**SUPPLEMENTARY DISCLOSURE TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS (UNREVIEWED)**

On 11 March 2020, the Coronavirus (COVID-19) outbreak was declared, a pandemic by the World Health Organization (WHO) and has rapidly evolved globally. This has resulted in a global slowdown with uncertainties in the economic environment. This included disruption to capital markets, deteriorating credit markets and liquidity concerns. Authorities have taken various measures to contain the spread including implementation of travel restrictions and quarantine measures. The pandemic as well as the resulting measures and policies have had some impact on the Group. The Group is actively monitoring the COVID-19 situation, and in response to this outbreak, has activated its business continuity plan and various other risk management practices to manage the potential business disruption on its operations and financial performance.

The Central Bank of Bahrain (CBB) announced various measures to combat the effect of COVID-19 to ease liquidity conditions in the economy as well as to assist banks in complying with regulatory requirements. These measures include the following:

- Payments holiday for 6 months to eligible customers starting from and including 1 March 2020;
- Concessionary repo to eligible banks at zero percent;
- Reduction of cash reserve ratio from 5% to 3%;
- Reductions of liquidity coverage ratio (LCR) and net stable funding ratio (NSFR) from 100% to 80%;
- Aggregate of modification loss and incremental expected credit losses (ECL) provisions for stage 1 and stage 2 from March to December 2020 to be added to Tier 1 capital for two years ending 31 December 2020 and 31 December 2021. And to deduct this amount proportionally from Tier 1 capital on an annual basis for three years ending December 2022, 31 December 2023 and 31 December 2024.
- The CBB subsequently announced second and third deferrals of instalments of financing effective September 2020 for a period of four months, and January 2021 for a period of six months. These deferrals allowed the Banks to charge profit, and as such, did not result any additional modification losses to the Group;

The aforementioned measures have resulted in the following effects to the Group:

- The CBB mandated 6-month payment holiday requires impacted banks to recognize a one-off modification loss directly in equity. The modification loss has been calculated as the difference between the net present value of the modified cash flows calculated using the original effective profit rate and the carrying value of the financial assets on the date of modification.
- The Government of Kingdom of Bahrain has announced various economic stimulus programmes ("Packages") to support businesses in these challenging times. The Group received regulatory directive financial assistance representing specified reimbursement of a portion of staff costs, waive of fees, levies and utility charges and zero cost funding received from the Government and/or regulators, in response to its COVID-19 support measures. This has been recognized directly in the Group's equity.
- The mandated 6 months payments holiday included the requirement to suspend minimum payments and service fees and outstanding credit card balances, this resulted in a significant decline in the Group's fees income.

## SUPPLEMENTARY DISCLOSURE

BD '000's

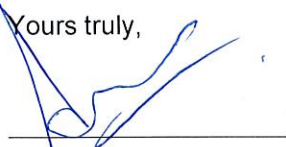

- The Group continues to meet the regulatory requirement of CAR, LCR and NSFR.
- The strain caused by COVID-19 on the local economy resulted in a slow-down in the booking of new financing assets by the Group. During period ended 31 March 2021, financing assets bookings were 52.26% lower than the same period of the previous year.
- Decreased consumer spending caused by the economic slow-down in the booking of new financing assets by the Bank, whereas, deposit balances decreased compared to the same period of the previous year. These effects partly alleviated the liquidity stress faced by the Group due to the mandated 6 months payments holiday.
- The stressed economic situation resulted in the Bank recognizing incremental ECL on its exposure.

A summary of the cumulative financial impact of the impact of the above effects from March 2020 is as follows:

	Net Impact on the Group's consolidated income statement BD '000	Net Impact on the Group's consolidated financial position BD '000	Net Impact on the Group's consolidated owners' equity BD '000
Average reduction of cash reserve	-	9,824	-
Concessionary repo at 0%	(278)	48,888	278
Modification loss	-	(9,452)	(9,452)
Modification loss amortization	9,452	9,452	-
Government grants	-	-	791
Credit card income	(313)	-	-
ECL attributable to COVID-19	(1,950)	(1,950)	-
	<u>6,911</u>	<u>56,762</u>	<u>(8,383)</u>

The above supplementary information is provided to comply with CBB circular number OG/259/2020 (reporting of Financial Impact of COVID-19), dated 14 July 2020. This information should not be considered as indication of the results of the entire period or relied upon for any other purposes. Since the situation of COVID-19 is uncertain and is still evolving, the above impact is as of date of preparation of this information. Circumstances may change which may result in this information to be out-of-date. In addition, this information does not represent a full comprehensive assessment of COVID-19 impact on the Group. This information has not been subject to a formal audit by external auditors.

Yours truly,

**Aman Ullah Khan**  
Head of Finance & Administration
