Turbine Power KWH	89,334,939	74,569,329	153,869,777
Steam Turbine Power, KWH	179,938,210	122,969,119	162,354,678
Etihad WE Power, KWH	80,538,834	100,098,640	65,389,808
% Gas turbine to total Power	25.54	25.05	40.32
% Steam turbine Power to total Power	51.44	41.32	42.54
Year	2021	2022	2023
Specific Power Consumption, KWH/T of clinker	82.99	84.53	74.12
Specific Power Consumption, KWH/T of Cement	46.03	48.97	42.71
Total Power consumption, KWH/T up to Cement sales	2.46	2.78	2.22

## 3.2. C. Alternate fuels for Pyro processing:

In the last three years, availability of alternate fuels remained a low profile, and GCC consumed lesser amounts of alternate fuels and hence the thermal substitution rates are lower.

In year 2023, Gulf Cement a new project has been initiated for addition of alternate fuels in the company and expected to go on stream by First quarter of 2025.

ALTE	RNATIVE FUEL U	SAGE IN GCC	
	Year 2021	Year 2022	Year 2023
Thermal Substitution Rate %	0.21	0.125	0.71

#### 3.2 D. Environment Performance

Our approach to managing environmental impacts is based on stringent operating practices and adherence to high international standards and local regulatory requirements. We are committed to minimizing negative impacts on the environment and optimizing our operational efficiency during the design, planning, construction and operation of our projects and businesses.

Our environmental policies, our environmental management and compliance commitments are aligned with ISO 14001 Environmental Management Systems (EMS), which include environmental impacts and risk assessment, laws and regulations, due diligence, planning and monitoring.

Standard operating procedures are established and reviewed regularly to ensure they are up to date with the latest environmental requirements set by relevant authorities in order to manage and mitigate environmental risks arising from our operations.

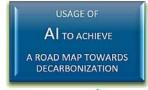

Additionally, GCC conducts periodic training and awareness programmes for our employees to facilitate and ensure the effective implementation of environmental management. Topics covered include environmental policy and operating procedures, environmental emergency preparedness and response, energy savings, waste recycling and water use.

We ensure all our plants and operations comply with legal and regulatory requirements. We have there were no records of chemical or oil spills into water bodies, nor were there any significant fines for non-compliance with environmental laws and regulations on environmental issues such as air emissions, effluents, pollution etc. that were administered by EPDA, Ras Al Khaimah

# 3.3 SUSTAINABILITY MEASUREMENT

Cement production makes up an important role in the global CO2 emissions from industrial and energy sources. Gulf Cement Company as a responsible producer is always committed in lowering our carbon foot prints have calculated the carbon footprints of our product in house and the CO2 emissions over a period of last three years have shown a downward trend.

The study has references to ISO 14064-1:2006 (Greenhouse gases — Part 1: Specification with guidance at the organization level for quantification and reporting of greenhouse gas emissions and removals) & ISO 14067:2018 (Greenhouse gases — Carbon footprint of products — Requirements and guidelines for quantification).

The measurements and reporting are highly transparent and truly reflect Gulf Cement Company's commitments in reducing their product carbon footprint and adhering to our goals set for Sustainability.

#### 3.3.1. CO2 emission from cement plant for years 2021, 2022 & 2023

As a commitment to attaining specific reduction towards reduction of CO2 emissions from the company, GCC has initiated several steps towards the same as can be seen in the following trends.

Parameters	Year 2021	Year 2022	Year 2023
Total Clinker Production MT	2,844,164	2,290,237	3,175,170
Total Volume of CO <sub>2</sub> Emission in MT ( Scope 1&2)	2,541,185	1,945,928	2,573,999
CO <sub>2</sub> Emission Per Ton of clinker	893.47	849.66	810.66
CO <sub>2</sub> Emission Per Ton of Cement	869.06	825.47	783.64

#### SUSTAINABILITY MEASUREMENT

Live Continuous Emission Monitoring System (CEMS)

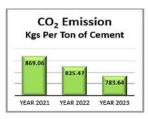

#### Note:

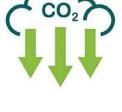

The following were used in calculating the CO2 emissions

- 1) WRI/WBCSD 2004. The Greenhouse Gas Protocol: A Corporate Accounting and Reporting Standard
- 2) GHG Protocol Corporate Accounting and Reporting Standard

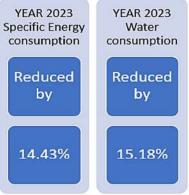

3) The tools are consistent with those proposed by the Intergovernmental Panel on Climate Change (IPCC) for compilation of emissions at the national level (IPCC, 1996).

Clean Industry - Sustainable Environment

Clean Industry - Sustainable Environment

## 3.3.2 SUSTAINABLE

## SUSTAINABLE GOALS

## Gulf Cement Company has the following visions for a sustainable environment by Year 2030

- Promote Initiatives towards Sustainability by following both the Federal Government, and Local government policies.
- ♦ Promote Sustainable Economic growth.
- ♦ Promote industrial innovation for conserving Energy.
- ♦ Promote recycling of all wastes in the plant & other sources in the Emirate
- ♦ Promote Good health and well-being by providing safe working environment to all.
- Promote Emiratization.
- ♦ Promote Gender equality by Emirati women participation.
- Promote transparency Management by code of conduct practices for suppliers and all workmen across the company.
- Active participation in the efforts taken by UAE Government towards achieving NETZERO by year 2050

### CHAPTER 4

#### SOCIETY AND OTHER ASPECTS

GULF CEMENT ACTIVELY PROMOTING SAFETY, HEALTH

&

CLEAN SUSTAINABLE ENVIRONMENT

TO

ALL STAKE HOLDERS OF

- 4.1 Safety Management
- 4.1.1 Health and Safety our priority
- 4.1.2 High level standard work environment
- 4.2 Company Quality Health Safety and Environmental policy
- 4.3 Training and Accident statistics

### 4.1 SAFFTY MANAGEMENT

### 4.1.1 Health and Safety our priority

Health and safety are our values forms an important part of our sustainability agenda. GCC has a pertinent commitment to conduct their operation with zero risk to human lives to all their employees & stakeholders by providing excellent safety standards, healthy and secured work conditions and transparency in communication on relevant health and safety issues. The company now certified to ISO 45001 standards and focus on the key elements of Safe work arena for all concerned and continuous improvement in their safety performances. It is emphasized to all concerned that the Health and Safety Rules of the company are a prime responsibility of the individual, his/her involvement and self-commitment.

Safety Meetings on a regular basis with both self and contractual work force focusing primly on the safety and health have been established at plant level, which typically represents the entire workforce within the plant. There is a well-established Management System for the contractual workforce deployed from time to time, where implementation of safety standards are constantly monitored and guided by senior management for improvements. Contractors and their employees are made a ware that their involvement and interactions in the Health & Safety process forms an integral part of the overall H&S management system While dealing with H&S matters, it is also made clear that the company treats everyone is on an equal footing & the practice the value relationship with the contract employees the same way as our own employees.

GCC provided adequate safety induction training to all workers; visitors alike & ensure strict compliance of implementation of safety measures within the factory premises at all times.

The year and last saw no fatal accidents and the total man hours put in for training has increased for the year 2023. The training agenda prioritized for Induction, Firefighting Working at Heights and summer awareness topics which promoted the principles of our Safety Management System.

"Our outlined framework for Health and Safety puts our employees and all stakeholders at the center in all of our activities and actively promote zero risk for all operations".

Together we ensure Safety for All

Mohammed Al Shehhi, CEO

## 4.1.2 High level standard work

"Good House keeping and work environment audits are being regularly conducted and updating our standards to present a lively atmosphere for the work in the company".

Mohammed Al Shehhi ,CEO

THE EMIRATES

#### **Gulf Cement Company** Ras Al Khaimah-United Arab Emirates Quality Health Safety and Environment policy

Gulf Cement Company is specialized in Manufacturing, Storage, Marketing and Sales of all types of cement (OPC/SRC/MSRC/OWC), fly ash and ggbs for UAE markets and abroad. Top Management recognize the significance, accordingly prepared, documented, established and implementing an Integrated Management System (IMS) aligned with all applicable legal regulations, code of practices and international standards ISO 9001:2015, ISO 14001:2015, ISO 45001:2018 and latest editions of API Spec Q1 requirements.

We aim to achieve the objectives by:

- Produce highest quality of cement in timely manner, which will conform to the international standards/Specifications including Oil well cement.
- Follow all statutory regulations and provide continuous training for all concerned employees in the required
- 3. To demonstrate continual improvement of its product including Oil well cement and the effectiveness of QMS through measurements of Quality Objectives in line with the quality policy.
- 4. Proper communication and consultation with employees, other involved parties regarding company policy, procedures and commitments' to improve their awareness and contribution to maintain legal compliance, client requirements and suggestions for continual improvement of the IMS.
- 5. Careful selection, allocation of competent personnel, performance evaluation, providing specific trainings, safe work procedure, proper tools and safe equipment to perform activities in utmost safety to prevent injury and ill
- 6. Performing maintenance inspections, audits, implementation of proper corrective actions to control or eliminate all potential non-conformities to ensure Quality, Health, Safety and Environmental conformities and legal
- 7. Conducting proactive hazard/aspect identification, risk/impact assessment, determination and implementation of reliable control measures for continual improvements.
- 8. Promoting involvement of all personnel attention for emergency response and maintaining positive HSE culture on all work sites, company camps and offices.
- 9. Promoting pollution prevention by enforcing Reduction, Recycle and Reuse practices, avoidance of misuse of water and fuel, toxic emission prevention, waste disposal as per regulation for assuring a safe, healthy survival and for pleasant future.
- 10. Setting and reviewing QHSE objectives & targets on periodic basis and set further targets with respect to Quality, Health Safety and Environmental Management system.

This policy and Quality objectives are communicated , understood and implemented and maintained t all relevant functions and levels of the organization as well as being reviewed periodically for assessing the opportunities for improvement and changes if any needed to them and shall be made to any interested party or member of public on

Mohammed Ebrahimouh Al Shehhi Chief Executive Officer

## 4.2 Training and accident statistics

#### Implementation of Fatality

#### Prevention Elements

The untiring Health & Safety practices helps develop benefits across the business and ultimately achieves great results whilst keeping our people safe.

GCC have provided adequate training for all the safety and environment related agendas to all concerned workers throughout the year and special emphasis were I aid during annual major shutdown time.

To reduce health risk factors among employees and their families a well-structured Safety Management system being established and keeps the spirit high amongst all employees.

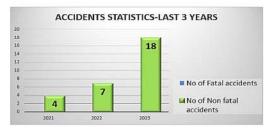

For three consecutive years, the total no of fatal accident remained zero and GCC have maintained clean safety records and will strive hard to maintain a healthy safety statistics in years to come.

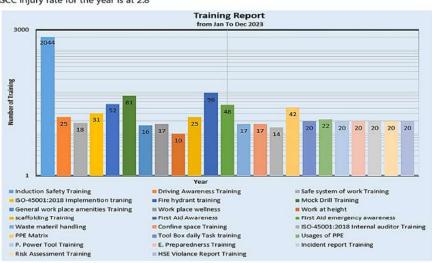

The No of accidents have increased in the year 2023 GCC injury rate for the year is at 2.8

### Plans for improvements:

To protect our people through enhancement of standard operating procedures (SOPs)

To provide professional education and training to stay abreast of the shifting trends of health and safety in the workplace

### GLOSSARY & ABBREVIATIONS

- ADX Abu Dhabi Securities Exchange (ADX), United Arab Emirates .
- CSR Corporate social responsibility.
- EPDA- Environment Protection and Development Authority, Ras Al Khaimah, UAE.
- ESG Environmental, Social and Governance.
- GCC Gulf Cement Company, a PSC company in U.A.E. Ras Al Khaimah.
- GRI Global Reporting Initiative, which is an International framework recommended for reporting progress against Sustainable Development.
- GPS Global Positioning System
- **GHG** Greenhouse Gases are the gases that absorb and emit radiation within the thermal infrared range of the earth's atmosphere.
- MOCCAE- Ministry Of Climate Change and Environment .
- MOHRE- Ministry of Human Resources & Emiratization.
- MW Megawatt, a unit of power equal to one million watts .
- **NOx** A generic term for Nitrogen oxides usually refers to it as an air pollutant.
- **OEM** Original Equipment Manufactuerer
- **PPE** Personal Protective Equipment- Protective clothing, helmets, goggles, or other garments or equipment designed to protect the wearer's body from injury.
- **SOx** A generic term for Oxides of Sulfur usually refers to it as an air pollutant.
- **Sustainable Development** Development that meets the needs of the present without compromising the ability of future generations to meet their own needs.
- Sustainability Reporting A practice of measuring, disclosing, and being accountable to internal and external stakeholders for organizational performance towards the goal of sustainable development.
- UNSDGS United Nations Sustainable Development Goals is an intergovernmental set of aspiration goals officially known as Transforming Our World: The 2030 Agenda for Sustainable Development
- UNGC -United Nations Global Compact is an UN initiative to encourage global businesses to adopt ten principles covering Human Rights, Labour Standards, Environment and Anticorruption
- WHR Waste Heat Recovery Generating power by utilizing waste heat from preheater and cooler gases, by producing steam running the Steam Turbine Generator.

We thank
you
all for a better sustainable tomorrow
