Messrs: Rum Financial Brokerage
“Public Shareholding Company”
Amman – The Hashemite Kingdom of Jordan

Introduction

We have reviewed the accompanying interim financial statements for **Rum Financial Brokerage " Public shareholding Co "**, comprising the interim statement of financial position as at 31 March 2024 and the related interim statement of comprehensive income, interim statement of changes in shareholders equity and interim statement of cash flows for the three months' then ended.

Management responsibility on financial statement:

Management is responsible of the preparation and presentation of this interim financial information in accordance with international financial reporting standard (IAS 34) interim financial reporting. Our responsibility is to express a conclusion on this interim condensed financial statement based on our review.

Scope of review

We conducted our review in accordance with the international standard on review engagements (2410) “review of interim financial information performed by the independent auditor of the entity.” a review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with international standards on auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, it has not come to our attention that the accompanying interim financial statements does not fairly present, in all material respects, the financial position of Rum Financial Brokerage Company (Public Shareholding Company) as at March 31, 2024, and its financial performance and cash flows for the period then ended, in accordance with International Accounting Standard 34, "Interim Financial Reporting”.

The Company's financial year ends on December 31 of each year and the accompanying interim financial statements are prepared for management purposes and the requirements of the Securities Commission

Rum Financial Brokerage
"Public Shareholding Company"
Amman- The Hashemite Kingdom of Jordan
Accounting Policies

Basic of Preparing the Interim Financial Statements

- The accompanying interim financial statements were prepared in accordance with the International Accounting Standard 34 (Interim Financial Reports).
- The interim financial statements were prepared according to the Historical Cost Principle except for the financial assets available for sale which are reflected at the fair value.
- The financial statements are presented in Jordanian Dinar; the functional currency of the Company, and the amounts are rounded to the nearest Dinar.
- The accounting policies for the current period are similar with the accounting policies of the previous period.
- The results of this interim do not necessarily represent the expected result for the whole financial year.

- **Use of Estimates**

Preparing financial statements and applying accounting policies require the Management of the Company to make some estimates and suppositions that may affect the financial statements and the accompanying notes. Such estimates are based on assumptions of different accuracy and certainty. Therefore, actual results in the future may differ from the Management's estimates due to the variations of conditions and circumstances of these assumptions.

Below are the most important estimates applied in the preparation of the financial statements:

- Management periodically reevaluates the useful life of tangible assets for the purpose of calculating the annual depreciation based on the general condition of those assets and estimated useful life in the future. The impairment loss (if any) is taken in the income statement.
- Management periodically reviews financial assets that are presented at cost to estimate any impairment in value and are stated in the consolidated statement of income
- The Management of the Company estimates the value of the provision for bad debts taking into consideration the possibility of collecting such liabilities.

- **Cash on Hand and at Banks**

Are represented by cash on hand and at banks and they do not involve risks of change in their value.

Rum Financial Brokerage
"Public Shareholding Company"
Amman- The Hashemite Kingdom of Jordan
Accounting Policies

- **Accounts Receivable**

Accounts receivable is reflected at cost after deducting the provision for bad debts. debts are written off when there is subjective evidence on the possibility of not collecting liabilities. The collected amounts of written-off debts are added to the revenues.

- **Financial Assets at Amortized Cost**

Financial instruments such as bills receivable, accounts receivable, due to banks, loans, accounts payable and accrued expenses are demonstrated at amortized cost by using the actual revenue method after deducting any impairment loss.

- **Financial Assets at Fair Value Through the Comprehensive Income Statement**

Change differences are recorded in the fair value of the financial assets defined at fair value from the other comprehensive income. The limited value of financial assets in the other comprehensive income statement that have market prices in active financial markets are demonstrated at fair value after deducting the impairment accumulated losses in their fair value.

The limited value of financial assets in the other comprehensive income statement that do not have market prices and which their fair value could not be reliably defined, are demonstrated at cost and any impairment in their value is recorded in the other comprehensive income statement.

The profits and losses resulting from the differences of foreign currencies exchange to interest-bearing debentures are recorded at fair value through the other comprehensive income statement. While, the differences of foreign currencies exchange for equity instruments are recorded in the accumulated change at fair value within the equity rights.

- **Property, Equipment, and Accumulated Depreciation**

Property and equipment are demonstrated at cost after deducting the accumulated depreciation. They are depreciated when they are ready for use on the basis of the straight-line method over their expected useful life by using the following annual rates:

Furnishings, furniture, and decorations	20%
Office supplies and computers	15%

When the recoverable amount of any property or equipment is less than their book value, their value shall be diluted and the remaining book value over the useful life is depreciated after the reevaluation of the reassessed year.

Rum Financial Brokerage
"Public Shareholding Company"
Amman- The Hashemite Kingdom of Jordan
Accounting Policies

- **Accounts Payable and Accruals**
Accounts payable and accruals are recognized after taking an advantage of the provided services for the Company, whether they were claimed by the supplier or not.
- **Setoff**
financial assets and financial liabilities are set-off and the net amount is reflected in the financial statements upon the availability of legally binding rights, and when they are settled on the setoff basis or when assets realization and liabilities settlements take place at the same time.
- **Provisions**
Provisions are recorded when there are legal or expected obligations of the company as a result of previous events where cash amounts are likely to be paid to fulfill such obligations. On the date of the financial position, the allocated provisions are reviewed and adjusted based on the latest information available to the Management.
- **Recognition of Revenues**
Revenues are realized upon buying or selling shares to the clients of the company and issuing invoice for them.
Interests revenues are realized on a time base to reflect the actual revenue on assets.
The distribution of the investment profits is recognized upon being approved by the General Assemblies of the investment companies.
Other revenues are realized according to the accrual basis.
- **Date of Financial Assets Recognition**
The purchase and sale of financial assets are recognized on the trade date (the date on which the Company commits to sell or purchase the financial asset.)
- **Impairment in the Financial Assets**
The Company reviews the value of the financial assets stated in the records of the company at the date of the financial statements to determine if there are indications of impairment in their value. In case of such indications, the recoverable fair value of the assets is estimated to define the impairment loss. In case the recoverable value is less than the net book value stated in the records of the Company, the impairment value will be stated in the comprehensive income statement.
- **Income Tax**
The Company is subjected to the Income Tax Law, as amended, and the instructed by the Income Tax Department in the Hashemite Kingdom of Jordan. The book takes place in accordance with the accrual basis where the provision for income tax is calculated according to the adjusted profit basis.

13- **Risk Management**

Interest Rate Risks

Interest rate risks result from the potential effect of changes in interest rates on profits of the company or the fair value of financial instruments. Since most of the financial instruments have fixed interest rate and are represented at amortized cost, the variability of the profits of the company and equity to changes in interest rate is considered inessential.

Credit Risks

Credit risks are risks resulting from inability or failure of the other party of the Financial Management to meet the obligations thereof to the company the matter that may result in occurrence of losses. The company works on minimizing credit risks by means of dealing with reputable banks.

Foreign Currency Rates Risks

Foreign currency risks are represented in the risk of fluctuation of the value of the financial instruments due to the fluctuations of foreign currency rates. Since most of the transactions of the company are in Jordanian Dinar, with some in US Dollar, the sensitivity of the profits of the company and equity to changes in foreign exchange rates is considered immaterial.

Share Price Risks

Share price risks result from change in the fair value of investment in shares, where the company works on managing such risks by means of diversification of investments in several geographic zones and economic sectors.

Liquidity Risks

Liquidity risks are represented in the inability of the company to provide necessary funding for performing its obligations at maturity dates. With a view to avoid these risks, the company diversifies the sources of funding, manages assets and liabilities and reconciles the terms thereof.
