7-Summary of the company's performance for the last fiscal year. The excellent performance during the period under review in Sudan is overshadowing the poor situation in West Africa. The crisis in Sudan continues to disrupt the business operations, especially in the western regions. During the past months the technical teams have gained access to various parts of the network and other facilities in the Khartoum area. This has enabled repairs to recover the network sites to generate telecom services. The revenue continues to recover over this year. The Sudanese pound continues to depreciate against the USD.
